OF THE OFFICIALS OF THE YEAR

1932

CITY DOCUMENT NO. 44

E. L. GRIMES PRINTING COMPANY
308 CONGRESS STREET
BOSTON

AN INDEX OF THE REPORTS APPEARING
IN THIS VOLUME WILL BE FOUND
AT THE END OF THE BOOK

INAUGURAL ADDRESS BY MAYOR CHARLES A. ROSS
MONDAY, JANUARY 2, 1933

Gentlemen of the City Council and Fellow Citizens of Quincy:

In assuming the duties of the office of Mayor of the City of Quincy, I am not unmindful of the tremendous task and important responsibilities that are mine. This community, like others everywhere in our Nation, is passing through the gravest economic period in history. National, state and municipal governments are confronted with problems and responsibilities which require the keenest foresight and courageous, energetic leadership. We, who have been elected to positions of responsibility in our City, are entering into office, I know, with the loyalty and good wishes of the entire citizen body.

The situation in which we, as a city, find ourselves is sufficiently grave. The problems which confront us at this time are more important and more serious than ever before in our history. They should not, however, discourage us in the slightest but rather serve as a challenge and be met with a firm and steadfast determination to solve them in the best way possible. We should abandon all thought of further spending of money for municipal luxuries. We must confine ourselves to the necessities which the efficient operation and normal progress of our city require. We must at the very beginning of our administration commit ourselves to a program of rigid economy.

We should reduce the cost of operation of our City Government, and I believe this can be done. It is my purpose to do everything possible to reduce the budget and it is for you and your committee to carefully scrutinize every item in order to assist.

The taxpayers of our City are demanding relief from the tremendous burdens which have been placed upon them during the past few years. Not only has income from property been decreased but our local industries working on part time also make it more difficult for the taxpayers to meet their tax obligations.

In common with conditions in general, many of our people are finding themselves without employment and with very little reserve to fall back on. The best minds dare not predict how long this will continue. Unemployment and distress are all around us and more in evidence than ever before.

The laws of this Commonwealth require and the good of this City necessitates that the Welfare Department shall see that the poor and needy are aided, relieved and employed. Aid should be given only when needed and after careful investigation. Each head of a family aided on account of unemployment is required by law to do such work as he is able to perform in return for the assistance given him. Only those physically unable are exempted from work. The average citizen seeking aid, I believe, desires to give something in return and so maintain his self respect, thus promoting good citizenship.

I believe that some constructive program should be outlined in an effort to give needed employment and at the same time a fair return for the money expended, and this responsibility shall rest with those in charge. No worthy family should be denied such aid and none will be. The cost of maintaining public relief has become great and difficult conditions are naturally reflected in the

expenditures of the Welfare Department, but wise administration will be combined with humane principles.

The City Hospital is a very important institution; its affairs must be conducted in a proper manner, and it must be maintained on a par with the best institutions of its kind. In order that this may be done, I shall place its entire affairs in the hands of a new Board of Managers and they shall be held responsible for its management and its maintenance of proper standards.

The health of our people is of vital importance and no doubt efficient supervision is necessary in our clinic work and public health service. Politics should not be allowed to interfere in any way.

I believe those responsible for the administration of our schools recognize the indisputable facts concerning the financial situation of the City. I am anticipating the hearty cooperation of our school officials to plan the school administration for the ensuing year and request that they always keep in mind the necessity of relieving our tax burden. A reduction in school expenditures, without impairing the efficiency of our schools, is not impossible. Ever mindful of maintaining Quincy's high standing for many years in the Educational World, I shall expect every member of this department to cooperate with me in this respect. I believe the Mayor should be eliminated from the School Committee through necessary legislation, giving the voters the privilege of electing the seventh member of that Committee to take his place.

It is necessary and essential that you, gentlemen of the Council, be as conversant with the statistics from the City Auditor's office as the Mayor. I propose, after careful investigation as to character and ability, to submit to the City Council the names of three competent persons, one of whom you will select as the City Auditor and I, in turn, will appoint that person with instructions to attend your meetings and keep you advised so that you may function in the best interest of the City. I shall not take advantage of the technicality in the City Charter which gives the Mayor the sole power in making this particular appointment. I believe this is the kind of cooperation by the Mayor with the City Council which the citizens desire and expect. As a matter of fact, there is now pending in the Legislature, a petition to change the City Charter so that you gentlemen shall have the sole power of appointing the City Auditor, and I am absolutely in favor of said petition.

The officials' salaries including the Mayor's shall be readjusted. I believe you gentlemen of the Council are in a position to decide whether a readjustment in your salaries is necessary under the present conditions. I am sure the salaries of the City employees can be readjusted satisfactorily because of their willingness to cooperate and to that end the Mayor desires suggestions from that body of employees at an early date.

It is absolutely necessary that we have a business administration. As Mayor, I am the Chief Executive of the City and competent men and women will be appointed to executive positions and placed in charge of departments. My duty will be to assist and advise them in their work. They in turn will have full charge of their departments but they and their employees will be held to strict account for the proper performance of their duties. Cooperation for the best interest of the City is essential at all times.

At the present time it is impossible for me to give you a complete financial statement regarding the condition of the City, but I will forward it to you as soon as possible. I intend to have an audit by the State as quickly as arrangements can be made.

There are several other departments, including the Public Safety Departments, Assessors' Department and Department of Public Works about which I shall make a number of recommendations to you in the near future for the purpose of improving their efficiency.

The duties of the Mayor and City Council are clearly defined by our Charter. While they are separate and distinct, I believe that it is absolutely necessary that we have hearty cooperation and the assistance of each other. From my personal knowledge of the caliber of the men the people have selected to represent them in your honorable body, I feel certain of that cooperation and assistance to the fullest degree.

This is a great period of stress and an honest and eager electorate has placed its faith and trust in us.

Relying on your good will I advance with obedience to the work, and may that Infinite Power which rules the destinies of all governments lead us to what is best, and give us real peace and prosperity.

In conclusion, I pledge to you gentlemen of the City Council and fellow citizens of Quincy my utmost efforts and sincere cooperation. I bid you one and all, a Happy New Year.

CITY GOVERNMENT—1933

MAYOR, HON. CHARLES A. ROSS

DEPARTMENT OFFICIALS

COMMISSIONER OF PUBLIC WORKS, ANGELO P. BIZZOZERO.

REPORT OF THE AUDITOR

JANUARY 1, 1933.

HONORABLE CHARLES A. ROSS, *Mayor*:

In accordance with the ordinance of the City, I submit the annual report of my department, showing in detail the receipts and expenditures of each department.

Also several statements showing the financial condition of the City at the close of the financial year, December 31, 1932.

ELIZABETH N. DUNN,
Auditor of Accounts.

IN COUNCIL

Order No. 102

FEBRUARY 15, 1932.

Ordered:

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1932, and ending December 31, 1932, to be expended by and under the direction of the several officers or boards as herein designated.

That the appropriation for Bonds, Interest, and Expenses of Water Department be paid from Water Receipts.

BORROWING MARGIN FOR 1933

"General Laws. Chapter 44, Section 70"

Except as otherwise authorized by law, a city shall not authorize indebtedness to an amount exceeding 2½ per cent on the average of the assessors' valuation of the taxable property for the three preceding years, the valuation being first reduced by the amount of all abatements allowed thereon, previous to December 31, of the preceding year.

Net valuation 1930	\$140,723,568 00
Excise tax	5,337,543 00
Net valuation 1931	131,608,765 00
Excise tax	5,079,493 00
Net valuation 1932	128,507,292 00
Excise tax	4,246,949 00
	<hr/>
	\$415,503,610 00
Three years' average	138,501,203 00
2½ per cent	3,462,530 00
Total debt Jan. 1:	
City	\$2,501,500 00
Sewer	377,000 00
	<hr/>
	2,878,500 00
	<hr/>
Borrowing margin as of Jan. 1, 1933	\$584,030 00

Debt maturing in 1933 which will increase the borrowing margin:

	City	Sewer
January
February	\$12,500 00
March
April	80,000 00	\$7,000 00

Highways	4,256 62
Charities	20,802 87
Soldiers' Benefits	1,644 00
Schools	50,705 61
Libraries	3,457 12
Hospital	202,000 00
Cemeteries	19,428 00
Interest on Deposits	11,029 19
Interest on Taxes and Assessments	89,736 43
Street Railway	1,689 20
Highway Offset—clause 122a—1931	103,703 00
Polls	45,456 00
Old Age Assistance	22,818 00
Special Receipt—Old Age	34,746 34

Total Receipts	\$1,272,032 50
Net amount raised by taxation on property	\$3,847,899 29
Number of Polls, 22,728, at \$2.00 each	45,456 00
Old Age Assistance, 22,818, at \$1.00 each.....	22,818 00

The persistent shrinkage of property values and the distress caused by the widespread unemployment have necessitated an unusual number of abatements of real estate and poll taxes.

The value of new taxable property has been the smallest in many years. This and a general lowering of valuations has reduced the total valuation of real and personal property from \$132,949,475 to \$129,204,050.

The values of automobiles on which excise taxes have been levied, less abatements, have decreased from \$6,308,380 in 1931 to \$4,977,326 in 1932.

Our Board having been continuous for six years it would seem proper to review the development of the City and our valuation for that period.

The 1926 valuation was returned as:

Real Estate	\$107,949,175 00
Personal	14,227,050 00
Total	<u>\$122,176,225 00</u>

During the six years in which we have served—from 1927 to 1932, inclusive—the additional value of buildings alone as returned by the Building Inspector, less removals, was \$27,057,179, while our value of real estate now shows a net advance of but \$10,188,700 over the year 1926, which seems to fully justify our claim of \$14,000,000 reduction of values made in response to the demand the depression has occasioned.

The pronounced shrinkage in value of neighborhood store properties, in some cases complete abandonment; the lessened demand for the popular apartments of '27 to '29; foreclosures—both small houses and overexpanded business properties—are factors that extended largely into these value reductions, and it is obvious that on many the complete shrinkage has not yet been reached.

Other than this: general reductions from peak values have been made in all directions; being not less than ten per cent in nearly every assessment levied.

After many plans for improved quarters had been considered we have made improvements to the upper office by a dividing partition, and the separation of the rear hall to provide a waiting room, which has proved to be a very decided help in answering the public's many inquiries, and gives us facilities for private hearing, which is much appreciated.

We have also kept up to date in office equipment, principally by the installation this year of electrically operated billing machines which, being the latest improvement of the kind, will effect a considerable saving for a long time.

Other economies have been rigidly practised as shown by the following comparison, i.e.,—

The cost of department expenses for 1926 was \$37,540.30, while the cost for the years we have served are as follows:

1927	\$30,772 00
1928	29,278 88
1929	30,697 20
1930	30,944 21
1931	31,762 06
1932	29,292 00*

*\$3,000—cost of electric billing machines included.

In view of the avalanche of appeals before the Tax Appeal Board from all over the State, the City has been fortunate in having had very few appeals taken from assessments made. At present one case is pending before the Board of Appeals and one before the County Commissioners.

In general we wish to express our appreciation to all who have labored to help us in our work; to Mayor McGrath, who has promptly complied with every request to help facilitate the work; to the City Solicitor, whose advice and study of our problem has been of material benefit to the City; and to our most loyal clerks, who many times have sacrificed their own plans in their faithfulness to our work; to our Assistant Assessors, and to all others who have, by their cooperation, shown an endorsement of our efforts.

Most respectfully submitted,

MICHAEL T. SULLIVAN,
J. WINTHROP PRATT,
ALBERT NELSON,
Board of Assessors.

REPORT OF COLLECTOR OF TAXES

To His Honor, the Mayor of the City of Quincy:

I have the honor to submit the following report of the Tax Collector's Department for the year ending December 31, 1932:

The amount of cash collected on the tax for the various years is as follows:

JAMES B. WHITE,
Collector of Taxes.

REPORT OF DEPARTMENT OF HEALTH

JANUARY 1, 1933.

HON. THOMAS J. MCGRATH, *Mayor of Quincy, Massachusetts.*

DEAR SIR: Despite the many hazards and drawbacks which all citizens are suffering through depression, the City of Quincy has carried on a hundred per cent during 1932 in all its health projects. This, of course, is the only safe policy and should continue, for to allow health to fail through lack of financial support will undermine morale. Good morale is fundamental, and without it neither the individual nor the community can prosper. Hence in the coming year we as a city should make many material sacrifices, do without luxuries, etc., and also endeavor to carry on our community health projects, so that when depression passes and prosperity returns we will have healthy citizens to enjoy it.

During the past year, as in previous years, our greatest and most important community health problem from a taxpayer's standpoint was tuberculosis.

Because of State law each city must assume the cost and care of its indigent tubercular citizens, consequently until the scourge is overcome the city and county tax will be considerable and our future costs will be in direct proportion to our zeal and preventive measures against the disease. At present thirty-three per cent of our health appropriation is used for tuberculosis.

Quincy's work in tuberculosis ranks as one of the best in the state and should so continue, for this is the best and most economical plan to lower our future costs in this essential health problem.

Our regime in attacking tuberculosis in Quincy enables us to combat both the adult and childhood type of the disease. Each type has fifty-two clinics a year devoted to educational and diagnostic efforts.

In the field work the two nurses go into the homes and teach hygiene and prevention and bring all contacts for diagnosis and classification to the clinic. In this way we quickly discover active tuberculosis and either segregate or hospitalize such cases and thus prevent the spread of the disease. Proper education in living, diet and hygiene, under the nurses' instructions, undoubtedly saves many contacts from being active cases of consumption.

During good times we have distributed over 4,000 quarts of milk during the year. Depression has temporarily deprived us of our milk fund appropriation—\$400 a year by the City Council—but I trust later we can have this fund restored since it was a great help for the children infected with tuberculosis.

Much welfare work is done and all private organizations generously help out with shoes, clothing, extra food, etc. The spirit and morale of those fighting tuberculosis in our city is splendid and receives very efficient cooperation from such organizations as the Norfolk County Health Association and kindred organizations. Hence it is very logical to expect success in overcoming the disease.

During the past year depression has emphasized the urgency of the tuberculosis problem by the marked increase of cases coming to the clinic for advice.

Childhood Tuberculosis and Children's Contact Clinic

Another great help in prevention work in tuberculosis has been the yearly appropriation of \$2,000 by the City Council for under-nourished children. This has been the yearly custom for several years and should continue. It arouses zeal and enthusiasm among the children who like camp life and makes their parents health minded. Thus the clinic attendance is greatly increased and health education can reach a far greater number.

This \$2,000, together with \$1,000 or \$1,200 given by the Norfolk County Health Association, allows us to send some fifty children to Camp Norfolk for an eight weeks' intensive treatment for pre-tubercular children.

As it is now generally conceded that adult tuberculosis has its origin in the childhood type it naturally follows that voluntary expenditures for the children will be attacking pulmonary tuberculosis at its source and thus save much of the taxpayers' money in the future. For if these same children are neglected now they will become subjects of pulmonary tuberculosis later in life and probably through marriage be a source of infecting whole families, thus causing the city a far greater outlay of the taxpayers' money.

As in all health problems, prevention is the most economical and practical, and so Quincy is surely right in being so aggressive in the field of childhood type of tuberculosis.

State recognition of Quincy's good work in tuberculosis was made manifest last June at the annual meeting of the Norfolk County Health Association—some three hundred members being present—by Dr. Carl MacCorison, Director of the State Preventorium at Reading, when he publicly stated that Quincy was doing the best tuberculosis work in the State.

After several years' urging on the part of the Dispensary Physician, the School Committee has adopted and authorized a "rest period class" to be started in the Pollard School at Quincy Point. These units or rest period classes are a standardized method of attacking pretubercular children during the school year and are very successful and economical in many of the larger cities of the East. Boston has had great success in this method since 1925.

Now that this method is adopted in Quincy we can increase these units throughout the city and in time much good will result and a far greater number of children will be under observation at one time. If these methods prevail and are adequately supported, Quincy can rightfully expect success in her fight against the white plague.

Food and Milk Control

During 1932, ninety-seven per cent of Quincy's milk supply was pasteurized. This was the same as in 1931 and both years represent the highest record of pasteurization in the history of the city. This is as it should be, for diseases spread by milk are best controlled by pasteurization.

Our high efficiency in Quincy obtained through rigid dairy inspection—and if this policy is continued, milk borne diseases will be kept under control.

This same policy of frequent and rigid inspection has given our citizens a high grade distribution of meats and provisions. The splendid cooperation of the dealers has made the work easy.

Venereal Disease Control

A remarkable increase in attendance resulted in both clinics during 1932. The total male attendance increased from 428 to 783, and the total female attendance from 251 to 430.

This was due to two reasons. First, the Health Commissioner's individual appeal to all practising physicians to send their indigent cases to the clinic. Second, to the earnest effort on the part of the field workers in their persistent appeals and visits to patients to keep up their treatments.

By continuing this policy we can rightfully hope to control the havoc caused by the spread of venereal disease and neuro syphilis.

Communicable Disease Control

According to statistics offered by Deputy State Commissioner, Dr. Anderson during his visit to the Health Department in the fall of 1932, Quincy ranks as one of the three highest cities in the State in its diphtheria immunization control.

Despite this good record, 26 cases of diphtheria were reported during 1932; fortunately, there were no deaths. I would suggest an intensive educational drive this year to stimulate cooperation on the part of the parents for toxin-antitoxin treatment for these children still unprotected.

Scarlet Fever

A basic change in the quarantine period can now be adopted and I believe it would lead to better reporting of cases; also I would suggest the city provide for the collection of convalescent serum and thus materially save expense at the Brighton Contagious Hospital.

Maternity Hygiene

This new department has now finished its second year and is doing high grade work. During the past year the commissioner established a central weekly clinic at the city dispensary, thus saving many expectant mothers the walk up the hospital hill. This clinic has also been a great help during depression for many worthy citizens suffering financial reverses.

Sanitation

During the past two years the cooperation of the police and fire chiefs mutually benefited all departments and response to and disposition of all complaints were most readily accomplished.

Our only regret during the year was the unfortunate loss by the death of our very efficient inspector, Mr. Ray Cramond, genial and at all times willing; the solution of each new complaint seemed but to gain him another friend. Bowing to Providence, in his passing, both the City and Health Department suffer the loss of an upright citizen and a valued public servant.

Child Welfare

During the latter part of last year, the efficiency of these clinics has been hampered by the attendance of too many sick babies. Depression, of course, is the explanation, but some solution of this problem is essential. Otherwise the increase of communicable dis-

eases would be disastrous. These clinics are primarily established for their educational value to well children and their scope should not be handicapped.

Mental Hygiene

This valuable clinic is now firmly established in Quincy and its importance is more thoroughly understood and much better patronized by the public.

We must ever realize that education is both costly and essential, also that children's "repeating" costs double.

This clinic primarily corrects mentally deficient children and hence prevents "repeating." Thus both the taxpayer and the child profit.

What's more important, these same mentally deficient children—who do not receive competent clinic treatment later—often become a total loss through mental disease. Whole-hearted support and encouragement of this mental hygiene project is important for the taxpayer and essential for the school child.

Heart Disease Control

As in previous years, I still believe we should have an industrial clinic for heart disease control. Both the morbidity and mortality from heart disease are enormous and naturally a similar economic loss results. Focal infectious diseases could be combined in this clinic.

Focal infections of dental origin should be under the control of municipal dentistry. It is my belief that the pendulum during the past few years in the City of Quincy has swung too much to the side of preventive dentistry.

Vital Statistics

Our health statistics for the past two years have been efficient and accurately tabulated. With the cooperation of the Engineer's Department, many beautiful graphs were furnished and thus our health statistics were presented in rather an outstanding manner. This year the very recent illness of Mr. Pactovis may delay this feature of the health report.

Sincerely yours,

C. J. LYNCH, M.D.,
Health Commissioner.

REPORT OF SUPERINTENDENT

DECEMBER 31, 1932.

DR. CORNELIUS J. LYNCH, *Health Commissioner*.

DEAR SIR:—I hereby submit my annual report for the year ending December 31, 1932.

The personnel of the department is as follows:

Commissioner of Health and Inspector	
of Milk	Dr. Cornelius J. Lynch
Superintendent	Thomas G. Smith
Statistician	Abraham S. Pactovis
Clerk	Verna M. Kelley
Sanitary Inspector	Roy W. Cramond
Plumbing Inspector	Jeremiah J. Keniley
Assistant Inspector of Milk	James O'Dowd
Inspector of Meats and Provisions	Howard Rogers
Child Welfare Physician	Dr. Rachel L. Hardwick
Veneral Disease Physician	Dr. E. E. Smith
Bacteriologist	Dr. E. E. Smith
Tuberculosis Nurse	Gertrude T. Russell, R.N.
Tuberculosis Nurse	Mary E. Keeley, R.N.
Contagious Disease Nurse	Catherine F. Coleman, R.N.
Child Welfare Nurse	Nettie D. Fowler, R.N.
Child Welfare Nurse	Mary E. Marr, R.N.
Inspector of Animals and Slaughtering..	Dr. E. A. deVarences

We have again this year had the usual number of complaints as in previous years. Each complaint had the personal attention of the Acting Sanitary Inspector. We had the cooperation of the state as regards smoke nuisance.

I wish to thank Mr. Tupper of the Public Works Department and Chief Sands of the Fire Department for their hearty cooperation in all matters pertaining to this department.

Owing to the long continued illness of the Sanitary Inspector, Mr. Roy Cramond, no report of his work is available.

It is also unfortunate that because of a severe illness of Mr. Pactovis, the Statistician, that we have little or no material available for his report.

Respectfully submitted,

THOMAS G. SMITH,
Superintendent.

REPORT OF CONTAGIOUS DISEASE NURSE

DECEMBER 31, 1932.

Dr. C. J. LYNCH, *Health Commissioner.*

DEAR DOCTOR:—I herewith submit my annual report of contagious disease nurse for the year ending 1932.

Eight hundred and thirty-four cases of notifiable disease were reported as follows:—

Scarlet fever	211
Measles	106
Mumps	167
Chickenpox	134
Whooping cough	70
Lobar pneumonia	38
Diphtheria	26
Dog bite	62
Anterior poliomyelitis	2
Influenza	4
Typhoid fever	4
Septic sore throat	2
Conjunctivitis	2
German measles	6
Cerebro spinal meningitis	2
Encephalitis lethargica	1
Trachoma	1

Total visits	1,802
--------------------	-------

Nursing visits	1,743
----------------------	-------

By other nurses	59
-----------------------	----

Scarlet fever	1,111
Measles	241
Diphtheria (cultures 149)	180
Whooping cough	107
Venereal disease	71
Typhoid fever	18
Chickenpox	4
Anterior poliomyelitis	3
Septic sore throat	3
Conjunctivitis	1
Impetigo	2
Ophthalmia	1

Scarlet Fever

Although of a mild type, this disease was not as prevalent as in 1931. Of the 211 cases reported, 40 were cared for at the Haynes Memorial Hospital in Brighton. One death occurred at home.

Diphtheria

There were 26 cases reported—nearly three times as many as in the previous year. Seven cases were hospitalized. No deaths occurred.

As in previous years, this department cooperated with the school department in the Diphtheria Prevention Work. During the month

of May 748 children of school age were immunized. In June 211 pre-school children received the three treatments, making a total of 959 complete immunizations.

Measles

This was one of the important diseases which showed a decided decrease. About half as many cases were reported.

Typhoid Fever

Four cases reported, two of which were cared for in hospital, other two cases placarded at home.

Whooping Cough

Not as many cases reported. There were two deaths which occurred from this disease.

One hundred and twenty-nine various clinics were attended during the year.

In the follow up work, 1,802 visits have been made, including checking up of quarantine rules, taking of cultures, examination of contacts and releases from quarantine.

Office hours were held daily from 9-9.30 and 1-1.30.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
Contagious Disease Nurse.

REPORT OF THE VENEREOLOGIST

JANUARY 1, 1933.

DR. C. J. LYNCH, *Health Commissioner.*

DEAR SIR:—In submitting my annual report I beg to suggest that the clinic hours be changed to coincide with the regular City Hall working hours to the double purpose (1) of ending the controversy on overtime pay in these clinics and (2) making it less convenient for those who are regularly employed to avail themselves of this form of city aid, which it is my belief should only be extended to the really indigent. This would relieve the congestion in our limited parking space, and should work no hardship on the car owners, as with the present influx of physicians to this city it should not be difficult for them to make satisfactory financial arrangements with local doctors for their treatment.

The figures for attendance are double those of 1931.

Male Clinic

Treatment for gonorrhoea	22
Re-examinations (old cases) and contacts	20
Visits by treated gonorrhoea cases	251
Discharged cured gonorrhoea cases	8
Remaining under treatment	5
Treated for syphilis	23
Visits for antisiphilitic treatment	496
Cases of syphilis remaining under treatment	17
Total number of visits to clinic	783

Female Clinic

Treated for gonorrhoea	4
Re-examination (old cases) and contacts	20
Treated for syphilis	23
Discharged cured	2
Remaining under treatment	13
Total visits to clinics	430

One hundred and twenty-six (126) specimens of blood and spinal fluid were taken in the two clinics for Wasserman tests; also fifty-nine smears for gonococci. Intracisternal Swift-Ellis serum for neurosyphilis was given once in the clinic, and eight (8) times at the City Hospital.

Respectfully submitted,

EDWIN E. SMITH, M.D.

REPORT OF DISPENSARY PHYSICIAN

JANUARY 1, 1933.

To His Honor the Mayor and Members of the City Council.

DEAR SIRs:—Through the unfortunate death of Dr. Michael Sweeney the position of Dispensary Physician has been officially vacant since June, 1931, but with the approval of the City Council I carried on without compensation.

With much extra work and splendid cooperation of the two clinic nurses, Miss Russell and Miss Keeley, the tuberculosis clinics—both adult and childhood—continued, and, in some respects bettered their excellent work of previous years.

The adult attendance at the Tuesday night clinics increased to three hundred and seventy-three (373) from two hundred and forty-eight (248) during the past year. Registration in adult clinic increased from sixty (60) to one hundred and thirty-three (133). This great increase in one year is partly due to the current depression—its consequent financial stress in the homes forcing cases to seek outside aid—and also was materially due to alertness on the part of the dispensary nurses always seeking new cases and contacts. The general practitioner is also referring more cases to the dispensary for care and disposition. The National Tuberculosis slogan—"One case comes from another—find the other"—has also been the slogan of the dispensary for several years.

Finally a larger car—furnished by the Council during the past year—permitting more passengers per trip—also enhanced the work. Naturally with the great increase of the work during the past year—X-rays and T. B. skin tests correspondingly increased. Even depression aided the efficiency of the clinic this past year—in making it much easier to send active cases to the sanatorium and thus stopping spread of disease.

However, we must also realize that this same depression harbors a potential increase of tuberculosis in the immediate future through undermining morale and nutrition.

Our zeal in the fight against the menace of tuberculosis must ever be continued, for this is the only way to benefit the health of the community.

Undernourished and Contact Children's Clinic

Despite the fact that we held only fifty-three (53) clinics in 1932 and seventy-five (75) in 1931, still the past year must be considered the most outstanding since the beginning of the work some ten years ago—attendance increased to 1,940 in 1932 from 1,512 in 1931. Registration increased to 453 in 1932 from 382 in 1931.

In the fight against T. B. this is our most important clinic for it is a clinic of prevention—and from a taxpayer's standpoint prevention is the cheapest and most practical way to overcome the cost of any disease.

As T. B. is our most costly municipal health problem today, naturally a clinic of this sort should be fostered and developed to its utmost capacity. For the past several years I have aggressively urged its extension to the school department to be incorporated an essential part of their health program. After several conferences with the School Committee, school physician and superintendent of schools, including a group visit to Boston, to study their system, "the rest periods for undernourished children" have been accepted and adopted by the School Committee and a unit at the Government School is to be started. This should prove to be a most bene-

ficial and advanced step in preventive work again T. B. These "rest period classes" can be extended throughout the city—grouped about our five splendid school cafeteria—where noon meals can be provided. Thus you will be able to adopt the so-called eight weeks' intensive treatment at a summer camp for 50 children, and apply it to hundreds of similar cases for nine consecutive months at much less expense and for greater benefit. Further, in these same classes, children with remediable defects, mental defects and faulty behavior problems can be quickly isolated and placed in proper channels for correction.

Camp Norfolk

The camp children, 50 in number, were given rather an impressive start this year for their eight weeks' intensive treatment. After participating in a group picture, honored by the Mayor, members of the City Council, dispensary nurses, delegates from the Norfolk County Health Association, delegates from Quincy Rotarians and editors of both the Quincy newspapers, a large Eastern Mass. Street Railway bus conveyed them to Camp Norfolk. The usual good results obtained for this group after eight weeks' camp life, average gains of 9-10 lbs., with some individual gains of 20 lbs., were recorded at the end of the camp period.

As in previous years, all these children had all focal infection defects, whether from tonsils or teeth, corrected before going to camp in order that they might obtain full benefit from their stay at Camp Norfolk.

In closing, I wish to extend thanks to the Spanish War Veterans for loaning their quarters and their entire cooking equipment for the nutrition classes, where mothers were taught to prepare various diets in the least expensive manner, yet adequately nutritious by the Home Demonstrating Agent from the Norfolk Agricultural School.

Respectfully submitted,

C. J. LYNCH, M.D.

REPORT OF DISPENSARY NURSES

JANUARY 1, 1933.

DR. C. J. LYNCH, *Health Commissioner*.

DEAR DOCTOR:—We herewith submit to you our annual report for the year ending December 31, 1932.

Total number of all kinds of tuberculosis on record in the city	518
Cases of pulmonary tuberculosis in the city	301
Active cases	111
Arrested cases	127
Cases in sanatoria	63
Cases of childhood type of tuberculosis in the city	184
Active cases	55
Arrested cases	120
Cases in sanatoria	9
T. B. other cases in the city	24
Cases in the sanatorium	3
Cases at home under treatment	16
Arrested cases	5
New cases of tuberculosis reported during the year	69
Pulmonary	51
Miliary tuberculosis	1
Childhood type and T. B. Kidney	1
T. B. Meningitis	2
Cervical adenitis	1
Childhood type	11
T. B. lymph nodes of the neck	1
T. B. spine	1
Disposition of new pulmonary cases	
Admitted to sanatoria	23
Waiting on list to be admitted	1
At home under treatment	12
At home and able to work	1
Died at home	6
Died at Norfolk County Hospital	1
Died at Tewksbury State Infirmary	1
Died at the Quincy City Hospital	1
Diagnosis revoked by physicians	2
Reported by death certificate	3
Disposition of new childhood type of tuberculosis	
Admitted to sanatoria	4
At home attending clinic	7
At Quincy City Hospital	1
Disposition of new T. B. other cases	
At the Quincy City Hospital	1
Admitted to Lakeville Sanatorium	2
Under treatment at Mass. General Hospital	1
Died at the Quincy City Hospital	1
At home attending clinic and school	1
Total number of adult tuberculosis clinics held	51
Total attendance	373
Total registration	133
Total number of T. B. skin tests done	56
Positive reactions	43
Negative reactions	13
Total number of adults X-rayed	67

Total number of "Minimal T. B." cases reported	3
Admitted to sanatorium	2
At home working	1
Total number of deaths during the year	34
Died at home	15
Died at Norfolk County Hospital	9
Died at Quincy City Hospital	6
Died at Tewksbury State Infirmary	1
Died at Saranac Lake	1
Died at Medfield State Hospital Insane.....	1
Died at Plymouth County Hospital	1
Number of adult contacts examined during the year at the dispensary	83
Old contacts	18
New contacts	65

All ex-sanatoria cases who can be located are visited by the dispensary nurses and all private cases are followed through the attending physician. All homes visited upon report by physician of new case to the health department, instructions given, booklets provided for those patients who are going to stay at home—sputum boxes provided free to all cases so that further spread of the disease may be checked. Suggestions are made as to examination of all contacts of every case (T. B. skin test, physical examination and X-ray). Homes are visited after a death and instructions are given. All cases going to Braintree Hospital for X-ray were transported by the nurses every Tuesday A. M. This year we have made a special effort to have all old cases of tuberculosis X-rayed. This is all done free of charge through the dispensary, Dr. Pillsbury, superintendent of the Norfolk County Hospital, taking all X-rays. No home is visited by nurses without permission of the attending physician.

"Undernourished and Contact Children's Clinic"

Total number of clinics held	53
Attendance at clinics	1,940
Registration at clinics	453
Total number of contacts examined	675
Total number of "New" contacts examined	101
Cases referred to Q. C. H. for T. and A. operation	51
Nearly every case was referred for dentistry.	
T. B. skin tests done	270
Negative reactions	174
Positive reactions	96
Children taken to Norfolk County Hospital for X-rays	182
Total number of children sent to "Camp Norfolk" for eight weeks	50
Total number of boys (ages 8-13 incl.)	18
Total number of girls (ages 8-13 incl.)	23
Total number of girls (ages 14-18 incl.)	9

These children were carefully chosen by the dispensary physician (family history, T. B. skin test, physical examination, including per cent underweight, and X-ray—the X-ray being taken by Dr. Pillsbury, Norfolk County Hospital superintendent and superintendent of Camp Norfolk) before being admitted to camp.

These children are prepared as nearly as possible before entering camp (dentistry done, adenoid and tonsils removed when necessary) so that there will be no drawbacks from focal infections. The usual program of rest, sun baths, shower baths, swimming, camp fires, band concerts, flag raising, camp community singing, etc., were carried on for eight weeks. The children are under constant medical attention and a graduate nurse is on duty day and night. For every ten children there is a well chosen counselor who is also in constant attendance. Both the boys and girls did considerable hand work—boys doing woodwork and art, and the girls sewing and embroidering. There was also a period for nature study set aside for each day. The same special attention was paid to diet and the children returned to Quincy with a coat of tan and the picture of health.

There were 4,500 quarts of milk given free through the dispensary to 87 different individuals. The money for this milk was given us through our regular milk appropriation in the council and through the Christmas Seal Sale.

"Norfolk County Hospital"

Total number of cases admitted during the year	24
Total registration of cases during the year	76
Total registration of cases at end of the year	48
Condition of patients on discharge from the sanatorium	
"Arrested" cases	12
Left against advice "Improved"	3
Left against advice "Unimproved"	2
Discharged "Dead"	8
Discharged "No Tuberculosis"—"Hyperthyroidism"	1

North Reading State Sanatorium for Children

Cases admitted during the year	5
Total registration during the year	20
Total registration at end of the year	4
Condition of patients on discharge from sanatorium	
"Apparently Arrested"	12
"Well" no diagnosis—malnutrition	2
Against advice—Improved	2

Westfield State Sanatorium for Children

Cases admitted during the year	3
Total registration during the year	7
Total registration at end of the year	4
Condition of patients on discharge from sanatorium	
"Apparently Arrested"	2

Mattapan Sanatorium

One case registered from Quincy having a Boston settlement.

Massachusetts State School for Crippled Children, "Canton"

One case registered (T. B. knee) from Quincy.

Rutland Veterans' Hospital

All cases referred to this hospital are handled by Veterans' Bureau.

Plymouth County Hospital

Two cases of pulmonary tuberculosis were admitted from Quincy having a settlement in Plymouth County.

Tewksbury State Infirmary

Cases of pulmonary tuberculosis admitted during the year	2
Total registration of cases for the year	2
Total registration at the end of the year	1
Condition on discharge from the hospital	
"Dead"	1
Total number of visits made during the year	2,422

Both nurses attended the annual Norfolk County Health meeting at Braintree, at which Miss Russell gave a resume of the public health course awarded her by the scholarship given by that association for the New York University Extension Course in Public Health Nursing at the State House, Boston. Both nurses attended this course of study, taking periodic examinations during the year. This year the nurses are attending the second year of a four-year course in which they are studying Syphiology and Social Hygiene. Both nurses assisted in the T. A. T. drive for diphtheria immunization in public schools, relieving at Baby Welfare Clinics when necessary, and contagious disease work. During the past year Miss Russell has given lectures on the public health phase of tuberculosis nursing to the training school at the Quincy City Hospital.

Respectfully submitted,

MARY E. KEELEY, R.N.,
 GERTRUDE T. RUSSELL, R.N.,
Dispensary Nurses.

REPORT OF CHILD WELFARE PHYSICIAN

JANUARY 1, 1933.

CORNELIUS J. LYNCH, M.D. *Commissioner of Health,
City of Quincy, Massachusetts.*

DEAR DOCTOR LYNCH:—It is my privilege to submit to you the report of the Child Welfare Clinics for the year ending December 31, 1932.

Statistics

Total Clinic Registration	3,133
Well Baby Clinics	2,440
Preschool Clinics	205
Orthopedic Clinics	488
Number of Clinics	367
Well Baby Clinics	297
Preschool Clinics	48
Orthopedic Clinics	22
Total Clinic Attendance	8,217
Well Baby Clinics	7,459
Preschool Clinics	348
Orthopedic Clinics	410
Total Home Visits by Nurses	1,933
Babies	1,607
Preschool children	216
Boarding Homes	110

A more detailed analysis of these figures may be found in the report of the Child Welfare Nurses and the Orthopedic Clinic report.

The statistical report for the year 1932 presents approximately the same registration and attendance as for the year 1931. The great decrease in number of home visits made by the nurses is accounted for by the reduction in transportation facilities provided for the work of the Child Welfare Nurses this year.

Comparison of Annual Reports of Well Baby Clinics

Year	Registration	New Enrollments	Attendance
1927.....	1,752	622	7,047
1928.....	2,130	693	7,293
1929.....	2,783	652	6,795
1930.....	2,887	717	7,145
1931.....	2,826	992	8,257
1932.....	3,133	846	8,218

References of Children

During the year 305 children have been referred by clinic doctors or nurses to the care of local physicians, dentists, or hospitals.

In the report of the Child Welfare Nurses may be found a classification of these references.

The larger than usual number of children referred from the clinics to the care of the local physicians is coincident with the increasingly large number of sick infants and children who have been brought to the clinics during the months of October, November and December.

Previous to this year acutely ill children were very rarely seen at the Well-Baby Clinics. Financial hardship is the explanation given in a large per cent of the cases seen and referred from the clinics in the past three months. This is a new problem which should be considered immediately, since upon its solution is dependent both safety and service for the well children who are those eligible to clinic advice.

Acknowledgments

To the clinic executives, Mrs. Nettie D. Fowler, R.N., and Miss Mary Marr, R.N., is due great credit for the efficiency with which the clinics are managed, and the satisfaction provided through the educational help which is given in the homes of clinic infants and children.

Volunteer workers in the clinics have included members of the Wollaston Women's Club, who have assisted the nurses at the Wollaston Clinic, and Miss Alice G. Thompson of Wollaston, who has attended the Atlantic Clinic regularly each week, acting as recorder. Her generosity and ability have made it possible to care for the largest clinic in the city, with a minimum of strain which the handicap of overcrowding would ordinarily present.

The courtesy extended by the School Department for the use of the school buildings for clinics, the North Quincy Council of Knights of Columbus, and Woodward Institute is acknowledged with appreciation.

May I express thanks for the cooperation given to the clinic work by the Commissioner of Health, personnel of the Health Department office, and other members of the staff of the Health Department.

Respectfully submitted,

RACHEL L. HARDWICK, M.D.,
Child Welfare Physician.

REPORT OF CHILD WELFARE NURSES

JANUARY 10, 1933.

DR. C. J. LYNCH, *Health Commissioner.*

DEAR SIR:—Enclosed is the report of the activities for the Child Welfare work for the year ending December 31, 1932.

Well baby clinics were held each day from 2 to 4 P. M., except on Saturdays, Sundays and holidays. There were clinics held in each ward as stated in the clinic attendance.

Preschool Clinics were held each Wednesday afternoon except as stated above.

Orthopedic Clinics were held the second and third Thursdays of each month, with the exception of the month of August, at the Woodward Institute.

At the Well Baby Clinics there were 2,440 babies registered during the year. The floating population has been quite noticeable during the past year, possibly due to the unemployment situation, causing a fluctuation in clinic registration.

There were 261 who attended clinics from one to four times. 184 for four months, 437 for six months, and 57 who were referred to the Preschool Clinic and 42 were returned to various infant asylums.

There were seven deaths, five of which were congenital malformations, and two were infections. Two of these were registered at the clinic but only came once.

It was very evident that the unemployment situation was the cause of the number of sick babies who were seen at the clinic this year, who were referred to the clinic from various sources.

There were 1,453 babies active at the end of the year.

The causes of deaths were as follows:

Bacterial endocarditis, age 3½ years.

Congenital heart, age 11 months.

Pneu, endocrine disturbance, age 7 months.

Congenital malformation, age 2 months.

Pneumonia, age 10 months.

(Secondary anemia)

(Congenital heart), age 9 months.

Little's disease, age 2 years.

Child Welfare nurses assistance at other clinics when needed.

The West Quincy and Houghs Neck Clinics were held twice a month instead of each week.

There were 488 children registered at the Orthopedic clinics during the year. Of these there are 273 active on December 31, 1932. There were 51 referred to other clinics as they were over age, 35 corrected and 129 not located.

At this time the Child Welfare nurses wish to thank for their kindness and assistance to us during the year, the members of the Health Department, local doctors, and to Miss Alice Thompson for her untiring help at the Atlantic clinics; to Dr. Hardwick, Dr. Gorin and Dr. Green, we extend our deepest appreciation, and also the doctors who assisted Dr. Hardwick from time to time.

Respectfully submitted,

NETTIE D. FOWLER, R.N.,
MARY E. MARR,
Child Welfare Nurses.

REPORT OF ORTHOPAEDIC CLINICS

JANUARY 3, 1933.

DR. C. J. LYNCH, *Health Commissioner, Quincy, Mass.*

DEAR DR. LYNCH:—The following is the report of the Orthopaedic Clinics maintained by the City of Quincy as part of its Child Welfare Program for the year 1932.

There have been twenty-two (22) clinics. The clinic days have been the second and third Thursdays of each month, except during the month of August.

The total yearly attendance was 410. Of this number 106 were new cases.

The types of orthopaedic conditions found at the clinics were: faulty posture, pronated feet, knock-knees, wry neck, generalized muscular weakness and rachitic deformities.

As in previous years, the success of the Clinic is due to the co-operation and assistance given by those interested in Child Welfare.

Respectfully submitted,

M. G. KATZEFF, M.D.,
Orthopaedic Physician.

REPORT OF QUINCY HABIT CLINIC

JANUARY 17, 1933.

CORNELIUS J. LYNCH, M.D., *Quincy Health Department,
City Hall, Quincy, Mass.*

MY DEAR MR. LYNCH:—I am enclosing a report of the activities of the Habit Clinic in Quincy for the past year.

During the year ending December 31, 1932, the Quincy Habit Clinic observed an appreciable and encouraging widening of the scope of its activities together with an increase in clinic attendance. All phases of the work were in excess of those of the previous year.

Although there has been an evidence increase in clinic attendance as seen numerically, that alone has not been the convincing factor in the clinic's growth but rather the general acceptance of the clinic by the community and the occasions on which the clinic has been called in to consult in problems that were not primarily of a psychiatric nature. The service rendered by the clinic to adjacent communities has also shown a proportionate growth so that at the present time Braintree, Weymouth, Milton and towns on the Cape are all participating in the service.

The general community response has been most gratifying and the personnel expresses genuine appreciation to those whose co-operation and efforts have helped to make the clinic a success.

Number of weekly clinics held	48
Number new cases	89
Number old cases seen	17
Number visits by children	318
Number visits by social worker to homes.....	407

REPORT OF QUINCY CHILD GUIDANCE CLINIC

DECEMBER 30, 1932.

DR. CORNELIUS J. LYNCH, *Health Commissioner,*
1309 Hancock Street, Quincy, Massachusetts.

DEAR DOCTOR:—Enclosed please find the annual report of the Quincy Child Guidance Clinic which you requested in your letter of December 13th.

Sincerely yours,

NINA ELDRIDGE,
Head Social Worker.

Approved by EARL K. HOLT, M.D.
Superintendent.

Conducted by Medfield State Hospital from January 1, 1932, to
 January 1, 1933

To the Commissioner of the Dept. of Health of Quincy, Dr. Cornelius J. Lynch.

I beg to submit the following report on the Quincy Child Guidance Clinic from January 1, 1932 to January 1, 1933:—

Personnel

Psychiatric Director—Dr. Grace T. Cragg
 Social Service—Nina Eldridge
 Mary A. Morris
 Psychometrist—Frances A. Reed

Number of Clinics Held

39

Clinics omitted during July, August and other school vacations.

Numerical Summary of Cases

Problems

School	Miscellaneous
Behavior	Awkwardness
Progress	Cheating in school
Placement	Disobedience
	Enuresis
Delinquency	Food fussiness
Destroying of property	Home adjustment
Malicious mischief	Hyperactive
Larceny	Inability to concentrate
Idle and disorderly conduct	Incorrigibility
Lewd and Lascivious conduct	Limited interests
Breaking and entering	Nervousness
	Personal hygiene
Personality Defects	Physical factors
Desire for attention	Pilfering
Indifference	Poor choice of companions
Irritability	Poor memory
Lack of self-control	Pre-psychotic tendencies
Lying	Profanity
Moodiness	Racial sensitiveness
Rebellion against authority	Truancy
Seclusiveness	Vocational guidance
Stubbornness	Wayward tendencies

The Clinic is held each Thursday afternoon at 2:30 at the Home Making School. The particular feature of the work this past year has been the increase in the number of Juvenile Court cases referred for advice and assistance in supervision. The year just closed is the third year of the establishment of the Clinic.

Respectfully submitted

GRACE T. CRAGG, M.D.
Psychiatric Director.

REPORT OF MILK INSPECTOR

JANUARY 1, 1933.

DR. C. J. LYNCH, *Health Commissioner*.

DEAR SIR:—I herewith submit my report for the year ending December 31, 1932.

The following statistics refer to milk, cream, ice cream, oleo-margarine and buttermilk, produced and consumed in Quincy:

Dairies in City of Quincy

1 cow	8
2 to 6 cows	3
7 to 15 cows	3
16 to 42 cows	1
Total number of cows in Quincy	86
Total number of cows in nearby dairies who serve the city of Quincy with milk and cream	347
Milk produced in Quincy and nearby dairies (quarts).....	4,330
Milk sold raw in Quincy (quarts)	1,160
Milk contractors processing plants, storage and creameries in the City of Quincy.....	10
Milk contractors from out of town supplying milk to the City of Quincy	20
Teams, auto cars and trucks employed in distribution of milk, cream, ice cream and buttermilk in the City of Quincy (all have been inspected).....	193
Milk consumed in Quincy per day (quarts)	32,376
Pasteurized milk consumed per day (quarts).....	31,216
Raw milk consumed per day (quarts)	1,160
(All from Tuberculin tested cows)	
Certified milk consumed per day in Quincy (quarts).....	131
Grade A milk consumed per days in Quincy (quarts).....	4,187
Percentage pasteurized milk consumed in Quincy.....	97
Percentage raw milk consumed in Quincy.....	03
Cream consumed in Quincy per day (qts.) all pasteurized	2,711
Ice cream manufactured in Quincy per day (gallons).....	540
Ice cream consumed in Quincy per day (gallons).....	1,760
(All ice cream is pasteurized)	
Buttermilk consumed in Quincy (quarts)	426
Milk processing plants doing business in Quincy.....	4
Amount of milk processed in Quincy (quarts)	23,350
Retail licenses issued in Quincy for milk, ice cream and oleomargarine	791
Revenue from licenses	\$417.50

Table Classification of Dairies Inspected and Scored

Scoring 50 to 60	15

	<hr/>
	160

Ice cream manufacturers doing business in Quincy.....	8
Ice cream manufacturing plants serving Quincy from out of town	31

Milk and ice cream samples are taken from all schools and tested each month during the School year. All samples met the State Standard.

Ice cream complaint investigated	1
Milk complaint investigated	1
Number of schools and stores visited and milk and cream cabinet inspected	689
Number of dairies visited and inspected.....	347
Number of milk rooms visited and inspected.....	171
Number of milk processing plants inspected.....	79
Number of ice cream plants inspected.....	111
Number of restaurants inspected.....	71
Number of bakeries inspected.....	21

The price of milk and cream has remained the same as in 1931.

Many new dairies have started delivering milk in Quincy, some coming from quite a distance.

Respectfully submitted,

JAMES O'DOWD,
Milk Inspector.

REPORT OF THE BACTERIOLOGIST

JANUARY 1, 1933.

DR. CORNELIUS J. LYNCH, *Health Commissioner*.

DEAR SIR:—During the past year I have completed the following work in the laboratory:

Bacteriological examinations of milk	608
Bacteriological examinations of ice cream	80
Chemical examinations of ice cream	80
Chemical examinations of milk	784
	<hr/>
Total number of examinations	1,552

Yours truly,

EDWIN E. SMITH, M.D.

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

DECEMBER 31, 1932.

To the Commissioner of Health, Quincy, Mass.

DEAR SIR:—I submit the report of the work in this office for the year ending December 31, 1932.

Inspections made 1,352

Meats and Foodstuffs Condemned as Unfit for Food

Beef (pounds)	39
Pork (pounds)	27
Lamb (pounds)	31

Food Establishments in Quincy

Markets	112
Stores	175
Restaurants	61
Fish markets	65
Delicatessens	17
Fruit stores	41
Open air markets	4
Creameries	9

Our retail stores in all classes of business have improved wonderfully the past few years, more modernized and up-to-date

methods of doing business in less time and more efficiently than ever before. The markets we have in our City today are the most up to date retail stores, equipped with all the most modern sanitary fixtures and refrigerator systems for cooling and handling meats of all kinds than any other City of its size.

The housewife of today can go to the market and purchase every item of food for the table at the one store at prices the lowest for many years. We take the liberty at this time to advise the housewife to go to market each day for her supply, taking advantage of special day sales, pay as you go plan and bring them home with her; she will save money by so doing and cut down much of the household expense. It is a business proposition and a money saver to all. This office is always informed of all stores, markets, restaurants and lunch counters through the inspector at all times, whose duty it is to see that all places are in perfect sanitary condition at all times, according to the rules of the Department of Health. Any complaints that are made are attended to at once to receive first information regarding its action and who is responsible.

The independent market man, as well as chain store supervisors, are always willing at all times to cooperate with us in keeping their place of business clean and in an up-to-date sanitary condition with this department.

An inspection was made among the markets of the city around Christmas time and found conditions good, and prices far below anything in years and business best ever was quoted by many dealers.

Respectfully submitted,

HOWARD ROGERS,

Inspector of Meats and Provisions.

REPORT OF INSPECTOR OF PLUMBING

JANUARY 1, 1933.

DR. CORNELIUS J. LYNCH, *Health Commissioner*.

DEAR SIR:—As Inspector of Plumbing I have the honor to submit my thirty-ninth annual report.

INFORMATION RELATIVE TO ADMISSION OF PATIENTS,
RATES, ETC.

Application for the admission of patients to the hospital should be made to the superintendent. Patients desiring admission should be referred by a physician.

Accidents are admitted at any time.

The hospital maintains an ambulance for transportation of patients within the city limits. The ambulance may be obtained for special service by application to the superintendent.

Single rooms, \$4.50, \$5.00, \$6.00, \$8.00 and \$10.00 per day.

Semi-private rooms, \$5.00 per day.

Ward bed (private), \$3.00 and \$4.00 per day.

Ward bed (service), \$3.00 and \$4.00 per day.

Additional charges:

Operating room, \$5.00 to \$10.00.

Delivery room, \$5.00.

Etherizing fee, \$5.00.

Laboratory fee, \$5.00.

Plaster casts or special dressings, \$3.00 to \$5.00.

Ambulance, \$3.00.

Board of special nurse, \$1.00 per day.

Proprietary drugs or unusual or expensive preparations, mineral waters, liquors, etc., will also be charged extra.

Radiographs will be taken every day by appointment, with the exception of Sunday.

REPORT OF BOARD OF MANAGERS

APRIL 12, 1933.

To His Honor the Mayor, the President and Members of the City Council:

The Board of Managers of the Quincy City Hospital herewith submit as their report for the year ending December 31, 1932, the following information and reports of departments.

MAURICE P. SPILLANE, *Chairman*,
GEORGE TAYLOR, *Secretary*,
JOSEPH A. DASHA,
FORREST I. NEAL,
EMMA S. TOUSANT,
(Secretary, December, 1932),
LOUISE M. EMBLETON.

REPORT OF THE SUPERINTENDENT

To the Board of Managers, Quincy City Hospital:

The following is the report of the work done at the Quincy City Hospital for the year 1932:

Statistical Information

Patients in hospital January 1, 1932	140	
Patients admitted during the year	5,353	
Total		5,493

Respectfully submitted,

RUTH J. ADIE, R.N.,
Superintendent,

REPORT OF THE SCHOOL OF NURSING, QUINCY CITY HOSPITAL, 1933

To the Board of Managers, Miss Adie and Friends:

Our school and its alumnae have been so much more fortunate than many that we are all deeply appreciative of our blessings this year.

At the present time, the census of the school is thirty-five.

Seniors	—ten
Intermediates	—twenty
Preliminary	—seven

There were two resignations due to illness, and two students dismissed during the year because of inability to meet the requirements.

With the decrease in the size of our school the care of the patients has been given to a greater extent, to the graduate floor staff now employed. This group of nurses is very cooperative. Toward the end of autumn, when there was comparatively little illness, these nurses cheerfully took a week leave of absence so that some of the private duty nurses might be given temporary employment.

I am happy to say that we have been able to assimilate in some capacity many of the nurses who have graduated since February, 1931. Our nurses are realizing more than ever before the need for special preparation for their work; four attended Summer School at universities, and during the winter nine have been taking part time courses. Two courses have been given at the hospital, one an Outline of the Administrative Field, the other on the Principles of Teaching. These have been well attended by supervisors, charge nurses and graduate floor nurses.

The classes of 1931 and 1932 have shown their special interest in the school by the type of Class Gift they have given. The class of 1931 made it possible to buy a set of the Encyclopedia Britannica, while the class of 1932 presented one hundred dollars in gold to be used as the nucleus of a loan fund for post graduate work.

I would like to thank the Committee of the School of Nursing for its advice, suggestions and support; also the doctors who so kindly give of their time and skill, and the friends who in so many ways show their interest in us.

Respectfully submitted,

EILEEN M. YOUNG,
Superintendent of Nurses.

REPORT OF STAFF OF QUINCY CITY HOSPITAL

To the Board of Managers and Superintendent of Quincy City Hospital:

During the year 1932 the various departments of the hospital have been carrying on their work in a most satisfactory manner. The Surgical, Medical, Obstetrical, Pathological, Physical Therapy, and X-ray departments have carried on and their results have been most commendable. The Pediatric Department has been organized and has been placed in charge of Dr. Edmund B. Fitzgerald, a man well trained in that branch of medicine. The Nose and Throat Department has been organized with Dr. W. J. Harkins as its chief, and with a capable corps of assistants. Therefore, for the first time, the staff is pleased to report that all departments of the hospital are well organized and in charge of men well trained in their particular branches of medicine. We feel that this complete organization is in keeping with the development and progress at the hospital and must react for the benefit of the people of Quincy.

Just as in the previous year, there has been a more marked influx of physicians desiring to locate and practise in the City of Quincy. It is to be regretted that some of these men have not graduated from Class A Medical Schools. After residing in Quincy a short time they all desire to participate in the benefits of the hospital. Therefore, mindful of the fact that it is our great ambition to maintain always our present high standing, namely a Class A rating of the Quincy City Hospital, the staff deemed it necessary to increase the length of residence of applicants to the Courtesy Staff from one to two years in the City of Quincy and also to specify that the applicant must be a graduate of a Class A Medical School.

The supervision and regulation of major surgical work in a hospital such as ours is one of great importance and is exceedingly difficult. With this in mind, and after the most careful deliberation the senior members of the Surgical Staff recommended that all major operations should be done by a physician who is a member of the American College of Surgeons, or under his supervision or approval. We felt that this was a step forward in maintaining a high standard of surgical work which must react to the benefit and high reputation of our hospital. We are glad to state that this, and other recommendations, were approved by the Board of Managers and accepted by the entire staff.

We are deeply grateful for the efficient service rendered by the nursing corps, during these most trying times, under the careful guidance of Miss Adie and her assistants, and also appreciate deeply the hearty cooperation shown by the Board of Managers in approving recommendations made by the staff.

All recommendations made by the staff have been done with only one thought in mind, that is to maintain the highest possible standard of efficiency. We feel that if this is understood by the citizens of Quincy, there will be no need of any citizen going elsewhere for hospital treatment, if they realize that within the limits of their own city there is a hospital fully organized and equipped to handle any medical problem.

Respectfully submitted,

DR. DANIEL B. REARDON,
President, Staff of Quincy City Hospital.

REPORT OF THE X-RAY DEPARTMENT, QUINCY CITY HOSPITAL

*To the Superintendent and Board of Managers,
Quincy City Hospital, Quincy, Massachusetts.*

During the past year the radiographic department of the X-Ray laboratory showed an increase of approximately twenty per cent in the number of patients examined, while the therapy department showed an increase of almost one hundred per cent in the number of patients treated.

The above record, while extremely gratifying to all interested, emphasizes the fact that more help is needed if the work of the laboratory is to maintain its high standard. The present arrangement provides one full-time technician, Miss Helene G. Reed, and a part-time assistant, Miss Madelyn Flaherty, whose major duty consists in supervising the work in the drug room. These two young women deserve the utmost praise for the efficient and pleasant manner in which they have successfully labored to keep the routine of the laboratory running smoothly, but the time has come when the full-time effort of both is essential. I am hoping this change may be made at a very early date.

The marked increase in the number of patients treated for cancer and other diseases amenable to radiation therapy adds another time consuming detail to the work of the laboratory, and we feel that it will not be long before a technician will have to devote all her effort to this important branch of X-Ray.

It might be well to say in conclusion that the Quincy City Hospital is now well equipped to treat malignant diseases by the most approved methods. Both high and low voltage therapy machines, as well as radium, are now available, and the experience of the past year showed that the members of the staff and heads of departments are cooperating in every way to aid the development of this important branch of medicine.

Following is a statistical report of the cases seen in our laboratory during the year 1932:

Out patients	2,807
House patients	1,811
Total	4,618
G. I. tract	498
G. U. tract	153
Gall bladders	402
Upper extremities	752
Lower extremities	679
Skulls	396
Noses	11
Jaws	26
Chests	565
Pelves	281
Spines	283
Teeth	76
Barium enemas	79
Ribs	198
Sinuses	64
Mastoids	89
Sternum	11

Foreign bodies	8	
Pregnancies	34	
Reduction of fractures under fluroscope	13	
		4,618
Treatments		
Whooping cough	59	
Carbuncles	36	
Cancer	176	
Thymus	23	
		294
Grand total		4,912

With sincere appreciation of the hearty cooperation of the Administration and Staff during the past year, I am,

Respectfully yours,

CHARLES WHELAN, M.D.

ANNUAL LABORATORY REPORT

*To the Superintendent and Board of Managers,
Quincy City Hospital, Quincy, Massachusetts.*

The following is the report of the Clinical and Pathological Laboratory for the year 1932:

There was another large increase in the total number of specimens examined in the laboratory during the year 1932 as compared with previous years. The increase in the number of post mortem examinations indicates a scientific interest on the part of the Staff in the general character of the work at the hospital.

Our technicians, Miss Frances K. Morris and Miss Elinor D. Rich, are working harmoniously together and doing efficient and accurate examinations in keeping with the high standard of the laboratory.

The following is the detailed report of the specimens examined during the past year:

Pathological surgical specimens	885
Autopsies	70
Urinalyses	6,833
Renal function tests	30
Blood examinations:	
White blood counts	1,010
Red blood counts	556
Hemoglobin estimations	561
Color indices	529
Platelet counts	8
Differential counts	558
Bleeding times	17
Clotting times	39
Blood chemistry:	
Blood sugars	144
Blood N-P-N	146
Icteric indices	12
Van denBergh	3
Blood typing	26
Blood matching	122

Blood cultures	26
Throat cultures	17
Miscellaneous cultures	88
Bacteriological smears	166
Sputa	81
Exudates	4
Transudates	16
Bacterial count	1
Spinal fluid examinations	43
Gastric analyses	3
Vomit	6
Feces	60
Autogenous vaccines	6
Animal inoculations	13
Ascheim-Zondek pregnancy tests	48
Basal metabolism estimations	49
Total number of examinations	12,276

Respectfully admitted,

FRANCIS P. MCCARTHY, M.D., *Pathologist.*

REPORT OF THE DEPARTMENT FOR PHYSICAL THERAPY

*To the Superintendent and Board of Directors,
Quincy City Hospital, Quincy, Massachusetts.*

The following is the number of treatments given in the department during the year 1932:

January	585
February	641
March	639
April	738
May	419
June	346
July	367
August	467
September	400
October	600
November	615
December	524

6,341

During the past year the department has increased its service to the citizens of Quincy through the cooperation of the staff, which has made this possible. Over a thousand more treatments were given this year than during the year 1931.

Included in the work done was a series of lectures to nurses, including demonstrations of the various physical therapy procedures.

The value of colonic therapy is being recognized and many patients are taking advantage of this phase of our work. Many interesting clinical observations have been made since this service was instituted.

Respectfully submitted,

CLAUDE L. PAYZANT, M.D.

REPORT OF THE HOSPITAL LIBRARIAN

Another year of service added to the roll has further satisfied those interested that the book lending service at the Quincy City Hospital is all that it was expected to be. After more than seven years the public have become accustomed to the idea of library books in the hospital and require little explanation as the library wagon is trundled about.

Seven new shelves have been added to the library to make way for the books which have been added since the room was furnished two years ago.

At present there are 856 permanent books; 683 are adult fiction, 107 are juvenile fiction, 35 are adult non-fiction and 76 are juvenile non-fiction. There are books in Italian and Finnish in the permanent collection.

In addition, special requests are gratified whenever possible, and at this writing there are in circulation 33 books borrowed from the main library by request.

The subjects covered in requested books loaned to patients are philosophy, one; engineering, four; literature, six; travel, six; finance, one; biography, six, and history two; fiction, seven.

The total circulation for the year 1932 was 10,971, a gain in circulation of 199 as against the previous year. The detailed figures are:

	Fiction	Non-Fiction
Adult	7,888	1,077
Juvenile	1,530	476
Total	9,418	1,553

Of the foregoing, 90 books were written in Italian, 40 in Finnish, one in French, five in Syrian, eight in German.

The total number of periodicals circulated was 826.

Respectfully submitted,

ZAYMA CONNOLLY.

REPORT OF QUINCY HOSPITAL AID ASSOCIATION

To the Superintendent and Board of Managers.

The Quincy Hospital Aid Association has met regularly to sew in the Recreation Room at the Nurses' Home. In spite of a rather small average attendance, enough sewing has been accomplished to justify our continued existence.

We have also supplied the Nurses' Home with several current magazines, as well as several for distribution in the wards by the hospital librarian.

As has always been the custom, we presented the graduating class with their class pins.

Many church organizations have helped in our sewing. Also many individuals who are not able to attend the meetings, but are glad to sew at home.

We have alternated with the Wollaston Hospital Aid in providing afternoon teas for the nurses. We intend to have one every month during the season. This year several have had to be omitted owing to much sickness.

Respectfully submitted,

SUSANNE CLARK BRESLYN,
President.

**REPORT OF WOLLASTON BRANCH OF QUINCY HOSPITAL
AID ASSOCIATION**

To the Superintendent and Board of Managers.

On the first Thursday of each month from October to June the Wollaston Branch Hospital Aid Association held regular meetings in the Community Room of the Wollaston Branch Public Library, the purpose of these meetings being to sew for the Quincy Hospital.

As the membership is small, our activities are limited.

Respectfully submitted,

MRS. FRANK CROFTS,
President.

Total number days lost..... 1,960

Number days not paid for.....	502
Total number days paid for.....	1,458
Number of hours of extra work without pay.....	6,570

Conclusion

The Department has been particularly unfortunate the past year in the loss by deaths of two active members and one who had been retired on pension.

Sergeant James McNamara, who had been a member of the Department since 1910, Patrolman Patrick Coyne with 11 years of service, and Inspector John T. Larkin, retired after 25 years as a member of the Department, passed away during the year.

All of these men had been good, faithful, efficient police officers, and in their deaths the Police Department has suffered a very distinct loss.

Radio has become a very valuable aid to police work and its use is being rapidly extended. Through the kindness of the members of the South Shore Amateur Radio Club I was able to make some very interesting tests of the use of radio in police cars. The members of the Club installed two transmitters at Police Headquarters and messages were sent out from them to two radio-equipped police cars. These cars were driven through the various sections of Quincy, Braintree, Milton, Weymouth and Hingham and no "dead spots," so called, were discovered, reception being perfect in all parts of these communities.

A hook-up of these towns, and possibly others, with a transmitter located at the Quincy Police Station would be very valuable to the police of all these places, and with the cost of installation and maintenance shared between them the expense would not be great.

I am aware that under present conditions it probably will not be possible to go ahead with this at present, but I sincerely hope that this matter will be given serious consideration as soon as possible.

Respectfully submitted,

ERNEST H. BISHOP,
Chief of Police.

REPORT OF FIRE DEPARTMENT

JANUARY 1, 1933.

HON. CHARLES A. ROSS, *Mayor, City of Quincy, Mass.*

December	5,128 00	7,148 00	12,276 00
Total	\$121,270 00	\$62,758 00	\$184,128 00

Flood Light Truck Operation Report

Number of alarms answered, 276.

1000 watt light in use, 107 hours.

500 watt light in use, 160 hours.

250 watt light in use, 142 hours.

There were 3,500 feet of wire used in the above operations.

The inhalator was used six times and there were ten tanks of oxygen used.

On June 12th an automobile from Pennsylvania went through the Fore River bridge and the flood light truck was called for and by using the lights on the truck the occupant of the automobile was located in the water and was rescued by the police.

There were four inquests held at Fire Headquarters by Inspector Reardon of the State Fire Marshal's office of fires that were suspected of being of incendiary origin and reports of same sent to the District Attorney's office.

There were sixty-three applications made for the sale and storage of fireworks with sixty of them being inspected and approved and three rejected. The sum of thirty dollars was collected for the fireworks permits and was forwarded to the City Treasurer.

For the year of 1932 we had a total of 970 alarms. The number of bell alarms were 465, seventy-seven of which were false, an increase of seventeen over the previous year. The number of alarms would be a great number more only for the fact that members of the department are sent out to burn places that are fire hazards and also due to the men sent out by the Public Works Department to burn.

There were 18,106 inspections made all over the city and where fire hazards were found the owners and occupants were notified of the conditions and in all cases the conditions were remedied.

On June 22nd a serious fire occurred at the Victory Plant, Squantum, owned by the United States Government and used for the repair and storage of boats. The loss was over two and one-half million dollars to the building and to eight pleasure boats that were stored there or being repaired there.

The Fire Department was handicapped on arrival at this fire as the water mains had no water in them and by the time the mains had been filled the fire had gained considerable headway. The Boston Fire Department was called on to assist the Quincy Department, and they sent one fire boat, one aerial truck and three engine companies in charge of Chief Henry Fox and Fire Commissioner Edward McLaughlin, to whom we are very grateful, because it was through their aid that we were able to confine the fire to one section of the plant.

At the fire at the Adams building, which was a three alarm fire, the Boston Fire Department sent Engine No. 20 from Neponset to Engine No. 2 station in Atlantic to cover in.

Recommendations

I respectfully recommend:

That a new pump be purchased, as there is now in active service three pumps which are showing the signs of wear and should be replaced.

That an aerial ladder truck be purchased, as some of buildings and apartments are of such height that our present ladders will not reach the top of them.

That a captain and lieutenant be stationed in all stations where double companies are stationed so that an officer will be in charge of the ladder trucks when answering an alarm. As the Wollaston Station is the only station with that assignment I recommend it for all stations.

That more men be appointed to the department so that the ladder trucks can be better manned.

That a station be built to replace the present Fire Headquarters as the strain on the main floor is very great, as there are six pieces of apparatus stationed there and it has to be reinforced from time to time. The accommodations are very poor for the men stationed there.

In conclusion, I wish to express my sincere thanks to His Honor, the Mayor, the City Council, the various City Departments and to the officers and men of the department for their cooperation and faithful discharge of their duty.

Respectfully submitted,

WILLIAM J. SANDS,
Chief of Fire Department.

REPORT OF FIRE AND POLICE SIGNAL DEPARTMENT

JANUARY 1, 1933.

Hon. Charles A. Ross, Mayor, City of Quincy, Quincy, Mass.

DEAR SIR:—I respectfully submit the annual report of the Fire and Police Signal Department for the year ending December 31, 1932.

Personnel of Department

Superintendent, Thomas J. Smith

Linemen

George Leonard

Francis Lonergan

Chauffeur

Frederick Munier

Fire Alarm

The Central office equipment has been greatly improved with the addition of a new sending transmitter operating on a speed of three blows per second. Three four circuit registers handle the incoming alarms with one out going four circuit register taking care of handling up to six blows a second.

Rectox full wave rectifying charging units have been installed on several circuits, replacing one set of batteries on each circuit with a resulting saving in initial cost and an absence of depreciation as the batteries replaced were over aged and disintegrated. Rectox units are practically limitless as to age as they have no renewable parts and so far as known have no age limit. Practically all of the fire alarm batteries must be renewed as they are all beyond their allotted hours of use.

During the year just past the underground cable system has been greatly augmented with addition of approximately nine thousand feet of lead covered multiple conductor cable. The aerial system has been extended by the addition of six thousand feet of loom covered multiple conductor cable and seven miles of open wire with the accompanying crossarms and hardware. New fire alarm boxes have been installed, bringing the total number up to 247.

Police Signal

The police signal system has been further improved by the installation of new type batteries of longer life with the new type Rectox method of charging whereby only one set of batteries are required with a resulting considerable saving in expense of operation. A new police box has been installed and numerous additions on the Recall signal circuits.

Quincy is about the only city in this part of the state, if not the only one, utilizing a combination fire and police light. That is normally a red light adjacent to the fire alarm box, the same light controlled from the police station desk so as to signal the police officers on their various precincts on the street.

Traffic Signals

Much work has been accomplished in the past year in lowering the lights at numerous intersections so that they may more readily be discerned by motorists and pedestrians. The majority of the signals are obsolete, through age, and a lot of repairs are needed to keep the mechanisms functioning. New motors will be needed to replace these old ones that do not conform to the state code.

A survey was made by State Engineers and numerous recommendations were submitted, but through lack of funds we were only able to comply with those recommendations where no expense was entailed.

Respectfully submitted,

THOMAS J. SMITH, *Superintendent.*

REPORT OF INSPECTOR OF BUILDINGS

JANUARY 1, 1933.

HONORABLE CHARLES A. ROSS, *Mayor of Quincy, Quincy, Mass.*

DEAR SIR:—I herewith submit the twenty-sixth annual report of the Building department for the year ending December 31, 1932.

I am sorry to report that Mr. Parker has been very ill and, being unable to make out this report, I shall endeavor to fill in for him.

The new construction has fallen off considerably in the past few years and, although it was expected to pick up during 1932, all indications show a decided decrease.

There were no outstanding projects constructed during the year, the majority of the work done being alterations and garages.

I do not mean that there were no houses constructed, for I am pleased to report the following:

During the year 1932 there have been erected

56 One family dwellings.

4 Two family dwellings.

1 Four family dwelling.

The addition of the Quincy School was completed in the early spring and was immediately occupied.

The changes to the Quincy R.R. Station and its approaches were completed early in the year and show a remarkable improvement over the old station.

The work was well distributed over the entire city, which will show on the following tabulation.

TABULATIONS OF BUILDING OPERATIONS FOR 1932

Ward 1

	Permits	Estimated Cost	
16	One family dwellings	\$64,300 00	
1	Two family dwelling	6,000 00	
7	Cottages	7,586 00

\$574,032 00

Statement

Cash received each month for permits issued from January 1, 1932, to December 31, 1932, and paid to the City Treasurer is as follows:

January	\$82 50
February	66 50
March	90 00
April	133 00
May	134 00
June	132 00
July	86 00
August	104 00
September	105 50
October	101 50
November	92 50
December	48 00

\$1,175 50

I wish to take this opportunity to express my appreciation for the co-operation I have received from the builders of Quincy and all others connected with this work while I have been filling in for the Building Inspector.

Respectfully submitted,

WALLACE S. CARSON,
Acting Inspector of Buildings.

REPORT OF DOCK AND WATERFRONT COMMISSIONER

QUINCY, MASS., JANUARY 1, 1933.

Received by Water from January 1, 1932, to January 1, 1933.

For Quincy Point Power Station:

Bituminous Coal (gross tons).....	41,514.61
Briquetts (gross tons)	223.3
Coke (gross tons)	3,698.50
Fuel oil (bbls.)	15,014.83

For J. F. Sheppard and Sons, Inc.:

Amount of Coal of all kinds (tons)	10,091
--	--------

(Rail Shipment not included.)

For City Fuel Company:

Amount of Coal of all kinds (tons)	20,501
--	--------

Amount of Lumber received from:

January 1, 1932, to January 1, 1933.

For Quincy Lumber Company (feet).....	513,645
Approximate Cost	\$18,000.00

Total openings of draw at Fore River Bridge.....	2,136
--	-------

Respectfully submitted,

EDWARD M. WIGHT, *Commissioner.*

REPORT OF COMMISSIONER OF PUBLIC WORKS

HONORABLE CHARLES A. ROSS, *Mayor*:

The report of the Public Works Department for the year 1932 excluding the Sewer and Water Divisions which appear separately, is hereby respectfully submitted:

FREDERICK E. TUPPER,
Commissioner of Public Works.

The expenditures of the department under the appropriations made for it were as follows:

General Maintenance		
Highways	\$278,054	81
Sanitary	103,065	84
Gypsy moth	14,971	55
Street lighting	121,614	58
Public buildings	3,448	98
City Hall	8,831	62
Net expenditures		\$529,987 38
Miscellaneous		
Supplies	\$138	17
Printing	175	50
Advertising	15	51
Equipment	55	25
Net expenditures		\$384 43

For the detail of expenditures, reference is made to the report of the Auditor of Accounts.

A substantial part of the program of the department was devoted to providing work for the unemployed. Thirteen miles of Amiesite sidewalk construction on the following streets was thus carried out:

Alden Street	Ellerton Road
Arthur Street	Everett Street
Alton Road	Faxon Road
Alleyne Street	Franklin Street
Arlington Street	Farrington Street
Beale Street	Garfield Street
Bennington Street	Granite Street
Beale and Summit Avenue	Glendale Road
Billings Street	Gould Street
Beach Street	Hall Place
Bellevue Road	Hobart Street
Crescent Street	Hancock Street
Crest Street	Independence Avenue
Dartmouth Street	Lafayette Street
Dale Avenue	Liberty Street
Darrow Street	Madison Avenue
Dixwell Avenue	Madison Street

Monroe Road	School Street
Montclair Avenue	Suomi Road
Nicholl Street	Smith Street
Nelson Street	Stewart Street
Newton Avenue	Sea Street
Old Colony Avenue	Taylor Street
Orchard Street	Upland Road
Phipps Street	Verchild Street
Pine Street	Water Street
Roberts Street	Warren Avenue Extension
Rock Island Road	Wedgewood Street
Safford Street	Wibird Street
Sumner Street	Washington Street
Samoset Avenue	Walker Street

In carrying this out, labor was charged to a special appropriation at \$4.00 per day, and the materials were charged to specific appropriations where available.

From the same special appropriation, certain repairs were made on public buildings, being largely painting at the Wollaston, Houghs Neck and West Quincy Fire Stations. Grading was also done at the Coddington, Montclair, North Quincy High, Quincy and Merrymount Schools and Woodward Institute grounds. With labor from the unemployed list, a roadway was constructed in Merrymount Park and shrubs placed and grading done at the Hollis Avenue Playground and at Faxon Park.

Sanitary Division

Expenditures of the Sanitary Division amounted to \$138,074.28, as is shown in detail in the Auditor's report.

Expenditures for labor were as follows:

Garbage	\$56,338 15	
Ashes	40,906 22	
Cesspools	1,961 97	
Vacations	3,677 50	
Nuisances	182 00	
		\$103,065 84

Expenditures for transportation:

Hired trucks:		
Garbage	\$5,006 44	
Ashes	1,990 65	
		\$6,997 09
Maintenance of city trucks	3,922 21	
		\$10,919 30

In addition to hired trucks, there are twenty city trucks in operation.

Gypsy Moth

In furtherance of the forestry and gypsy moth suppression, the division expended \$14,971.55.

Gardens

The Highway Division, under the supervision of Mr. Andrew Stewart, Superintendent of the Forestry and Moth Division, has maintained the grass areas in all street parks and memorial enclosures and fifty-six flower gardens which have been installed throughout the city. These gardens were planted with tulips in the spring and the tulips were replaced with coleus, geraniums and cannas for the summer months. The gardens, besides beautifying the city, have been a source of employment for several men.

In conjunction with the celebration of Arbor Day by the School Department, we planted twenty-four elms in the various school yards, and two large blue spruce trees at the Central Junior High School. Also while grading school grounds we set out eighty-four shrubs at the Quincy School, one hundred and fifty climbing bush honeysuckle along the bank in the rear of the Merrymount School, and at the Montclair School, planted shrubs and set maple trees. When the grounds were regraded at Woodward Institute, we transplanted two thousand hedge plants and planted forty shrubs.

At Merrymount Park six lombardy poplars and fifty shrubs were planted during the grading around the Acoustic Shell. Along the fence enclosing the Bowling Green we placed two hundred seventy-three shrubs from our nursery on Penn Street. Near the entrance to the Upper Field four maples, three elms and one oak tree were planted along the banking. On the knoll at the entrance to the Pageant Field were put forty English beeches and ten maples from the lot at President Lane and Glendale Road, and from the Metropolitan Reservation on Pine Knoll, Furnace Brook Parkway, we took forty-four elms, one hundred and fifty Scotch pines and one thousand white pines. Flowering dogwood and hawthorne, Japanese crab and three white birches were installed along the Hancock Street entrance to Merrymount Park. One large flowering crab was given to the city by the forester, Mr. Stewart.

Along the railroad fence, on Newport Avenue, two hundred eighty shrubs have been put in and one hundred fifty plants replaced in the Rock Garden.

Mr. Smalley, of Smalley's Granite Company, donated the sawed slabs of granite for steps to the Rock Garden, also some stepping-stones.

Two portable school buildings were to be set up as permanent headquarters at our nursery on Penn Street, which has been enlarged with the addition of two thousand trees and shrubs and two thousand seedlings have been planted. We also furnished two hundred trees for new streets in the spring.

All dangerous street trees and limbs we cut down or trimmed, and about one cord of wood was hauled to the Infirmary to be used for welfare purposes.

Four and a half tons of arsenate of lead and four barrels of spray oil were used in connection with the regular spraying service.

Care of City Hall

In addition to the ordinary purchases of furniture, the Welfare Office was equipped with new desks, card cabinets, chairs and book-cases, and two steel cabinets were necessary in the Treasurer's Office.

Care of Public Buildings

Other than general maintenance, extra repairs were made as follows:

Headquarters—Brick work and masonry.

New front doors at Atlantic Station.

Timber bulkhead at Wollaston Station and hot water system connected.

Houghs Neck Station painted inside and outside, stock furnished under this account and labor by unemployed.

West Quincy Station painted inside and outside, stock furnished under this account and labor by unemployed.

The Infirmary—New shades were installed, many rooms were painted and kitchen plumbing replaced.

Street Lighting

During the year the number of lights installed was not materially changed. Reductions in candle power were, however, effected in many instances without impairing the illumination of streets, but resulting in substantial savings to the city. The changes made are shown in the following table:

	Dec. 31 1931	Dec. 31 1932	Cost per Year
1000 C. P.	105		
1000 C. P.	7		
600 C. P.	713	491	67 50
		7	76 50
400 C. P.	40	353	49 98
250 C. P.	292	319	39 96
40 C. P.	1,863	1,858	15 00
100 Watt	2	2	30 12
1000 Watt Twin Standards	116	116	71 04
1000 Watt Single Standards	24		
600 Watt Single Standards	27	53	91 50
600 Watt Single Standards	2	2	67 50
400 Watt Single Standards	8	8	73 98
250 Watt Single Standards	12	12	63 96
(Miscellaneous)			
Beacon light, 100 watt	18	20	30 12
Spotlight, 300 watt	4	5	54 00

Caution lights, 40 watt	3	3	13 14
Caution lights, 25 watt	8	8	8 52
Traffic units, 60 watt	136	43	40 00
		77	34 00
Base lights, 50 watt.	10	10-25 w.	8 10
Fire and police signals	28	31	18 00
	3,423	3,425	
Gas lights	18	13	
	3,441	3,438	

Other Appropriations

Under the appropriations made for specified purposes by the Council of 1932 and earlier, work was done as follows:

Quincy School addition, completed with expenditures during the year of	\$51,061 62
Hospital repairs	\$4,898 36
Hospital operating building completed with the expenditure of	\$19,872 10
Parking area	\$5,914 83

New Streets 1932

Work on the following new streets during 1932 was done in accordance with the unemployment program, with the labor charged to the special Unemployment Appropriation, the materials being paid out of the All Others Account, and the supervision out of the Labor Account of the Highways Division.

Bay View Street
 Bryant Avenue
 Branch Street
 Belmont Street
 Dayton Street
 Douse Road
 Endicott Street
 Gilbert Street

ANNUAL REPORT OF THE SEWER DIVISION OF THE PUBLIC WORKS DEPARTMENT

(For Financial Statement see Auditor's Report)

About three and one-third miles of common sewers were built during this year by the Sewer Department. Work was continued on the main sewer in Squantum from Dorchester Street through the land of the City of Boston and along the shore east of Bayside Road to Wedgewood Street. This made possible the connecting of the greater part of the easterly slope of Squantum.

The Metropolitan Sewer Division completed the pumping station at Squantum and put it into operation on September 12, 1932.

A tabulation of Common Sewer Construction is included with this report.

Particular Sewers

During the year there were 222 buildings connected with the sewer in 220 connections in wards as follows:

Ward 1.....	39	Ward 4.....	47
Ward 2.....	7	Ward 5.....	38
Ward 3.....	7	Ward 6.....	57

The total number of feet laid in these connections was 10,744.5 at a cost of \$9,882.18, thus making the average cost per foot \$.92.

Average length per connection.....48.8 feet
Average cost per connection.....\$44.90

Buildings as follows:

Single houses	173	School	1
2-family houses	26	Business	18
4-family houses	2	Amusement	2

Maintenance

Cleaning and maintenance work on the sewer system is being done at present. The remarkably open winter has facilitated this work.

Storm Drainage

There were no large drainage areas taken care of during this year, but about a mile and one-quarter of small drains ranging in size from 8" to 15" in diameter were installed. The drain on Bates Avenue which has been causing trouble was relaid with 18" concrete pipe.

A tabulation of the amount of drainage work done according to length, size and character of material used may be found in the City Engineer's report.

Respectfully submitted,

FREDERICK E. TUPPER,
Commissioner of Public Works.

REPORT OF THE WATER DEPARTMENT

QUINCY, JANUARY 1, 1933.

HON. CHARLES A. ROSS, *Mayor, City of Quincy.*

DEAR SIR:

The following is the Report of the Water Department for the year ending December 31, 1932.

Respectfully yours,

FREDERICK E. TUPPER,
Commissioner of Public Works.

WATER RATES

Total assessment for year 1932.....		\$420,711 80
Amount collected	\$357,689 02	
Amount rebated	737 51	
Amount uncollected	62,285 27	
		\$420,711 80
Amount due from previous years		\$41,757 87
Amount collected	\$27,321 02	
Amount rebated	398 36	
Amount uncollected	14,038 49	
		\$41,757 87
Service Connections and Repairs:		
Total assessment for year 1932	\$13,118 48	
Due from previous years	5,730 65	
		\$18,849 13
Amount collected	\$13,818 81	
Amount rebated	197 39	
Amount uncollected	4,832 93	
		\$18,849 13

For statement of Appropriations see Auditor's Report.

SUMMARY OF STATISTICS

Population estimated on July 1, 1932	74,200
Total consumption of water in gallons for year 1932	1,912,130,400
Average daily consumption of water in gallons for year 1932	5,224,400
Gallons per day per capita	70.6
Main Pipe	
Main pipe laid in year 1932 in feet	3,976
Main pipe total in mileage	189.22
Fire Hydrants	
New hydrants installed in year 1932	13
Total number of hydrants now in use.....	1,760
Gate Valves	
New gate valves installed in year 1932	13
Total number of valves now in use	3,023

Service Pipe

New service pipe laid in year 1932 (feet)	4,600
Total length in feet of service pipe now in use.....	777,768
Number of taps made in year 1932.....	102
Total number of services now in use	16,911

Meters

Number of meters installed in year 1932	165
Total number of meters now in use	16,885
Per cent of services metered December 31, 1932	99.86
Number of leaks in main pipe	14
Number of leaks in service pipe	524
Number of services cleaned, account of poor pressure	795
Number of services renewed in 1932	110
Gallons of water used per tap for day	311
Meters taken out for test and repairs	1,102
Average length of water service in feet	46
Number of connections for fire purpose only.....	51

CONSUMPTION OF WATER FOR PAST FIVE YEARS

Year	Yearly Consumption	Average Daily Consumption	Per Capita Per Day
1928	1,901,589,600 gals.	5,195,600 gals.	76.9 gals.
1929	2,042,722,500 "	5,596,000 "	80.2 "
1930	2,007,025,500 "	5,498,700 "	76.0 "
1931	1,921,287,000 "	5,263,800 "	71.6 "
1932	1,912,130,400 "	5,224,400 "	70.6 "

**AVERAGE DAILY CONSUMPTION OF WATER FOR 1932
IN GALLONS**

January	5,079,300	July	5,742,000
February	5,087,200	August	5,464,200
March	5,061,100	September	5,222,400
April	4,926,600	October	5,240,700
May	5,237,600	November	5,056,300
June	5,476,800	December	5,099,000

For year 1932—5,224,400 gallons per day.

70.5 gallons per capita per day.

Hingham, December 31, 1932.

WM. L. FOSTER, *Treasurer.*

Trustees of Weymouth Fore River Bridge.

GENTLEMEN:—I have examined the accounts of William L. Foster, Treasurer of the Trustees of Weymouth Fore River Bridge, for the twelve months ending December 31, 1932, and I hereby certify that he has accounted for all receipts that have been reported.

I have also reconciled the bank account and find the balance of \$186.28 to be correct.

Very truly yours,

J. IRVING BOTTING,
Auditor.

Hingham, Massachusetts

January 25, 1933.

REPORT OF THE CITY PLANNING BOARD

To His Honor the Mayor and Members of the City Council:

GENTLEMEN:—The Planning Board of the City of Quincy meets once a month to consider and recommend various public improvements which in its opinion will be for the best interests of the City in the future. Although not having any judicial powers, many of the Board's original suggestions have been adopted and carried out to their completion. It is the purpose of the Board to consider alleviating the traffic congestion on our main business streets and through our main thoroughfares as much as possible. To do this it becomes necessary to keep in close contact with the Metropolitan Planning Board and other bodies that are presenting bills to our General Court.

This Board was represented at the Legislative hearings and was recorded as favoring the following projects:

1. Completion of the Blue Hill River Road.
2. Filling in Black's Creek.
3. The new Fore River Bridge.
4. The new Hull Highway over Quincy Bay.
5. The extension of Quincy Shore Boulevard to the Southern Artery.

This year the Metropolitan Commissioners have started the re-surfacing of the Blue Hill River Road from Blue Hill Cemetery to Randolph Avenue. When this route is completed it will have a tendency to reroute traffic from Braintree Five Corners to Dedham and Wellesley.

On the bill for a new Fore River Bridge, the Legislature appropriated money to make plans and surveys and then a study of the same to be presented to the Legislature in December. This study has been made and recommendations have been forwarded to construct a six-lane highway and elevate the bridge to have a clearance of 40 feet. This would necessitate the approaches extending from Dee Road at Washington Street to the southerly line of the Edison Plant in Weymouth. This is a very much needed project and we hope that the Legislature will feel that it is a state project and authorize this work to begin by making the necessary appropriations in the very near future.

The Hull Highway across Quincy Bay was presented in two forms. One, to extend from Dorchester to Thompson's Island to Peddock's Island to Hull, and the other starting at Houghs Neck and crossing Peddock's Island to Hull. So far, neither of these projects have had any recommendations from their respective committees.

The extension of the Quincy Shore Boulevard across Sea Street and through Field Street to the Southern Artery had a hearing before a committee and was looked upon very favorably. This year the Board is recommending the construction of this extension and giving consideration to the elimination of the crossing at Sea Street by having the Quincy Shore Boulevard extended over the same, thus eliminating a bad grade crossing and speeding up traffic. This new bill will be presented to the Legislature of 1933.

The Planning Board feels that when these several projects have been completed, traffic problems in Quincy will be materially aided.

On April 27, Mr. Marsh and Mr. Carson attended the conference of the Massachusetts Civic League and the Massachusetts Housing Association, which was held at the Hotel Kenmore at Boston. These conferences are well worth the time devoted to them as many problems are discussed which occur in various parts of the state, and the experiences gathered by others are of a helpful nature and can be used to solve our own local problems.

On May 11, the Board entertained Professor Ford's class on Economics from Harvard College. They were interested in seeing the important historical and geographical points of our city. Cars were furnished and a group were taken on a tour to as many places as time permitted.

The Board has always been interested in the traffic count of automobiles on our main thoroughfares, but this year, with the aid of the Boy Scouts and local merchants, a traffic count of pedestrians was taken on one of our busy intersections. We found that 5,292 persons passed the crossing at the intersection of Hancock Street and Granite Street within one hour and this was quite a revelation to all of us.

The Board congratulates the City Council on the purchase and development of land on Granite Street for parking purposes. This will help to relieve the traffic situation on our business streets and is just the beginning of what will have to follow to furnish sufficient available space for cars to be parked. Ultimately this parking area will be extended through the land adjoining and thence to School Street.

The Old Colony Railroad completed their improvements around the Quincy Station in the early spring. We are submitting herewith photographs showing the location before construction and as station and station grounds present themselves upon completion.

The railroad found that they were unable to finance the grade crossing at Water Street at this time, but we hope that they will be able to resume construction in the near future and relieve this dangerous situation.

This Board is always interested in the beautifying of the city and submit a photograph of the rock garden on Newport Avenue at the Furnace Brook Parkway. This has been a great attraction to many people during the past year and with this and several other beauty spots which were created, helped to improve the beauty of our intersections.

During the year the Thomas Crane Public Library purchased the property adjoining their main building, and have installed a children's branch which is shown in the accompanying illustration.

We are also submitting a plan showing the proposed extension of Quincy Shore Boulevard over Victory Road to the Old Colony Parkway as prepared by the Metropolitan Planning Board for submission to the Legislature of 1933.

This has been previously recommended by this Board and we feel that it would do much to relieve the now heavily traveled Neponset Bridge.

The City of Quincy, in the early part of the summer, decided to build an Acoustic Shell which had two purposes. First, to give work to many of the unemployed and second, to present classical concerts for the entertainment of the people of Quincy and the South Shore.

The money to construct this shell was partly raised by public subscription and the concerts were given by Walter Smith's Jenney

Band. We are submitting herewith a photograph of this beautiful Acousticon.

We are pleased to have a Massachusetts dredging company consider location on the Town River at the old Baker Basin plant. The company has installed a floating dry dock with a capacity of 1,000 tons. This dock is 150 feet long and 70 feet wide. This makes an additional industry in the development of Town River.

This Board has always favored the widening of main streets and the elimination of dangerous corners, and we would recommend the rounding of other corners in the city similar to the work recently done at Lincoln Avenue and Newport Avenue, where it was not necessary to make land takings.

Respectfully submitted,

WILSON MARSH, *Chairman*

JAMES E. W. GEARY, *Vice Chairman*

JAMES J. McPHILLIPS,

CLIFTON H. BAKER,

EDWARD J. B. DESMOND.

WALLACE S. CARSON, *Clerk*

REPORT OF BOARD OF SURVEY

To His Honor the Mayor and Members of the City Council:

GENTLEMEN:—I herewith respectfully submit the seventeenth annual report of the Board of Survey for the year ending December 31, 1932.

The past few years have been very quiet for new developing of real estate, owing to the so-called "depression," so that during the year there were no applications received for the extension or laying out of new streets.

In the early part of the year the City Council appointed a committee to consider the changing of duplicate street names, which met with the Board of Survey, who submitted a list of 178 streets that were either duplicate or similar in nature to other streets in the city.

At this meeting it was agreed to have this committee from the City Council hold public hearings to make these changes, and the clerk was delegated to assist this committee whenever possible.

No regular meetings were held during the year, due to the lack of applications on new developments.

Respectfully submitted,

GEORGE A. NEWCOMB, *Chairman*,
WILLIAM A. CRESSWELL,
ARTHUR T. CARUSO.

WALLACE S. CARSON, *Clerk*.

ANNUAL REPORT OF SOLICITOR

QUINCY, MARCH 30, 1933.

HON. CHARLES A. ROSS, *Mayor of the City of Quincy,
Quincy, Massachusetts.*

DEAR SIR:—I have represented the City of Quincy in all matters wherein the City of Quincy was a party in court, have advised with the heads of departments, have given opinions to the Mayor, City Council and other departments of the City, have drawn all legal instruments required by the Mayor and City Council, and otherwise conformed to the duties of the office, for and during the year 1932.

Respectfully submitted,

J. J. McANARNEY.

REPORT OF THE MANAGER OF PUBLIC BURIAL PLACES

JANUARY 2, 1933.

HON. CHARLES A. ROSS, *Mayor's Office, Quincy, Massachusetts.*

DEAR SIR:—The Manager of Public Burial Places respectfully submits the following financial report for the year ending December 31, 1932:

Receipts

Care of lots	\$2,469 00	
Sale of lots	5,540 00	
Sale of graves	3,160 00	
Opening graves	6,587 00	
	<hr/>	\$17,756 00
Foundation and grading		1,463 10
Perpetual Care Fund—interest.....		7,514 02
Other Trust Funds—interest		146 07

Expenditures

Manager—salary	\$2,400 00
Superintendent—salary	2,200 00
Clerk—salary	700 00
Cemetery—labor	22,971 50
Truck—upkeep	345 84
Cemetery—supplies	1,223 03
Miscellaneous	259 53

	Appropriation	Expended
Hancock Cemetery	\$500 00	\$500 00
Special trucking	500 00	450 00
Grading on unimproved land in Mount Wollaston Cemetery.....	5,000 00	4,981 18

During the year ending December 31, 1932, there were four hundred and seventy-two (472) burials in Mount Wollaston Cemetery.

The sum of \$9,955.00 was added to the Perpetual Care Fund. A detailed statement of the investment will be found in the City Treasurer's report.

Very truly yours,

W. W. MITCHELL,
Manager of Public Burial Places.

REPORT OF ENGINEERING DEPARTMENT

To His Honor the Mayor and Members of the City Council:

GENTLEMEN:—I herewith respectfully submit the thirty-third annual report of the Engineering Department for the year ending December 31, 1932.

The work done in this department is so varied that it is almost impossible to itemize each project that is considered during the course of the year. Every department that requires any engineering or drafting calls upon us to do their work, so I shall endeavor to give an explanatory report of the different work done for each individual department.

City Council

The City Council is mostly interested in the costs of projects that are presented to them which are many and varied, and call upon this department to prepare estimates and plans for such proposed projects.

Plans are prepared and furnished for all hearings for the acceptance of streets and for the taking of lands for park, sewer, street or any other purpose.

All orders presented to the Council for the acceptance of streets, the construction of granolithic sidewalks, land takings and the assessment of betterments on streets and sidewalks are prepared by this department.

The City Engineer attends all meetings of the Council and its Finance Committee to furnish them with whatever information they desire in regard to the costs and feasibility of the various projects brought before them.

Many requests are received during the year from the individual councillors as to the costs of proposed projects that do not come before the Council, which are given immediate attention.

City Clerk

The City Clerk, who is also the Clerk of the Council, was furnished with all plans and orders pertaining to the acceptance of streets, land takings or assessments that were passed by the Council to be recorded in the Norfolk Registry of Deeds.

Copy of all reports of accidents are received from the City Clerk and investigated immediately and information prepared in contemplation of any court action on the same.

City Solicitor

The City Solicitor calls upon this department for information on various court actions that are brought against the city. Surveys are made and plans prepared for accidents that are to be tried in the courts.

Description of land takings are made to be incorporated in deeds that are written to be recorded in the Norfolk Registry of Deeds.

The City Engineer is called upon personally to appear in court as a witness many times during the year.

Tax Collector

Private individuals make requests upon the Tax Collector for information in regard to outstanding betterments or liens on properties that they are investigating. These requests are forwarded to this department for this information on street and sidewalk betterments. During the year there were 240 requests of this nature.

In preparing for the sale of unpaid taxes for the year 1931, this department furnished descriptions of the various parcels to be advertised. There were about 7,500 descriptions furnished the Tax Collector for this contemplated tax sale.

It is necessary for this department to keep a complete record of all parcels that have been put through the Land Court to take care of these descriptions.

Assessors' Department

The demands of the Assessors' Department are very numerous as all their plans are prepared and kept up-to-date by this department. These plans show each parcel of land in the city with the areas, buildings and owner's names. Owing to the numerous transfers in property and new buildings constructed, a great deal of time is spent in keeping these plans up to date.

A copy of all permits issued pertaining to the changing of present buildings or construction of new buildings is received from the Building Department and these buildings are measured and checked up in the field and plotted on these assessors' plans.

During the year there were approximately 5,000 transfers of ownership of properties which required numerous erasures and changes to be made on these plans. As the life of these plans are very short it becomes necessary to make approximately 100 new plans each year. This work is done during the winter months.

Park Department

The Park Commissioners call upon this department to lay out baseball diamonds during the baseball season and football and soccer fields during the football season on practically every playground in the city.

The Dennis O'Neil Playground on Hollis Avenue, which was graded during 1931, was regraded owing to the settlement due to the soft material on this playground. There were approximately 600 yards of loam spread on this playground to bring it up to grade.

Ward Two Playground, which is being regraded and the material used on construction of new streets, is progressing rather slowly due to the transfer of the material to necessary projects.

During the latter part of the year the Bethlehem Shipbuilding Corporation transferred their property, which is known as the Fore River Field, to the City of Quincy. The building on this property was in a rather dilapidated condition. All the windows were boarded up and the roof temporarily repaired in contemplation of permanent repairs being done in 1933.

At Merrymount Park there was a great deal of activity principally due to the construction of the Acoustic Shell.

The citizens of Quincy, wishing to assist in the unemployment situation, created a fund from public subscriptions which was used for the employment of labor on various projects in the city.

One of the main projects was the construction of an Acoustical Shell at Merrymount Park. This created considerable work, necessitating employment of laborers, masons, carpenters, electricians and others.

Upon the completion of this Shell, Walter Smith, a citizen of Quincy and leader of the famous Jenney Band, held 18 band concerts during the summer season.

In preparation for the vast crowds who attended these concerts, Welfare labor and unemployed labor were used to construct roadways from the main thoroughfares, and grade off a section for the parking of automobiles. One of the roadways was continued to the beach at the lower end of the park and the beach was improved for local bathers.

Several new flower beds were laid out and planted in this park during the year. This work was laid out and supervised by this department.

Lines were given for the construction of fences on various playgrounds throughout the city.

Cemetery Department

A part of the Mount Wollaston Cemetery, which is the only available area for burial purposes, was laid out and graded during the year. Several sections of this cemetery were staked into lots upon request of the Burial Commissioner.

A survey of the entire cemetery was started which, when completed, will show the whole cemetery on one plan together with the various lots as have been sold during the previous years. This work should be continued in 1933 whenever possible, so that plan may be completed, which will assist the Cemetery Department in keeping their records.

School Department

The addition to the Quincy School was completed early in the year and the grounds adjoining both the original school and the addition were regraded.

Grades were given for the resurfacing of the Coddington School yard. This was regraded with an asphalt surface.

The westerly side of the Merrymount School yard was graded and surfaced with an asphalt finish. This was a decided improvement to this school.

Lines were also given for the construction of fences on various school locations throughout the city.

Building Department

All applications received by the Building Department for the construction of new buildings are referred to this department to issue the grade at which such building may be constructed. This work has been done during the past few years and is just beginning to show results.

The purpose of this procedure is to establish a grade for cellar floors so that they may be properly drained into both the drains and the sewers of the city. Also to keep the proper alignment and the height of buildings in conformity with the existing structures. This has been working out very successfully and has eliminated the construction of buildings on locations at such grades that it would be impossible to drain otherwise.

During the year there were 252 applications referred to this department and each location was personally visited by the City Engineer. The charge to the applicants for this service was two dollars which makes a total of \$504.00, which was turned over to the City Treasurer as receipts of this department.

Lines and Grades

It is customary for the City Engineer to furnish lines and grades to any property owned in the city on accepted streets. Many requests were made during the year which were properly cared for.

These requests are caused generally by the individual wishing to construct retaining walls or driveways or concrete sidewalks to improve their property, which is in itself a benefit to the appearance of the locality. This is a wellworth service to the community.

Sewers

The main sewers that are installed are planned and laid out by this department. Lines and grades are furnished during construction and during the year there were 3.373 miles of main sewer constructed.

For itemized list see schedule under sewer division of Commissioner of Public Works report.

The installation of the sewers in Squantum was continued in contemplation of the completion of the pumping station being constructed by the Metropolitan Sewer Commission. This pumping station was put into operation on September 28, 1932, which made it possible to take care of approximately three miles of sewer that have been installed by the city during the past few years in this section.

New sewers were installed on Bayside Road and Sachem Street, which necessitated the driving of piles for the proper foundation.

A low level sewer around the shore of Squantum was installed from Dorchester Street to Wedgewood Street. It was necessary, at one part, to make a cut through solid rock for a depth of 28 feet.

All sewers were constructed by the Sewer Department of the City of Quincy under the supervision of Walter S. MacKenzie, Superintendent.

The total main sewers now in place in the city is 140.038 miles.

Surface Drains

There were 1.113 miles of surface drainage constructed during the year, varying in sizes from eight to thirty-six inches in diameter. This was very much less than in previous years but owing to the reduction of appropriations furnished by the City Council it was impossible to construct any main drainage.

The major project constructed was the relaying of a 24-inch reinforced concrete pipe on Bates Avenue, from Willard Street, westerly.

Most of these drains were installed on locations that have been causing considerable inconvenience in the past few years.

For an itemized list see schedule attached.

All drains were constructed with concrete pipe by the Sewer Department. There were installed 78 catch basins during the year which makes a total now in place of 3,591.

The work of compiling plans on drains that have been installed in the past was continued and practically 25 per cent of the city is now completed.

This work should be continued in 1933 so that the city may have a permanent record of the location of all drains in place.

Accepted Streets

During 1932 there were 36 streets accepted, making a total length of 4.093 miles. These streets were all accepted under the betterment act and 21 were sub-graded.

Taber Street was abandoned between Intervale Street and Brooks Avenue making it a part of the Lincoln School yard.

As it was difficult to get appropriations for new construction during the year, the work of sub-grading streets was carried on leaving the stone to be placed on these streets at a later date when funds will be available.

These streets were accepted and sub-graded merely to relieve the unemployment situation, as the majority of the money spent on this work was for labor.

All construction was done by the Highway Department under the supervision of the Commissioner of Public Works.

This department prepared plans for acceptances and established grades and lines during the construction.

For itemized list of 1932 streets see schedule attached.

Several streets that were accepted in 1931 were constructed.

Sachem Street and Pilgrim Road were not completed.

For itemized list see schedule attached.

Street Widening

There were six widenings passed by the Council they being for the widening of intersections of streets. There were no major street widenings passed this year.

For itemized list see schedule attached.

Adams Street and School Street widenings that were passed in 1931 were constructed this year and both were remarkable improvements.

Rebuilt Streets

Adams Street—from Common Street to Whitwell Street, which was widened by the City Council in 1931, was the major rebuilding project during the year.

Several streets in various parts of the city were resurfaced by using tar and pea stone.

Granolithic Sidewalks

As there were no appropriations made by the City Council for granolithic sidewalks in 1932, and no balances left over from 1931, this work was discontinued for this year.

Several applications were made for granolithic sidewalks which were laid over until 1933.

Asphalt Sidewalks

A special appropriation to aid the unemployed labor was made to install asphalt sidewalks in various sections of the city. This work was done by the Highway Department and during the year they constructed 13.95 miles of this type of sidewalks.

The demand for this sidewalk is becoming greater each year, due to the fact that there is no betterment against the abutters and although it is not a permanent sidewalk it has improved many locations where the gravel walk was in bad shape.

The majority of these sidewalks were constructed with amebsite for a base course and col-provia for a walking surface.

For itemized list see Amebsite Sidewalk schedule attached.

This department gave lines and grades during construction and measured the amounts that were installed.

Parking Area

The new parking area that was purchased on Granite Street was graded and surfaced.

The area in the rear of Cliveden Street, owned and rented from Mr. Grossman, was resurfaced and the area in the rear of the Kincaide Warehouse, which was acquired by the Chamber of Commerce, was also graded. With this area graded, the parking situation is very well taken care of for the present.

Grade Crossing Elimination

The elimination of grade crossings in Quincy was not carried on as far as was anticipated.

The New York, New Haven and Hartford Railroad was unable to finance their portion of the work, so that this work was stopped after the completion of the Quincy Station grounds and the School Street bridge, leaving the Water Street crossing yet to be eliminated when necessary funds were available.

The work of the new School Street bridge and the construction at the Quincy Station was done by the Tredennick Billings Company of Boston, who held the contract for this work which was started in 1931.

It is hoped that the railroad may be able to finance this project in the near future to relieve the dangerous crossing at Water Street.

Street Numbering

The ordinance governing the numbering of buildings in the city is under the jurisdiction of the City Engineer, and during the year an effort was made to see that numbers were placed on all buildings in the city.

After a survey was made it was found that 2,576 buildings were without numbers, and during the year this department, through a special effort, was able to have the owners place numbers on 83.5 per cent of these buildings.

Changing Duplicate Street Names

The City Council appointed a committee consisting of Councillors William B. Edmonston, chairman, Charles J. Herbert and Laurence J. Curtin, to consider the changing of duplicate street names. This committee held hearings every Friday afternoon during the summer to consider changing of names of 120 streets.

The abutters were invited to these hearings by this department and the City Engineer personally attended each hearing. Their recommendations were presented to the City Council, and orders were drawn for these changes, but owing to the power of changing

unaccepted street names, being in the Board of Survey, they were only able to change 26 accepted streets.

For itemized list of streets whose names were changed, see schedule attached.

The Naming of Squares

Several squares in various parts of the city were named this year after World War Veterans with proper signs placed thereon.

Attached is a list of the squares in the city of Quincy that have been named to date.

I wish at this time to extend my appreciation for the cooperation I have received from His Honor the Mayor, members of the City Council, city officials, and the personnel of this department during the past year.

Respectfully submitted,

WALLACE S. CARSON,
City Engineer.

STREET WIDENINGS BY THE CITY COUNCIL DURING 1932

CHANNING T. FURNALD,

Commissioner of Public Welfare.

ANNUAL REPORT OF THE PARK DEPARTMENT

To the Honorable Mayor, CHARLES A. ROSS.

DEAR SIR:

We have the honor of submitting to you the forty-fourth annual report of the Park Department, which is accompanied by the report of the Supervisor of Playgrounds.

Generally speaking, this has been a very active year in the Park Department, in spite of the fact that the Board was hampered by lack of funds to carry out the goal we set at the close of 1931. However, with the cooperation of our good citizens and the various organizations, we were able to put on a good showing in the many seasonal sports making every effort a real success. We feel that the work has been worth while.

Our constant endeavor has been to save wherever possible—but do not save where you cannot.

Money is being wasted right now trying to save where it cannot be done.

There is no saving in closing a church. It is a great extravagance to close the schools for "two days a week." There is real economy in opening up more libraries and buying and circulating more books. "Burning people out" through idleness is worse than burning up buildings because people are the real wealth, the creators of wealth. Books to keep minds and souls alive, to keep them from turning to dust, are real economy. But everyone can't read and no one can read all the time. Man must be active or he ceases just that much to be man. That's the nature of man. Gardens now are for activity as well as for food. Music helps keep up the rhythm of living. Swimming pools, skating ponds, ball fields, indoor recreation centers, handcraft centers—are not luxuries, unless it is a luxury for the human being to keep active. Keeping men active when there is no work is the first essential in any program of economy. Men without activity—mines without pumps—both are equally wasteful. Even our machines we keep up against the time of using again. Activity is just as essential as food—to keep men fit for the time of working again. But God forbid that we think of men, of ourselves, only as a means of production!

Economize, yes—but there is no economy in reducing religion, education, libraries, recreation, art, at a time when what holds men's souls together should be increased.

Unemployment times are no times in which to give up flowers, gardens, music, bright colors, games, good times, good books, good stories, good comrades, hearty laughter. Five thousand schools in America closed! Libraries dark. The gates of the playgrounds locked. Recreation centers and swimming pools shut up. Back toward the jungles from which mankind has climbed.

You don't save money in hard times by leaving out a pinch of salt from your food. Better a little less food and tasty. Unemployment is no disgrace to the individual—however great the disgrace to the nation as a whole. Relief in such times is a sharing by those who have with those who need. Life and color and music

and drama and the flavor of living, the savor of life, must be shared, too.

Surely we must, in times like these, also share the means of beauty in living, of sport in life, all that is known as art and recreation, or we have started back toward the jungle.

We believe in our City Government and we all must keep that government something to believe in; it is popular to throw stones at government as something abhorrent, swollen.

Government after all is all of us working together for the common good. Government means schools, libraries, playgrounds, swimming pools, recreation centers, hospitals, fire protection—means work of all the people for the good of all the people.

With the many facilities offered our people in Quincy in the form of baseball fields, football gridirons, soccer fields, tennis courts, playgrounds, bathing beaches, picnic grounds, band shell, bowling green, horseshoe pitching courts, skating ponds and hockey rinks, we believe our city has not been unmindful of her duty to the well-being of her young people and citizenry.

We have arranged the report of the various recreation centers in the wards where they are located with the work accomplished on each, and our recommendations to assist each ward councillor to better familiarize himself with their needs.

In closing the Board is ever mindful of Your Honor's difficult task and the many problems confronting you. It is our sincere wish that you will meet these in the best way possible and give the Recreation and Park Department every consideration.

Ward 1—Alfred N. LaBrecque Park

This is one of the most ideal playgrounds in the city, with ample space for all sports. Interest was keen in all activities during the summer and fall. Football and baseball were the leading sports with a two-week volunteer and four-week paid supervision period during the summer by a male instructor.

On May 30 (Memorial Day) this beautiful field was dedicated to Alfred N. LaBrecque, World War Veteran and President of the City Council, who passed to his reward during the past year. Appropriate exercises were held with members of the LaBrecque family, leading citizens taking part, and the veterans represented by Cyril P. Morrisette Post No. 294, American Legion, and the Canadian Legion, of both of which the deceased was a member.

River Street Beach

A popular place during the bathing season, scene of many picnics and penny sales. Beach under care of park workers.

Faxon Field

Lined off for soccer and field hockey for girls.

This field was in constant use this year. All activities of the intramural program of Quincy High School in football, soccer and baseball were played here. All High School Varsity Football practice was held every day during the football season. Flood lights were erected for evening work-outs; several teams in the City League and the Quincy Trojans had scheduled nights. Soccer held sway every Sunday and several championship cup tie games were played.

There is now room for two football fields with the grading and grassing of the north end of the field. Faxon Field is the center

of athletic activity in our city and as the years go on this gift of Henry M. Faxon wins a warm place of appreciation in the hearts of our people.

Faxon Tennis Courts

Five courts under the direction of a paid instructor through the generosity of Henry M. Faxon, who also maintained the upkeep. Tennis championships of Quincy High School and junior and senior open tournaments for the City of Quincy were played off here. The tournament this year, as in years past, was the outstanding feature, the cups were donated by Henry M. Faxon. The play-offs were attended by hundreds of tennis enthusiasts. The fine supervision and method of regulating play for the many who applied for permits has the commendation of the Park Board. The system was copied by the Board and carried out on the tennis courts under the Park Department.

Manet Lake

One of our natural skating ponds, cleaned out weeds and other growth, then flooded. Hockey rink erected and equipped with goal nets.

Rink used by teams in the Amateur Hockey League.

William Cushing Baker Park

This popular combination bathing beach and playground proved to be a popular place for the gathering of young and old. A shelter was erected on the beach to enable the little tots to play in the sand out of the hot sun. Through the courtesy of the Quincy Yacht Club and Commodore Finlay, a raft was loaned to the Park Department for which the swimmers were very grateful.

The life guard at the beach served as a supervisor also, two weeks as volunteer and four weeks paid. Owing to the many small children using this beach a life guard should be in attendance all through the bathing season after school closes in June to September.

This playground could stand about three inches more grading with a good sub-soil free from stones to cover the gravel surface as at present.

Adams Shore Playground

Located in the rear of the school, proved a popular gathering place for the children of this district, supervised by one male instructor two weeks volunteer and four weeks paid.

Tupper's Beach

At the request of citizens in this section the park department took over supervision of this beach, cleaned it up and gave it attention during the summer season. This is the only public beach in this section and used by a large number of citizens. The Board recommends that it come under the care of the department and receive regular attention. The work done last year was much appreciated.

James S. Perkins Park

This field in the Merrymount section proved to fill the required activities of this district being used for baseball and playground

recreation. During the season the field was dedicated to James S. Perkins, principal of the Merrymount School, who has a long and honorable record as a teacher in the Quincy schools. Mr. Perkins and his good wife were present and he spoke at his own dedication. It was conducted by the Merrymount Improvement Association and attended by leading citizens and school leaders of our city.

During the dry months of the summer there were considerable complaints received from abutters to this field on the dust nuisance on windy days. In an attempt to allay this, the Board ordered calcium chloride spread. This gave only temporary relief. We recommend a three-inch spread of loam and grass top as the only sensible solution and the most economical in the long run.

Cranch School

The yard of the Cranch School, a well-shaded spot, has proved a popular place to erect apparatus and conduct supervised play. Recently enclosed by the School Department with a chain link fence, it was a safe place for the large number of children in this district who were regular attendants. One male supervisor in attendance six weeks, two weeks volunteer and four paid. The curtailing of art crafts was greatly felt in this section as the children showed a great deal of interest in this feature.

Ward 2—Fore River Field

With the taking of the Ward 2 playgrounds by the Public Works Department for use as a gravel pit, leaving this section without a play field, the offer of the Bethlehem Shipbuilding Corp. of the Fore River Field was most timely. After considerable agitation on the part of people interested, the Council, with the recommendation of the Park Board, accepted the field under the Park Act, giving this district something back which they had enjoyed in years past.

The Park Board recommends the repair of the club house, the installing of a custodian, tear down the board fence and erect a chain link fence where necessary to protect abutters. Purchase 1,000 portable bleachers which will serve as a two-fold purpose being shifted for the use of baseball and football. Repair and equip the tennis courts and grade the baseball diamond which will give this section one of the finest athletic centers in the city.

North Street Playground

Ideal shaded spot for children to safely play during the summer months. Received weekly attention of park workers.

Quincy Point Bathhouse

Owing to the condition of the bathhouse and the damage caused by a fire, no activity was encouraged by the Board at the bathhouse this year. Because of the terrible condition caused by the heavy trucks to the roadway leading into the beach and the unsightly appearance of the gravel pit, it was felt an expenditure of money on this particular project would be wasted. As matters stand now, it is recommended the bathhouse be torn down and the lumber used by the city in furthering the building of some comfort stations on our various playgrounds.

Avalon Beach

This beach, as in other seasons, proved a popular resort for the citizens of this district. Life guard in attendance who held daily classes in swimming. The swimming carnival, sponsored by the Association of Quincy Point, was held on Sunday, August 28. It proved to be a big success, and upwards of 10,000 people were in attendance. Prizes were awarded in all events. Members of the Park Board acted as judges.

A custodian was in attendance at all times, his duties being to keep the beach clean and take care of the comfort station. The Board was fortunate in procuring the services of a matron who had experience as a nurse. She rendered valuable service in the many cases of first aid.

The life guard was responsible for the saving of several children from drowning, which proved to be a good investment.

This beach is the most used of any beach under park supervision. There should be no curtailment of any of the present advantages now in vogue here. A new water chute to take the place of the present one, which is beyond repair, would be a welcome addition.

Whiton Park

A beauty spot. Shrubs and grass plot under care of park workers.

Pollard School

Combination picnic tables erected. Playground apparatus repaired and replaced. Pathway built with stepping-stones, making it one of the most ideal playgrounds naturally shaded in the city. One instructor in attendance six weeks.

Daniel Webster School

This small playground in the rear of the school has proved a welcome solution to the problems of the people in this district. Well attended during the playground season, which extended two weeks under volunteer supervision and four weeks paid.

Elm Street Playground

Strictly a children's playground, a most popular one, supervised by one male instructor; well shaded, an ideal spot for supervised play. Settees, sand box painted. The Park Board recommend that this playground be dedicated the coming year to some outstanding war veteran or citizen. This is in keeping with our idea that playgrounds are the most appropriate memorials.

Ward 3—Robert Burns Monument

Keep statue clean and cut grass; spotlights here for night lighting.

Bradford Street Playgrounds

One single tennis court in constant use, new nets provided, court marked, unsupervised. A popular gathering place for the young people. One male supervisor provided two weeks volunteer and four weeks paid. Flood lights erected for City League. Teams for night practice. One of the unnamed playgrounds which should

be dedicated this year. New backstops recommended for tennis court.

Henry L. Kincaide Park

Largest attended playground in the city. Two male instructors in attendance six weeks, two volunteer and four paid. Used for baseball, football and other sports in season. Flood lights erected for football practice. Formerly known as the Ward 3 Playgrounds, this field was dedicated to Henry L. Kincaide, Spanish War Veteran, statesman and beloved citizen and resident of the Ward 3 section.

With the cooperation of the John A. Boyd Camp, Spanish War Veterans, one of the most colorful affairs ever held in the city was the culmination of many weeks' planning, a street parade in which veteran organizations from all over New England took part. Dignitaries, national, state and city, attended to pay homage to Henry L. Kincaide and his family. The field was dedicated and consecrated to clean sports.

Ward 4—St. Moritz

The State reservation in the Blue Hills, the winter playground of the South Shore. The Park Board cooperated with the Blue Hills Recreation Club to obtain betterments from the Metropolitan District Commission.

The unseasonable winter of 1931 made it impossible to sponsor winter sports to any great extent, but what opportunity there was found the Park Department ready to furnish toboggans, prepare the slide, erect the hockey rink when the opportunity presented itself.

In this beautiful spot it seems that with the two ponds a bird sanctuary could be encouraged by the Metropolitan District Commission. Various kinds of water fowl put in the ponds, as is now done on the north shore, giving this section the same advantages for our younger children and making St. Moritz worth visiting in the summer months.

John J. O'Rourke Park

Baseball and football were the leading activities on this beautiful grass-covered field. In the spring the infield received its usual attention for good ball playing, equipped with bases, bleachers repaired and painted. Many complaints received from abutters, foul balls damaging their property. The Board recommended that the Council furnish an appropriation to help remedy this, but it was tabled.

One of the most notable dedications ever held in Quincy was this one—John J. O'Rourke, a disabled World War Veteran, former athlete, who before the war was a prominent figure on the field that bears his name. He was present in person, accompanied by his wife and family. The affair was in charge of the Cyril P. Morrisette Post, No. 294, American Legion, who conducted a street parade prior to the dedication after which an official American Legion Drum and Bugle Corps competitive drill was held with Drum Corps entered from all over the state. The Rockland Post received first honors. John J. O'Rourke was presented with a gold watch by his comrades of Morrisette Post.

With the same spirit that carried him through the World War, to his present courage to carry on in his disability, the field was affectionately dedicated.

Playground

The playground season was of six weeks' duration, with one male instructor in charge with the same arrangements of two weeks volunteer and four paid as existed on other playgrounds.

The Board recommends that some relief be planned for the abutters from damage by foul balls.

Shea Park

Proved a popular place for hundreds of children in this section. One male instructor with same arrangements as other playgrounds. Some complaints received by abutters to discontinue this park as playground. Recommend that the park be completely enclosed with a chain link fence.

Ward 5—Merrymount Park

Fifteen acres of natural beauty, making it one of the most beautiful parks in the state, with a pageant field, bathing beach, soccer field, football gridiron, cinder track, baseball fields, tennis courts, picnic grove and band shell.

Third Field

Picnic benches erected in convenient spots. Permits issued for outings every week-end during the summer and early fall. Considerable work as an aid to unemployed was put in on this field the past season. New roadways laid out and resurfaced, beach cleaned up and filled in. Pavilion and refreshment booth moved to section which will be set aside for picnics. Playground apparatus installed, making it an ideal place for Sunday schools and other organizations to hold annual outings. Pageant field ploughed, regraded and seeded. Can be used as a football field and baseball diamond when the grass turf becomes established.

This field was the gathering of the largest crowd in the history of Merrymount at the carnival and bonfire sponsored by the St. Francis Court of Foresters of America on the evening of July 3, when upwards of 50,000 people gathered to celebrate the night before our national holiday. Owing to inclement weather the festivities of July 4 were postponed to July 6, when the duplicate of July 3 crowd were present to witness the display of fireworks. Through the efforts of the Employment Service Bureau, a bridge was built over the Creek between the park and Wollaston, making it possible for people living opposite the park to take a short cut.

Recommend that a charge of \$5.00 be made to all who apply for permits to use the refreshment booth.

Band Shell

After considering the agitation on the part of music lovers, through the cooperation of the Employment Service Bureau, the Mayor, City Council, and the recommendation by the Park Board as an aid to unemployment, the ground was broken for a first-class Acoustic Band Shell, it was completed. A series of band concerts started by Walter Smith and his band in June.

The opening night was a gala affair, with Franko Goldman as guest conductor. Music lovers from near and far in attendance, graced by the attendance of national, state and city dignitaries. William K. Embleton turned over the shell to Mayor Thomas J.

McGrath, who received it in behalf of the city. The ceremonies were broadcast over WEEI.

The series of concerts were put on twice a week up to the middle of August and, while they were always well attended, the proceeds did not cover the expense of the venture. With much regret, they were discontinued by Mr. Smith.

Several concerts were conducted by various bands in the city. The Quincy Patriot Ledger used the Shell to announce the returns of a world's heavyweight boxing match championship.

The Board recommends that next season local bands be encouraged to stage a concert every Sunday evening during the summer season.

Bowling Green

As it requires two years to properly establish a turf on the Bowling Green, this addition to park activities will be ready in the spring of 1933, providing a long-felt want for older citizens to enjoy outdoor sport along with the younger people on this beautiful park.

Recommend a caretaker be appointed to supervise and issue permits for the green.

Second Field

This field was used for baseball, soccer and parking.

The pond, which has been more or less a nuisance and breeding place for mosquitoes, has been filled in. A new baseball field should be laid out to help the over demand of the upper field.

Welfare Department built a new road, sidewalks through the field, which will greatly add to the appearance.

Upper Field

This field was in constant use during the spring and summer for baseball and soccer.

The baseball field was put in excellent condition by having a turtle-back diamond in the infield built and treated with calcium chloride.

The bleachers, backstop and players' benches were painted and repaired.

The dressing room under the bandstand was equipped with hooks and a shower bath installed. New fence built along driveway. Tool house enlarged, equipped with necessary implements to properly carry on the work.

The baseball field was used by the Quincy Amateur Baseball League, South Shore League, amateur, semi-pro teams. Posts erected to keep autos off the playing field. Outfield seeded, fertilized and watered, which made this field a beautiful sight from Hancock Street for people passing through our city.

The crowning feature of the season was the visit of the Boston Braves, National League Baseball Team, who played on all-star city league team in a benefit game for the Sons of Italy and the St. Ann's Building Fund.

With the cooperation of the Quincy High School Athletic Association, who loaned 700 portable bleachers, and the workers in the Park Department who labored against great odds when a heavy shower washed out the work that had taken all day to accomplish, the game was staged before a gathering estimated at 10,000. The play-off games in the City League and South Shore were also played on this field.

Tennis Court

It was in constant use at all times under the supervision of a caretaker. Backstops repaired and new nets provided. Caretaker on duty 14 weeks.

Pfaffmans Oval

A natural spot to view athletic contests. During the summer every effort was made to get the best playing surface possible. With this in mind all activities were restricted and no trespass signs posted. The surface was regraded, seeded, rolled and fertilized. No permits were issued until the football season in the fall. No flood lights erected as in years past the field was reserved for football games only.

Sundays and holidays during the football season the Quincy Amateur Football League sponsored by the Park Board drew an average of 3,500 spectators to each game, the field being roped off with a wire cable on each side and policed for each game.

Field House

A park this size should have a field house equipped with dressing rooms, shower baths, a storage room for park equipment. As this is centrally located, it should have a room for the Board to hold weekly meetings and properly carry on the growing activities of the Department.

Park Roadways

The two roadways leading into the park have been the cause of a real dust nuisance on windy days. Late last summer a new crushed stone surface with penetration of tar was made possible by Welfare Workers under the supervision of the Public Works. It is hoped that the dust nuisance will thus be eliminated.

Pine Island

A bridge to Pine Island will open up this popular picnic grove to the public. At present it can only be reached by boat—the bridge was wrecked four years ago by ice and tide. Would recommend that a pontoon bridge be erected for summer use and pulled ashore during winter months.

The Quincy Boy Scouts derived a great deal of pleasure from this grove, using it as a camp ground during the spring, summer and fall months.

Wollaston School

The playground facilities are available only during the supervised playground season. Playground yard enclosed with chain link fence and resurfaced with amiesite by the School Department, making conditions better for supervised play. One male supervisor furnished over a six weeks' period.

Massachusetts Fields

During the supervised playground season this is one of our most successful centers of activity. The children entered into the spirit of organized play to such an extent that they again carried off honors in the Inter-Playground Track and Field Meet held at Pfaffman's Oval in August. Russell Gray was the instructor in charge and deserves the highest commendation.

During the off season this playground has been one of the problems of the Park Board. Many complaints have been received, among which were vandalism, ungentlemanly conduct, rowdyism, baseball games and football games. The Board were forced to stop playing baseball and football as this is strictly a children's playground.

The Police Department had to be notified to help regulate the conduct of the boys on the complaint of abutters.

Butler's Pond

Butler's Pond, flood lights erected, ice cleared of snow and flooded when necessary for good skating. Many complaints received from abutters who claim refuse and rubbish are being thrown into the pond, causing a foul odor to arise.

Recommend the pond be cleaned out and signs posted, "No Dumping Allowed."

Safford Park

Considered the most striking of the small parks, well shaded, laid out with shrubs and flower beds, well cared for by the park workers. Suggest that permanent cement settees be placed here so that the people in this section can enjoy its beauty.

Ward 6—Montclair Playground

No work of a permanent nature was attempted on this field still in process of construction. At this writing the brook has been covered. With the coming of spring work should be started with a view to completing this long delayed project. Shelter built over sand box. Horseshoe pitching for young and old popular feature. Propose to build a regulation horseshoe pitching court this year. One supervisor in attendance during season. Excellent results. Should be dedicated and named after some veteran or leading citizen.

Welcome G. Young Park

Formerly known as the Ward 6 playground. This is an excellent plot of land and was much used. Owing to numerous complaints, ball playing was restricted to smaller boys. This playground had two instructors and ranked with the highest in attendance. Flood lights installed for football practice. Used by North High School for football work-outs.

Tennis courts under supervision from July to October and were in constant use by the tennis players in the north end of the city.

On Sunday, May 29, this plot was dedicated to Welcome G. Young, former councillor from Ward 6, who was a lover of children. During his lifetime he was a mover in Christmas parties, and celebrations on July 4 for the young people. An appropriate program with people of the district, members of the Young family, former colleagues in the City Council, city officials, friends and neighbors, the playground, on which he spent many happy hours, was dedicated to Welcome G. Young, lover of mankind and the children of Ward 6.

Norfolk Downs Sand Pit

Discontinued as a playground, apparatus moved to Dennis J. O'Neil Park. Shelter moved to Baker Playground at Germantown.

Dennis J. O'Neil Park

In constant use as a baseball field used by the North High School, city baseball league and independent teams in the Ward 6 section. Many complaints received as a dust nuisance, calcium chloride gave temporary relief. No permits issued for football. Three inches of sifted loam should be spread in spring, grass seed sown to eliminate dust and make a football gridiron for use of North High School in fall.

Playground apparatus moved from sand pit to section shaded by trees making an ideal place for children to play. Six weeks' program of supervised play in charge of one male instructor. Good attendance and many activities encouraged.

Recommend that a fence be built to protect abutters' property near this section.

John Wendall Moses Playground

Squantum, popular playground of the district, baseball, football and tennis leading sports. Field used by playground teams, home field of Squantum A. C. in both baseball and football. Flood lights provided for football practice. Infield put in condition in spring and maintained through season. Playground apparatus moved from range of playing field.

Outfield should be graded up to the level of infield, which will make it one of the fastest fields in district. Move field marker at present in right field over to road near the school. Refreshment stand built and land graded near the third-base bleachers. Leech drains installed near backstop.

Playground season under supervision of one male instructor. Was very successful.

Tennis Courts

Considerable work accomplished on this court. Playing surface of stone dust laid and rolled. Two new tennis nets, tapes, roller and hose furnished. Caretaker in charge during season who regulated play and issued permits.

As briefly as possible the Board has stated the needs and accomplishments of the parks in the various wards. It is our sincere desire that some of the recommendations be worked into the program for the coming year.

Daily Program for Playgrounds

NINE O'CLOCK

Flag raising. Arrange swings and see-saws.

NINE-FIFTEEN TO TWELVE O'CLOCK

Playground games for smaller children.

NINE-THIRTY

Baseball for large boys (league). Indoor baseball for small boys. Folk dancing and playground games for girls.

ONE O'CLOCK

Modeling in sand, bean bag, ring toss for small children. Quoits, croquet for larger boys. Croquet, weaving for girls.

ONE-THIRTY

Baseball, indoor baseball, volley ball, slug ball (league for girls), weaving for girls. Calisthenics daily when a large number of children are on the playground, tennis.

THREE-THIRTY

Playground games for boys and girls. Safety campaign instructions.

Pledge of Allegiance

Take down flag at sunset.

Recreation

The last year has been one of unusual interest and activity in our recreation and playground development. The playground movement, originally limited to the providing of play space for children, is steadily broadening and is gradually solving the problems of organizing and influencing the recreation for adults as well as children.

The Park Board have tried to follow out the following program: To help individuals to learn games and obtain such skill in athletics as shall make such activities a lasting pleasure.

To provide occasions when all interested in the neighborhood can come together to share in neighborhood games and athletics.

To make sure that suitable buildings and grounds are available for games, athletics, for winter as well as summer sports.

To help churches, lodges, the American Legion and other groups in using games and athletics to give their own members greater advantages and make their own meetings more attractive.

To give to children the opportunity for education which comes through their play and games.

Through play and games to make adults more effective in their work.

Through the joyous activity of games to quicken the whole life of boys and girls so that they will do better work in schools.

To maintain the minimum standard of efficiency and physical adaptability essential to good citizenship and service to the community.

To secure such a knowledge of games on the part of all and such general participation that neighbors may have many ways to become acquainted with one another.

To give through games and athletics an outlet for energy which might otherwise be spent in doing harm to the neighborhood.

Through games and athletics to make the neighborhood a better place for all—to build up a community morale.

Through games to develop the habits of team play and loyalty and make better citizens.

SPORTS

Baseball

No city in the Commonwealth of Massachusetts outside of the city of Boston has better facilities for the playing of baseball than the city of Quincy, with eight first-class regulation baseball fields, all of them under constant care of department workers, lined off, before games and furnished with bases, home plates and pitchers' rubbers. Every ward in the city has its own field and representative teams. Eight hundred thirty-six permits were issued by the Board during the season besides the blanket permits given to the Junior High schools and the Playground Leagues.

Five infields were kept up to conform to big league regulations.

Owing to lack of funds the Board were unable to sponsor a baseball league this year. The Quincy Patriot Ledger, however, took over the league started by the Park Board last year with the co-operation of the members who served on the Board of Directors. A very successful season was enjoyed with play-off at the end of the season which was won by the Wollaston entry.

The Quincy Evening News sponsored the South Shore League, Chairman of the Park Board served on the Governing Board. A fast brand of baseball was played which gave thousands on the South Shore much pleasure. The Granite Trust entry won the trophy and were tendered a Victory Banquet by their associates.

All playgrounds were represented by senior and junior teams and were furnished with proper equipment. Owing to the short season, no league was organized. Inter-playground games were played with competition keen.

Football

This great American game of the rugged youth was encouraged in every way possible by the Board. Flood lights for night practice were erected on seven playfields, six gridirons laid out and goal posts erected.

A six team Senior League and a seven team Junior League were organized. the Senior League having the exclusive use of Pfaffman's Oval, and LaBrecque Park with the Juniors playing on the John J. O'Rourke and Henry L. Kincaide and playing several games at Pfaffman's Oval prior to the Senior contests.

This season was beyond all doubt the most successful since the Board sponsored this movement. Added attractions between the halves were furnished by Quincy Post No. 95 Drum Corps, Morrisette Post No. 294 Drum Corps, George F. Bryant, V. F. W. Fife, Bugle and Drum Corps, Taleb Grotto Patrol, St. Francis Court, Foresters of America, Old Dorchester Post No. 61 Drum Corps, Stella Del Norde Drill Team, and amplified music furnished by a local concern.

Hon. Richard B. Wigglesworth was the donor of the Senior League Trophy, which was won by the Manet A. C. of South Quincy in a play-off game with the Blessed Sacrament Lyceum team of Houghs Neck, both teams being tied in the standing at the close of the season. Junior League trophy was furnished by the Park Board.

Football Get-Together

On December 19, at the Quincy Arena, the Board sponsored a Sports' Night at which 2,000 fans and players of the football leagues gathered to witness the presentation of the trophies to the

Manet A. C. of the Senior League and Atlantic A. C. Juniors winners and West Quincy Maroons, runners-up in the Junior League.

A program of entertainment, music, boxing and wrestling was enjoyed.

Soccer

Quincy is very much in the limelight in soccer circles, having several teams of high-class calibre representing the city in leagues in Greater Boston.

Faxon, Merrymount Upper and Lower fields were laid out for soccer and were in constant use. The Clan McGregor team staged a cup tie game at Faxon Field which was attended by upwards of 3,000 people. The field was roped off for this game at the request of the management.

The Board recommends that this field be roped off with a steel cable similar to the one used at Pfaffman's Oval. We feel it is absolutely necessary to properly conduct the games.

Swimming

One of the most enjoyable and healthful recreations for all is bathing as conducted at our bathing beaches at Tupper's Beach, Merrymount Park Beach, William Cushing Baker Park and Avalon Beach. Everything possible to insure safety to beginners with an experienced male instructor, who is assisted by those more advanced acting as life guards. Swimming answers a two-fold purpose. Of the hygienic value little need be said, and as a protection every man, woman and child should be able to swim.

Hockey

Unbounded enthusiasm greeted the Board at the start of the winter season. A nine team Senior League and a fourteen team Junior League was formed. All got away to a flying start with accommodations furnished at Comin's Rink, St. Moritz, Sailors' Home and Manet Lake. Several games were played, but a long spell of mild weather broke up the schedules and made it impossible for the Park Department to furnish rinks for the games to be played.

Arrangements were made for teams who wished to stay in the Senior League to play at the Boston Arena. A modified schedule arranged and in the play-offs the Wollaston A. A. won the championship and the Kay Jewelry Trophy.

Winter Sports

When weather permitted winter sports were encouraged. Toboggans furnished at St. Moritz and the slides maintained. The unseasonable weather caused the Blue Hills Recreation Club to call off their winter carnival for the first time since their organization several years ago.

The Board must admit that this activity was not a success this year, but were prepared with every facility to give service had the opportunity presented itself.

Band Concerts

This popular feature of the park's program was carried out with great success. In cooperation with the Mayor, City Council,

Quincy Service Bureau, the Walter Smith Concerts were conducted at the new Acoustic Band Shell.

The Park Board worked to assist in every way possible to make the venture a paying one. While large gatherings were present at each concert the expense of conducting the band was so great that Mr. Smith was forced to discontinue before the series of 24 concerts were completed. Several concerts were given by local bands, Wollaston Post 295 American Legion, Quincy National Band and Rossini's Boys' Band.

The Ward Band Concerts were not provided for in the budget this year, but we hope this will not prevail this coming year as many people will look forward to this musical treat each year in their home district.

Tennis

Quincy is, indeed, fortunate in having tennis courts located at Faxon Field, Atlantic, Bradford Street, Merrymount Park and Squantum. There are demands from Houghs Neck, South Quincy and West Quincy for courts. While we realize this is an expensive proposition, these demands should be considered at once.

Tennis championships were held at the Faxon Courts. The High School and city teams, open for male and female, were run off for cups donated by Henry M. Faxon. Tennis tournaments were held at the Squantum courts as part of the Supervised Playground program.

Track and Field

The second track and field meet sponsored by the Park Board was held at Pfaffman's Oval, Sunday, August 14, and was attended by a crowd estimated at 4,000.

Officials from the N. E. A. A. U. handled the meet, which was run off in an efficient manner. Prizes were donated by local merchants, citizens, city and state officials. Wollaston U. C. T. Band furnished music during the afternoon.

The team from the Massachusetts Fields' Playground won the meet and were awarded the Morrisette Post 294 Trophy.

Horse Shoe Pitching

Interest in this popular sport was encouraged on all playgrounds, each being equipped with sets. The Board cooperated with the St. Moritz Horse Shoe Pitching Club, which sponsored a championship meet. The National Horse Shoe Pitching champion was an honored guest. He gave an interesting exhibition.

Portable bleachers were furnished through the courtesy of the High School Athletic Association. The Board recommends several horse shoe pitching courts at Merrymount, where inter-city tournaments may be held.

Archery

This is a sport that is fast gaining in favor. Several permits were issued for the use of the second field at Merrymount. With the filling in of a piece of low land near the second field this makes an ideal range, giving a natural bank in the rear of the targets.

The Quincy Chamber of Commerce are very much interested in this project and through their secretary have promised cooperation. The Board recommends that this section be set aside as a range and this feature be added to park activities.

To Veteran Organizations

Recognition must be here made of the splendid cooperation rendered the Board by veteran organizations in this city. Their assistance in furnishing the color to the football contests and naming the playgrounds as recommended in last year's report.

Through their efforts Alfred N. LaBrecque and John J. O'Rourke, World War Veterans, and Henry L. Kincaide, Spanish War Veteran, were honored. Quincy Post 95 furnished the bugler for raising the colors at the Welcome G. Young ceremonies.

For the coming year there are the Elm Street, Montclair and Bradford Street Playgrounds which should be suitably named and dedicated.

The Park Board sincerely hope that the veterans of the city will continue the interest displayed in the past, in the future, helping in every way possible that young America may see the light of good citizenship and love of country that your comrades gave their lives to uphold.

Use of Unemployed "Labor"

In planning for the use of the unemployed in recreation systems, cities have thought immediately of the use of unemployed labor in the extension and improvement of areas, facilities and buildings. Unskilled labor has been successfully used in improving old areas and in grading and improving new ones. To develop the greatest opportunities for use of labor of this type it is essential that imagination and aggressive promotion effort be brought into play so that new areas can be secured through bond issues and appropriations, through donations of individuals, through setting aside of areas by real estate sub-dividers, through the leasing or free use of vacant areas for sufficiently long periods to justify improvement.

Oftentimes much can be done through securing contribution of materials for the erection of such small buildings as shelter houses. Park and recreation departments have found it possible to secure special appropriations for the purchase of tools and materials necessary to the effective use of unemployed labor, these additional funds to be restricted to such purposes. Among some of the types of improvements made through the use of this special labor are:

Resurfacing of tennis grounds, playgrounds, etc.	Grading
Construction of new tennis courts	Cinder paths
Construction in park areas of special facilities for such games as roque, croquet, bowling on the green	Stone walls
Construction of new and improvement of old golf courses	Earth and other filling
Building, wading and swimming pools	Concrete curbs
Trees felled and brush removed, replanting	Concrete walks
Concrete water fountains	Dirt roads
Bridle paths	Pipe fences
	Gutters, drains and ditches
	Rustic bridges
	Culverts
	Earth paths
	Concrete fence posts
	Concrete benches
	Brick sewers

Use of "White Collar" Unemployed

Cities generally have found that additional supervisory workers are required if this special labor is to be effectively used. They have secured such supervisors through the assignment of "white collar" workers by unemployment committees to park and recreation departments, for such service as foremen.

The use of "white collar" workers is in most cities an important problem of the emergency employment committees. Some cities have been able to secure effective supplementary leadership and supervisory service through the use of individuals secured through emergency employment committees. These workers have been carefully selected for their previous experience and natural ability for use in evening recreation centers for adults; for manning playgrounds and other outdoor areas where such areas would be otherwise closed because the regular budget for leadership covers only a short season. They can serve effectively also as activities' specialists, where they have been selected because of their professional or technical training and experience, or because of special ability arising from their own personal hobbies. They can be used effectively with arts and crafts groups, and for the conduct of music, drama and physical activities. In addition to being used successfully in existing centers and on existing grounds, they can be used in special centers opened to meet the special emergency needs of the unemployed.

In the use of unemployed individuals in these ways, it is essential, of course, that provision be made for special intensive training and that reasonably adequate supervision can be provided by the department through its executive or his staff.

Recommendations

Field house and locker rooms Merrymount Park. Provide comfort stations where necessary. Fill in space on Black's Creek side of Pfaffman's Oval.

Charge small playing fees for use of Bowling Green. Complete Montclair and Dennis J. O'Neill Playgrounds. Build baseball diamond on second field, Merrymount. Close Mound Street Bath House. Encourage all-year-round activities on all playgrounds.

Appoint constable watchman for Band Shell during summer months. Caretakers for Bowling Green, Fore River club house, Avalon Beach comfort station, Merrymount dressing room, Squantum tennis club house.

Purchase one-half ton truck for general use of Park Department. Steel cable to rope off Faxon Field and the Alfred N. LaBrecque Park for soccer and football.

Purchase 1,000 portable bleachers for Fore River Field.

Purchase 2,000 portable bleachers for Pfaffman's Oval.

Purchase 6 blade lawn mower for use on bowling green.

Erect comfort stations at Pfaffman's Oval and Merrymount Lower Field.

Trade in present power lawn mower for a later type which the operator can operate by riding instead of walking as at present.

Build new backstops, furnish nets and regrade tennis courts at Fore River Field.

Repair Fore River club house, furnish living quarters for a resident custodian.

Grade James S. Perkins Playground Merrymount, 3 inches loam and sow grass seed.

Permits

During the year the following number of permits were issued for the various activities, viz.:

Hockey	40	Picnics	40
Baseball	836	Boy Scout outings	6
Soccer	52	Girl Scout outings	5
Football	84	Exhibition drills	6
Band concerts.....	30	Concessions	18

Expenditures

The expenditures of this department may be found in the Auditor's Report.

Equipment

During the past year considerable new equipment was added to assist the workers to save time on our growing activities.

Four new lawn mowers were purchased, four more will be needed to replace the old ones now in use. The power mower is used on the large fields and the hand machines on the small parks. The one-ton truck should be good for another year, but a new one-half truck will be necessary to replace the one now in use which has been in use four years.

Vandalism

As in years past the havoc wrought by vandalism has been one of our major expenses in the spring clean-ups. Locks broken, doors kicked in, windows broken, plumbing wrecked and torn out, wire ripped off backstops, flag halyards cut, making this a needless expenditure of money that could be used for further activities. It is hoped that in time the public can be educated to realize that to destroy city property is a move against their own pocketbooks. With all this going on it seems impossible to catch the culprits and bring them to justice.

Conclusion

The magnificent spirit of cooperation evinced by His Honor the Mayor, the City Council, the press of the city, our stenographer, the American Legion Posts, Spanish War Veterans, Veterans of Foreign Wars, Canadian Legion, Wollaston U. C. T. A., Taleb Grotto Patrol, St. Francis Court, Stella Del Norde, Police and Fire Departments, City Engineers' Department, Supervisor of Playgrounds, Playground Instructors, members of all leagues sponsored by the Board, Park Department workers, citizens who by their generous contributions to our track and field meet and playground pageants, officials of the N. E. A. A. U., referees and umpires in all leagues, and anyone who by act or deed has made our task of 1932 a pleasure. It is fitting that we should here record our appreciation and gratitude.

We are proud of our city, our citizenry, our parks and earnestly wish that this, the 44th Annual Report, shall mark another milestone in the upward path.

The Quincy Park Board,

WILLIAM M. TRUSSELLE, *Chairman*.

DIRECTORY AND LIBRARY HOURS

MAIN LIBRARY, 40 Washington St. Tel. Pres. 0081.

Open 9 A. M. to 9 P. M. daily except Sunday.

Open Sundays (for reading only) October to May, 2-6 P. M.

BOYS AND GIRLS' HOUSE, 25 Spear St.

Open daily except Saturday and during vacation, 1.30-6 P. M.

Open Saturdays and daily during vacation, 10-12 A. M., 1.30-6 P. M.

BRANCHES:

ATLANTIC, 137 Sagamore Street, Atlantic

Open every afternoon, 1-6 P. M.

Tuesday, Thursday and Saturday evenings, 7-9 P. M.

BAXTER, 139 Water Street, South Quincy

Open Monday, Wednesday and Friday, 1-6, 7-9 P. M.

GENERAL PALMER, 516 Sea Street, Adams Shore

Open Tuesday, Thursday and Saturday, 1-6, 7-9 P. M.

LAKIN SQUARE BRANCH, 642 Adams Street

Open Tuesday, Thursday and Saturday, 1-6 P. M.

Open Tuesday and Saturday 7-9 P. M.

MANET, Atherton Hough School, Houghs Neck

Open Monday, Wednesday and Friday, 1-6 P. M.

Open Monday and Friday 7-9 P. M.

MERRYMOUNT, Merrymount School, Agawam Road

Open Monday, Wednesday and Friday 1.30-6 P. M.

Open Monday and Friday 7-9 P. M.

MONTCLAIR, 91 Holbrook Road, Montclair

Open Monday, Wednesday and Friday, 1-6 P. M.

Open Monday and Friday 7-9 P. M.

NORFOLK DOWNS, 6-8 Tyler Street, Norfolk Downs

Open every afternoon, 1-6 P. M.

Open Monday, Wednesday and Friday 7-9 P. M.

PARKWAY BRANCH, 1248 Furnace Brook Parkway, W. Quincy

Open every afternoon, 1-6 P. M.

Open Tuesday, Thursday and Saturday 7-9 P. M.

SQUANTUM BRANCH, Squantum School, Huckins Avenue

Open Tuesday, Thursday and Saturday, 1-6 P. M.

TEMPLE, 516 Washington Street, Quincy Point

Open every afternoon, 1-6 P. M.

Open Monday and Friday 7-9 P. M.

WOLLASTON, 41 Beale Street, Wollaston

Open daily except Saturday 1-6, 7-9 P. M.

Open Saturday 9-12 A. M., 1-6, 7-9 P. M.

HOSPITAL SERVICE, Quincy City Hospital.

Monday, Wednesday and Friday 2-5 P. M.

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The sixty-second annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

On account of the present economic depression, there has been a greatly increased use of the facilities of the Library in all its departments and branches. For the year 1932 there was a circulation of over seven-eighths of a million books, there was a per capita circulation of twelve, which is much higher than for any previous year in the history of the Library, and there was a drop in the unit cost per volume circulated from ten to eight and one-half cents.

An analysis of the running expenses of the Library shows the cost of operation to be very low in comparison with libraries of other cities in Massachusetts.

There has been no change in any of the twelve branches but during the early part of the year the so-called Dana property immediately adjacent to the main Library was purchased and the building thereon made over into a Boys' and Girls' House for the use of the Children's Department. With the necessary alterations made and equipment supplied this property is now meeting satisfactorily the needs of that Department.

To commemorate the bi-centennial anniversary of the birth of Washington, an elm tree given by the Quincy Women's Club was planted on the lawn of the main library on Arbor Day with ceremonies appropriate to the occasion. During the year the Library received as a gift from Mrs. Albert Crane of Rock Acre, Stamford, Connecticut, oil portraits of Thomas Crane and of Mr. and Mrs. Albert Crane, all being the work of the artist Paul Phillips. Mrs. Crane at the same time presented a beautifully printed and bound copy of the Crane-Starkey genealogy. Acknowledgment is recorded herewith of a valuable set of American Book Prices Current, the gift of Mr. Fred B. Rice.

The Trustees again take this opportunity to set forth the continued efficiency, loyalty and zeal of the Librarian and members of the staff. They also take this occasion to thank the Mayor and City Council for their valued support and cooperation.

Respectfully submitted,

GEORGE E. ADAMS,

Chairman.

GEORGIANA CUSHING LANE,

Secretary.

REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

The report of the Librarian for the year 1932 is herewith submitted.

It is unfortunately true that whenever there is a decrease in private business and a falling off of orders for goods, there is invariably an increase in the needs and requests for governmental services. It is not only in demands for public welfare aid that this can be noticed. Unemployment breeds crime and it becomes impossible to cut down on police protection. Lack of opportunity for employment keeps many children in school beyond the normal age of leaving and as a result, the schools are overcrowded. The effect of unemployment on the public library is equally marked. One very noticeable feature is the unusual demand upon reading room facilities especially in the winter months. Perhaps some of this may be mere killing of time but those of us who have come in contact with the people who frequent our libraries doubt this. A good deal of it is unquestionably quiet, earnest study. Even when it is not, in what better or more stimulating surroundings than those afforded by the public library can one find some measure of distraction from the discouragements and spiritual depression resulting from unemployment. During the war there was much talk of "keeping up the morale." Perhaps it is even more necessary in the present economic low tide than during the war when we were to an extent buoyed up by a sort of nervous excitement. And the part of the public library in helping to keep up the morale is not slight if we can believe the evidence of crowded reading rooms and the statistics of increased use of all library facilities.

Use of the Library

What are some of the statistics for the use of our own library for the year 1932? Our file of borrowers' cards shows that at the end of the year the Thomas Crane Public Library had 26,610 borrowers registered, representing over one-third of the total population of the city of Quincy. These borrowers took out for home use a total of 877,525 volumes, this number being a gain of over 135,000 or 18 per cent over the figures for 1931, a gain of 50 per cent over the figures for 1929, and, I hope I may be pardoned for mentioning, a gain of 102 per cent since 1926, the year I became your librarian. The circulation per capita increased from 10 to 12.2 and the circulation per borrower from 30 to 33. A favorite method of attempting to visualize 877,525 books is to state that if laid end to end they would make a path extending for 110 miles. Also, if the circulation of books for one average day were piled one book on another, it would make a pile extending a half mile into the air. Our reading rooms have been crowded many times in excess of seating capacity and our reference and readers' aid services have never been in such demand.

Costs of Quincy Library Service

It may be worth while to include in this report some data as to the costs of Quincy's library service as compared with the costs of similar service in other cities of Massachusetts. Leaving out Boston which, of course, is in a class by itself, there were nine cities in Massachusetts whose libraries in 1931 circulated more than 500,000 books. Miss Callahan, first assistant, recently compiled

statistics for these libraries for that year. The tabulated result showed that in circulation the Quincy library was in fourth place, being exceeded by Springfield, Worcester and Newton; that with one exception, Fall River, the Quincy library had the smallest total income; that it spent the lowest percentage of that income for salaries and services and the highest percentage of that income for books and periodicals; that Quincy stood fourth in library maintenance per capita (\$1.03 as against \$2.05 for Springfield, \$1.56 for Worcester and \$1.35 for Newton); that it had the lowest cost per volume circulated, \$.10 (the average is \$.13) of all nine cities; that it stood third in per capita circulation and that it had with the sole exception of Fall River, the smallest number of library employees.

Figures are not yet available for 1932 comparisons but we do know that our library circulation has exceeded that of Newton library by over 36,000 volumes and is undoubtedly in third place. next to Springfield and Worcester, both double the population of Quincy; that the percentage for salaries and for books and periodicals and for maintenance per capita are all practically the same as for 1931; that the maintenance cost per volume circulated has dropped from \$.10 to \$.08½, the circulation per capita increased to 12 and that we are still in eighth place for number of library employees.

I cannot but feel that the Thomas Crane Public Library is outstanding in this group of libraries as an example of low cost of service and economical administration.

Book Additions

During the past year 11,159 books were added to the library by purchase, gift and the binding of magazines, while 4,153 were withdrawn, the net gain being 7,006. The volumes in the library now number 98,925. Of the books added 42 per cent were new titles, and 58 per cent duplicates and replacements of volumes worn out and discarded. Of the books withdrawn less than 10 per cent were lost, the others being worn out or obsolescent. A considerable part of our book appropriations went to duplicating much of the non-fiction on the high school reading lists and to the purchase of new books on business and technical books relating to trades and industry, books that found immediate use.

Branches

No changes were made in the location of branches during the past year. The circulation of books through the branches represented over 60 per cent of the total books loaned. The Baxter, the General Palmer and the Atlantic branches all had gains of over 30 per cent above the figures for 1931. The Wollaston branch for the first time issued over 100,000 volumes, and while the percentage gain was not so large as some of the other branches, the total volume of books speaks for the amount of work handled by Miss Saville with a minimum of part time assistance. Many town libraries with full time staffs of from three to six persons circulated fewer books during the year. Through the purchase of encyclopedias and other reference books during the last few years, the branches have been able to do more in the way of reference work than heretofore, and this seems to have been appreciated by patrons.

Children's Work

One of the most noteworthy features of the whole year's work was the moving of the children's department of the main library from the basement room occupied since 1908 to the house at 25 Spear Street adjoining the library property. This house was purchased by the Trustees of the Thomas Crane Public Library from Mrs. Abbie G. Dana in April. Within two months the necessary alterations and renovations had been accomplished and on June 15th the moving was completed and the Boys' and Girls' House, as it is now called, was opened to the children. It has been greatly enjoyed by the boys and girls, it has been visited by many adults and has attracted the attention of many librarians who have made special trips to visit it. Needless to say Miss Kingman and Miss Hodgkinson have been very happy in the accomplishment of what had long been a dream and have found in the new quarters an opportunity to do much more personal work with the children. The mere fact that no longer are the children of all ages obliged to mingle in one big room and that now there is a division between the older and the younger children helps to accomplish this end.

Through the generous offer of the Quincy Federation of Women's Clubs story hours conducted by members of these clubs have been held in the Boys' and Girls' House on Saturday mornings during the fall. We are deeply grateful for this evidence of interest and cooperation. The one thing needful which we have been obliged to forego from lack of funds is to adequately equip the room especially reserved for the purpose to be used as an exhibit room for the Alice L. Campbell collection of dolls presented to the library last year by the Hon. Chester I. Campbell, whose recent death means a great loss not only to our city but to the Commonwealth.

The circulation of books for children both at the Boys' and Girls' House and at the branches showed a satisfactory gain, though the increase was not in proportion to the unusual increased use of our adult departments.

Work With Schools

As heretofore, the library has cooperated with the public school department in various ways. One hundred and thirty-two classroom libraries of from 40-50 books have been furnished to the elementary schools of Quincy from the third to the seventh grades, and we have also loaned books to the junior high school libraries to supplement their own collections. We have purchased duplicates for the main library and branches of many of the books on the outside reading lists of the English departments of the senior and junior high schools and have reserved books for special projects and assignments. We have added considerably to our stock of educational books and have also borrowed duplicates for use by teachers in their special study courses. Miss Kingman and Miss Hodgkinson have frequently visited the schools and discussed the use of the classroom libraries with the teachers and I have had several conferences with teachers in the senior high school as to ways of mutual helpfulness.

Staff

In the resignation of Miss Helen Egan, librarian of the Manet Branch, we lost one of our most popular and most efficient assistants. Miss Egan left us last summer to enter Mount St. Mary's Convent at Newburgh, N. Y., where she is now training for a teaching vocation. The position at Manet was filled by the transfer

of Miss Carolyn Kittredge from the General Palmer Branch. Miss Dorothy Henrikson and Miss Mabel Coriati were new staff members added during the year, the latter taking Miss Kittredge's place at the Palmer Branch. Staff meetings have been held each month as usual except during the summer. Miss Aline Blake, Miss Margaret Hebert and Miss Helene Hodgkinson took, at their own expense, the library course in the summer school of Columbia University. The library has greatly benefited in many ways as a direct result of this special training under inspiring teachers. Proof of the capacity and willingness of the members of our staff to assume increased work and responsibility may be indicated by the fact that while the branches have increased from nine to twelve and the circulation of books more than doubled during the seven years of my tenure as librarian, the number of assistants has increased less than fifty per cent.

Other Items

The hospital library service at the Quincy City Hospital has been continued on the same schedule as in 1931, three afternoons of ward service each week. As to its value, in addition to many spoken expressions of praise from patients, several persons have even taken the trouble to write the librarian of their appreciation of the work and especially commending the personal service of Mrs. Connolly, our hospital librarian.

A beginning has been made by Mrs. Wilford, assisted by Miss Blake, on an index to local newspaper articles. The value of such an index in providing ready accessibility to the source material for local history to be found in newspapers can hardly be overestimated. It has been possible so far to only keep up with current issues, but we hope later to be able to go back through the files of our bound volumes of newspapers. In addition, Mrs. Wilford has started a clipping file of the more important articles.

It is planned early in 1933 to move the books on art, business and technical subjects to the room in the basement vacated by the removal of the children's department to the Boys' and Girls' House. This move will be a start toward a more efficient reference service to citizens interested in these subjects and it will also give relief to the overcrowded main stacks.

Altogether our library has had a very busy year, and we are confident, has been of increased usefulness to more quincy people than ever before. If this is so, it is in very large measure due to the loyal, interested and effective work of the members of the staff. To them and to the Board of Trustees for continued confidence, support and guidance I am deeply grateful.

Respectfully submitted,

GALEN W. HILL, *Librarian.*

Jan. 31, 1933.

Statistical Summary

Population served, 71,965 (1930 census).

Free for lending and reference.

Total number of agencies, consisting of:

Central Library

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

The School Committee of Quincy presents its report for the year 1932.

The Committee held twenty-three meetings as well as numerous conferences during the year and have also, through sub-committees, inspected each of our buildings at least once during the year.

The Committee is glad to be able to report that as a whole the school children of our City are well cared for now in regard to accommodations with the exception that the two high school buildings are both overcrowded.

The condition at the Senior High School will continue to improve if the proper addition is made to the North Quincy High School, as it is the intention of your Committee to extend the activities of the North Quincy High School so that all the pupils in the north end of the City will be well taken care of in that building.

The new wing of the North Quincy High School was recommended by your Committee about a year ago but the tentative plans which were presented to the Committee on January 12, 1932, were held up owing to the financial condition of the City. We now feel that the need is imperative to go ahead with this work and plans have been approved and the City Council requested to appropriate money for the building.

The situation in this school is that we now have 1,835 pupils where the school was designed for 1,450, with an entering class coming in September, 1933, the size of which is estimated to be between 400 and 500 pupils.

The addition to the Quincy School was completed during the year and readjustments made of pupils in the Francis W. Parker and Massachusetts Fields Schools, which relieved the situation in these districts.

Various school grounds have been improved by ameisiting and in some instances we have, through the cooperation of the Welfare Department, improved the grounds by grading, seeding and putting in some shrubbery.

There are at present about twenty-seven unoccupied rooms in various sections of the City. This condition, to a great extent, is due to a shift in population. We feel that we shall not have to ask for additions to the grade schools, with possibly one exception, for some little time to come.

Your Committee is gratified to be able to report that of the thirty-nine cities in Massachusetts, Quincy has absolutely the lowest cost per pupil of any City and this has been attained we feel without impairing the efficiency of the system. It is well to note in this connection that the cost of our schools is really considerably lower than shown on the report for the reason that the School Department turned back to the City Treasurer the sum of \$150,285.14 from revenue derived from state-aided schools, renting of halls, etc.

We also wish to make mention of the fact that the School Department employees contributed from their salaries two weeks' pay to the Welfare Department of our City. This sum amounted to \$51,836.26.

In the interest of more economical administration of schools the sessions of the evening schools have been changed from three per week to two per week.

During the year it became more difficult to give satisfactory "no-school" signals through the Electric Light Company, and we are now using the radio with fairly satisfactory results.

Your Committee has this year tried an experiment of engaging a corps of student teachers who serve as assistants without pay, thus giving them an opportunity to observe and to be trained in our system, and from these student teachers we are taking as far as possible, the substitute teachers. We believe this system will work out to the great advantage of the City.

It is a pleasure to report that we have an excellent corps of teachers in our schools who are performing excellent work, and Quincy graduates stand as high certainly as any and above a great many communities.

In the belief that the health of the children is of equal importance to their mental development, we have continued Professor Frederick Rand Rogers of Boston University in his advisory capacity and hope to make further developments on that line.

During the year we have lost through death Mrs. Helen M. West who served continuously at the John Hancock School from her appointment in January, 1890, until 1932, a long and honorable service. We also lost Miss Florence M. Brown, teacher at the Wollaston School, who had been with us only about a year. Among the custodians, Mr. John J. Barry of the Gridley Bryant School was killed by accident after several years of service.

The School Committee has received throughout the year the finest cooperation from the Superintendent and the entire school staff and the results attained we believe testify to their efficiency.

We wish to express our appreciation of the cooperation of the Mayor and City Council during the year just closed.

The foregoing report was prepared by a special committee of Mrs. Esther Purcell and Col. Warren E. Sweetser, and was adopted as the annual report of the Committee for the year 1932.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

The year's administrative problems have been many and varied. Dealing with my annual report, it is my sincere endeavor to present to the Committee, and through the Committee to the citizens of Quincy, such salient facts as will enable them to judge the efficiency with which the personnel has discharged its very great and unusual responsibilities. The difficulties that have been met have served to strengthen the school system. Adversity is a hard master but it exerts the greatest possible urge towards higher standards and better performance. So it has been in the schools during the last year. Thus the foundation is formed for better records of achievement than ever before.

Quoting from my Annual Report of 1930, page 10: "I want to emphasize at the beginning of this report a paragraph taken from the conclusion of my last year's report. I might say that it sums up very briefly and in simple words what has grown to be a philosophy of education with me:

"What I should like to emphasize more than any other thing during the year 1930 is more attention to the individual. What is required is a system of education which shall encourage boys and girls to teach themselves; a system calculated to foster the child's curiosity; to make the desire for knowledge an habitual desire; and above all, to familiarize each child with the best methods of acquiring it by his own efforts."

The Spirit of the Teachers

The professional attitude of the teachers as a group is high. The interest on the part of the great majority to keep and maintain a high standard of excellence in scholarship in the schools is manifest.

Of the five hundred and thirty-six teachers now in service, twelve have obtained their college and four their master's degree at the various colleges while in service during the past few years. Twenty-two teachers have been employed who obtained their master's degree before entering the service. In addition to this a great many teachers with college degrees are working for their master's. During the year of 1932, one hundred and twenty-nine teachers have taken professional work at some of the higher institutions of learning. During the last semester ninety teachers have taken advantage of Professor Donald D. Durrrell's course on the study of Individual Differences, given at the Central Junior High School. The attendance was practically one hundred per cent.

Four years ago the School Committee raised the standard of scholarship, making it mandatory that the minimum requirements for elementary grade teachers be a three-year normal school course, and for junior and senior high school teachers a four-year approved college or normal school course, or its equivalent. This higher standard of scholarship training required by the School Committee has been reflected in the higher scholarship standards of the pupils. The schools demand more at the present time than college graduation. A candidate should have received professional training for teaching.

Many profitable meetings have been held with the principals during the year. Several general meetings for all teachers for inspirational and instructive purposes have been held. Dr. Howard Griggs and Dr. George Vincent may be considered the high water mark. Conferences were held during the year with the various groups of the junior and senior high school teachers to discuss the work of the special committees appointed to revise the subject matter in the curriculum from the seventh to the twelfth years inclusive. These meetings were highly instructive. Teachers took part freely in the discussion. The purpose of these conferences was to see whether those teaching the various subjects had any additions or subtractions or emendations to make to the syllabus that the committees had worked out. These conferences were productive of great good as they gave solidity and general agreement to the new syllabus.

It should be remembered also that the length of the school day was increased from 1:30 to 2:30 a few years ago in the junior and senior high schools, and today the teachers in Quincy in the secondary schools are carrying a greater load than is being done in the various school systems of the State. This is a great contributing factor in placing Quincy the most economical of the 39 cities of Massachusetts during the year 1931-32.

In addition to the five per cent contribution the teachers gave to the city, the teachers have done a fine piece of philanthropic work. Each teacher contributed five dollars toward a fund called the "Quincy Teachers' Permanent Relief Fund." The total amount raised was \$2,635.18. Of this amount \$2,232. 59 has been expended. The committee of teachers, of which the superintendent is chairman, have administered that fund as follows:

Loan to a deserving teacher	\$200 00
Welfare Association	725 59
Quincy Employment Service Bureau.....	300 00
School Nurses	1,000 00
Deserving pupil in High School	7 00
	<hr/>
	\$2,232 59

The nurses spent their money on deserving pupils for eye glasses, X-rays, and removing of tonsils. One hundred and ten dollars was spent in June to send children to the tuberculosis camp during the summer. The Quincy Employment Bureau spent the three hundred dollars for the employment of the parents of school children.

To summarize, this contribution of the teachers was spent for tonsils, X-rays, eye glasses, medical treatment, medicine, teeth, tuberculosis camp, milk, food, clothing, fuel and employment.

If further evidence were needed to show the unanimity and harmony that exists with the entire personnel and their desire to cooperate with the school authorities in their endeavor to meet perplexing problems, I would cite the resolution adopted at the general meeting of the teachers on January 19th, without a dissenting voice, placing their confidence in the School Committee. It reads as follows:

"RESOLVED: That the teachers of the City of Quincy offer to the City, as their contribution to meet the economic needs of those less fortunate than themselves, that portion of their salaries which seems reasonable to the School Committee and promise whole-hearted, earnest

service to the boys and girls of the City in this period of stress and turmoil."

I doubt very much whether you will find a school system in America in which closer harmony prevails with the entire personnel of the school system, the superintendent and the School Committee.

Teaching Aids

More than four years ago I called a teachers' meeting at which an exhibition was given of some educational films. At that meeting I said: if we did anything on visual education in Quincy it should be made simple, direct and helpful to pupils and to teachers; that I was opposed to the so-called educational moving picture film as an entertainment for the children in school, and a release or a rest period for the teacher; and if the moving picture film was to be of its greatest value it must function in the lives of both teachers and pupils—that is, it should stimulate and inspire a desire for further growth and interest and knowledge in the subject at hand on the part of both teacher and pupil; that it would fall short of a real stimulus and purpose if it did not inculcate a keener desire to study further in the particular subject that the teacher was endeavoring to teach. It should be an aid to exact knowledge and illuminate the problems presented to the pupils. Years of experience with educational films and other teaching aids have demonstrated effectively that visual aids are not to supplant but to aid the teacher.

There is a great danger of presenting so much material that it will result in a confusion of knowledge to both teacher and pupil. There are permanent performances that should be exacted of every teacher and of every pupil. The best trained minds with the most discriminating judgment should be at work on this problem. For instance: In the study of the geography of Africa, what differentiation will be made from the facts or generalizations that must be or should be learned as you would learn the multiplication table? What are the things that we should study only for appreciation, or as you read last Sunday's newspaper? The same distinction should be made in history and in general science. The visual aid department in Quincy is of the greatest help in determining these relative values.

It is possible for the moving picture film to be a great teacher's aid to educate the pupils in superior appreciation in a very wide range of subjects, a great many varieties of literature, the photo-drama, hygiene, nature study, history, geography, practical arts, architecture, landscaping, general science, good taste in dress and scores of other subjects.

We have always had visual aids in one form or another in the classroom; therefore, visual aids are not few. Modern science has worked out many, many excellent films and splendid devices and aids for our classroom work and we must accept these aids if they can help us elucidate and make clearer the subject matter to the pupils. We are endeavoring to sift out those things that will be most helpful and further aid the pupil in his work.

It is generally conceded that we learn more through the eye than through any other of our senses. It is, therefore, possible to bring into the classroom and make the unknown known and the difficult more plain, and to present information in its natural state, to motivate and correlate the problems before us, to rouse the learner to a point where he will want to know more about the sub-

ject presented; that is, it will help him to think more clearly, sense more keenly, know more definitely, and will to know more about his subject.

Everything that is being done in the City of Quincy is done with the high hope to help the pupil.

Needs of the Schools

While much has been accomplished, much remains to be accomplished.

Three years ago I came before the School Committee and said that we could expect at least 1,800 pupils in the North Quincy High School, September, 1932. This forecast is true for at the present time there are 1,835 pupils at the North Quincy High School. This is 350 pupils more than the capacity of the school at the present time. We must provide for at least 425 additional pupils in the North Quincy High School, September, 1933, making a total of 2,260. There are two solutions to the problem. One is the two-platoon day for the pupils, and the other is the completion of the building. On a two-platoon schedule, the program will be something like this: 1,260 pupils assemble in the morning from 8 to 12.30 o'clock, and 1,000 pupils from 12.30 to 5 o'clock in the afternoon, giving each group four and one-half hours in school. This, naturally, will hamper the work of the teachers and the pupils.

We employ teachers professionally minded and professionally trained to teach children. We expect them to discharge their professional obligations toward the pupils and the city. The old statement that no chain is stronger than its weakest link is as true in the schools as it is out of the schools. Teachers cannot discharge their professional obligations toward pupils, neither can pupils fulfill their obligations toward the work that they should do under such conditions as will prevail in a double session plan at the North Quincy High School.

The program of studies in the junior and senior high schools needs revision. The Home Economics department should be reorganized and extended. New courses should be added to provide for the varying abilities of the pupils and to meet the ever-changing social and economic conditions. There is need for greater emphasis on the social studies. We should include such subject matter as the management of personal economic affairs, vocational information. We should provide more training for worthy home membership, worthy use of leisure, character and citizenship.

We need closer contact between the school and the home. Each must understand the other if we are to work together for the good of the child. From the viewpoint of society, the child who is poorly adjusted is a potential problem.

Closely allied to this and paramount to it is the problem of guidance in its various ramifications. As I see it, guidance is the outstanding problem confronting the school system. I feel that guidance is the heart and core of our secondary education program.

Guidance is an economic necessity. A study was made by Mildred R. Frye of those pupils in the tenth year of the Senior High School who had failed the previous semester. She began her work in January and continued about five months. While the work done in the classroom was largely remedial, her study offered valuable suggestions as to possible preventive measures.

The correct thing to do is to find out the cause of failures and endeavor, with all the mentality and ability we have at our com-

mand, to remove the cause as far as possible. Such work is preventive and constructive.

One direct result of the study was that, in addition to the usual promotion list sent to the Senior High School, there was a complete history of individuals making up the entrance class. This gave the principal an opportunity to work out a more effective and, at the same time, a more efficient program of pupils' studies. Another result of the study was the giving of standard achievement tests to all pupils in grades 6 and 9.

A second study was made of those pupils who failed in one or more subjects at the North Quincy High School. There we have made a special effort to put into operation the preventive plan. It has resulted in a very hopeful showing.

At the beginning of the present school year the pupils of Grades 10 and 11 were placed in homogeneous groups on the basis of their ability and previous achievement. Each pupil was given individual guidance in his choice of subjects, and his program made out to give him every possible advantage. As a check-up on the effectiveness of the plan a study has been made of the recent progress of these pupils. It has shown that among those who were failing in one or more subjects last year, there has been a decrease in failure to the extent of 38 per cent. In other words—the achievement of this group at present is 38 per cent more efficient than it was last year. This means that the school program by virtue of its guidance program, which provided for homogeneous grouping, better programming of pupils' studies, and placing pupils in divisions better adapted to the individual needs, is 38 per cent more efficient to this particular group.

This special attention given to the individual pupil is nothing more or less than human accounting. The principle underlying this procedure is that every child will be permitted to work to the maximum of his several abilities. The public school is a democratic institution. Each child is entitled to the same rights, prerogatives, and privileges of every other child but no more. This principle will grant him that right. Therefore, any appreciable per cent of failures that can be corrected is, first, a great monetary saving to the City of Quincy, but greater than the monetary saving is the building up of stronger, better men and women fit to take their places in society.

This gives rise to more complex problems within the schools and demands a new set-up. Non-promotions and failures are the greatest waste in the school system at the present time. Three of the factors that enter into the non-promotions and failures are:

1. The results of poor teaching;
2. Insufficient offerings or courses, and courses not adapted to the needs of the several abilities;
3. And chief among them is inadequate guidance.

A year ago, January 26, Mildred B. Harrison, Dean of Girls at the Senior High School, submitted a report to the Superintendent of Schools, which was read and carefully discussed, approved and accented by the School Committee. In the report, specific recommendations were made by the dean of girls. Several of the items that were recommended have been carried out and have accomplished much good. A decided advance has been made for the girls in the Senior High School in

1. Home Economics and Home Management.
2. The health work among the girls.
3. By rearranging the dean's work and giving her more help, she has been able to do very much better work in the guidance field.

The dean went to all the junior schools last spring to work with the girls in their choice of senior high school courses. It is evident that more guidance of this kind is necessary in the junior schools and earlier. GUIDANCE WORK, TO BE EFFECTIVE, MUST BE PREVENTIVE RATHER THAN REMEDIAL.

A tentative plan for an organized guidance program was submitted last spring to the Superintendent of Schools. Since then the dean has been working more and more toward a definite program of guidance for the City of Quincy. It would seem advisable to have her concentrate on this work at this time because of its great importance. The immediate need at present is a further study of the situation with a view to determining what the first steps should be in establishing and carrying out a definite program.

The superintendent looks forward with every degree of faith in Quincy's citizenry, and with full confidence in their desire for effective and efficient education for their children. The future of our schools and the future intelligence of our citizenry depend upon the courage and the intelligence with which the problems of today are met.

It is particularly appropriate at this time to record appreciation of the efforts put forth on the part of the entire personnel of the school system during the year, and their loyalty and faith in the work that they have undertaken.

It is indeed high praise to have Quincy's schools held in such high regard in and out of the city and particularly by higher institutions of learning. This reflects great credit on the legislative body, the School Committee, who have served so long and faithfully without money and without price.

Respectfully submitted,

JAMES N. MUIR,
Superintendent of Schools.

The Day Trade School

The costs of the Quincy Trade School for the school year ending in August, 1932, were decreased by \$2,511.15 to \$50,744.59, and the net cost to the City of Quincy was reduced as follows:

Tuition for non-residents	\$8,315 00
Cash for products made in the school	1,213 79
Aid from the State of Massachusetts	19,074 90
Aid from the Federal Government	1,972 11
Miscellaneous receipts	45 57
Total receipts	\$30,621 37
Net cost to City of Quincy	20,123 22

In addition to actual cash turned into the city as shown above, the school has saved a considerable sum of money for the School Department by the work done by the boys in and for the various schools. Such work is done primarily to give the boys training on real jobs and is a vital necessity if the boys are to be properly trained in certain trades. At the same time there is a saving of money to the city and the School Department has the use of things which they would not have had if payments for the articles had been required. This is well illustrated in the field of visual education. At the present time no manufacturer is making many articles of furniture needed by the Director, Mr. Krasker, in his work. Mr. Krasker sketched his ideas for storage cabinets, portable film boxes, etc., and the cabinet making department produced the finished article to the benefit of the School Department and the boy in training.

The decrease in cost was largely due to a decreased enrollment and a change in the type of enrollments. The machine department, an expensive department to run, has been greatly reduced while the auto mechanics department has been increased. The auto mechanics department costs the city less to run because the automobiles repaired are furnished by private owners and all replacement parts are furnished by the owner.

The enrollment for the past five years is shown below:

	1927-28		1928-29		1929-30		1930-31		1931-32	
	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.
Auto Mechanics.	41		43		48	29.3	37	30.85	54	42.79
Electrical	38		35		38	32.5	37	32.64	37	31.12
Machine	40		40		31	25.7	38	24.95	16	12.96
Machine (Co-operative)		4	2.	5	1.	2	1.
Plumbing	36		36		39	29.1	29	23.76	31	24.28
Sheet Metal.....	21		20		18	16.3	18	16.67	21	15.38
Woodworking	80		76		68	47.1	56	40.99	53	36.57
Special	1	
Total Enrollment	257		250		246		220		214	
Total Average Membership.		190.6		192.6		182.0		170.86		164.10

The average membership of 164.10 for 1931-1932 is the lowest since coming into the new building. Apparently the decrease has ended for the membership for the first four months of this school year, 1932-1933, has been 190.6, within two of the highest enrollment the school has ever had. Every department but the machine and sheet metal departments are at capacity and the machine and sheet metal departments are at capacity for one teacher in each department.

The Home Making School

Even with the largest enrollment in the history of the school the total cost of maintaining the school was reduced from \$14,840.30 to \$14,283.87, a decrease of \$556.43. This total cost was further reduced as follows:

Tuition for non-residents	\$680 00
Cash for work done	1,003 59
Aid from the State of Massachusetts	5,725 16
Aid from the Federal Government	1,084 93
Miscellaneous receipts	2 79
Total receipts	\$8,496 47
Net cost to City of Quincy	5,787 40

The average membership for the school year 1931-1932 increased 10 per cent to 63.1. This increase in membership with a decrease in costs reduced the net per capita cost \$12.19 to \$91.72.

There was one change in the faculty—Miss E. Louise Woods succeeding Miss Eunice Eldridge, who resigned to marry. Miss Woods, a graduate of the Normal Art School, was head of the alteration department at Conrad's in Boston and should be a great help in getting girls ready to take positions in the trade.

The individual needs of the girls have been more carefully studied with needed changes being made in the courses of study. In several cases girls have been placed on a special schedule consisting almost wholly of laboratory work in Food and Clothing. Such a schedule does not lead to a diploma, but does fit the girl to better take her place in the home and community.

Several girls have returned for a third year to the Home Making School to specialize in either Food or Clothing, preferring the training received here to that which might have been obtained at the Boston Trade School for Girls. If some of these girls had gone to the Boston Trade School, Quincy would have been obliged to pay for their tuition.

The Continuation School

The Continuation School is now maintained only as a part-time affair with the Director, Mr. Dana B. Clark, devoting but one day per week to it. The remainder of Mr. Clark's time is spent with the Senior High School. The services of different women for an average of one-half day per week completes the personnel staff of the school.

The comparative enrollment facts are given below:

Enrollment	1927- 28	1928- 29	1929- 30	1930- 31	1931- 32
Boys	95	82	72	45	29
Girls	62	65	54	47	42
Totals	157	147	126	92	71
Hours of Service	11,860	7,996	7,148	6,132	4,056

Placing the school wholly on a part-time basis and using the shops of the Senior High School or Home Making School in the latter part of the afternoon after the day pupils are through, released a room for use by the Senior High School pupils last February at a time when it was greatly needed.

Going on to a part-time schedule in January reduced the Continuation School cost from \$3,584.17 to \$2,409.54. This cost was also reduced as follows:

Tuition for non-residents	\$22 40
Cash for work done	23 38
Aid from the State of Massachusetts	1,053 68
Aid from the Federal Government	256 41
Total receipts	\$1,355 87
Net cost to City of Quincy	1,053 67

The cost during the latter part of the year was \$21 per week with more than half of that being refunded by the State and Federal government. The net cost for a year would be about \$400. For such an investment the school department can keep in touch with the working boy and girl between 14 and 16 years of age and give much-needed educational and vocational guidance. The Continuation School helps the pupils with problems growing out of the work, gives valuable lessons in citizenship and health and keeps the young workers in touch with education so that if they lose their jobs it is much easier to replace them in the regular school.

Evening Industrial School for Men

Peculiar as it may seem, the Evening Industrial Classes are poorly attended during periods of economic depression and much better attended when industrial plants are busy.

The Evening Industrial Classes are only open to men who have been actively at work in the trade taught. Apparently the man out of work loses faith in the trade he knows and seeks to improve himself in other ways. The attendance record of the Evening Academic Classes showed a great increase this fall while the Evening Industrial Classes showed a very great decrease.

The following table shows the classes opened and the enrollment for the past five years:

	1927- 28	1928- 29	1929- 30	1930- 31	1931- 32
Automobile Mechanics.....	20	20	18
Electrical Wiring.....	18
Machine Drawing and Shop					
Mathematics	27	43
Machine Shop Practice.....	12	26	18	15	18
Plumbing	35	33	20	15
Roof Framing	22
Sheet Metal Drafting.....	20	23	19	27	52
Ship Blue Print Reading.....	32	44	53	156	113
Totals	146	211	110	198	234

Although six classes were opened, the class in automobile mechanics was closed after eight meetings for lack of sufficient numbers. The plumbing class was maintained for twelve weeks, the electrical and machine shop classes for sixteen weeks, while the sheet metal and ship blue print reading classes ran for the full term of twenty weeks. Many of the men in the classes are employees of the Fore River Ship Yard. The class in ship blue print reading has been held at the Fore River Ship Yard from 4 to 6 P. M. This fall, because of the relatively small number employed at Fore River, the ship blue print reading class was not opened and only two classes, sheet metal and auto mechanics, had sufficient number to warrant holding classes at the school. The sheet metal class was closed before Christmas.

For the year ending August, 1932, \$1,496.44 was expended for Evening Industrial Classes for Men. The total cost was reduced by the following:

Tuition for non-residents	\$78 00
Aid from the State of Massachusetts	681 96
Aid from the Federal Government	55 02
<hr/>	
Total receipts	\$814 98
Net cost to City of Quincy	681 46

Evening Home Making School for Women

The following table gives the scope of the work done with a comparison with other years:

	1927- 28	1928- 29	1929- 30	1930- 31	1931- 32
Clothing	751	719	522	538	544
Foods	120	153	150	87	150
Home Decoration	42	100	126	166
Home Nursing	17	37	30	94	61
Millinery	48
Totals	936	951	802	845	921

In spite of an increased enrollment, the total cost was decreased \$101.69 to \$7,789.19. The total cost to Quincy was reduced as follows:

Tuition for non-residents	\$351 50
Aid from State of Massachusetts	3,390 75
Aid from Federal Government	635 27
<hr/>	
Total receipts	\$4,377 52
Net cost to City of Quincy	3,411 67

Not only was economy practised in maintaining classes but it was the keynote in all class work:

in Clothing the teacher stressed the renovating of outgrown and old-fashioned garments;

in Foods classes the pupils were taught how to use "left-overs" and the cheaper cuts of meat;

in Home Decoration classes discarded boxes and furniture were made useful and ornamental with a little paint and varnish and old silk stockings and slips were made into lamp shades and beautiful rugs.

The purpose of the classes is well expressed in the words of the Director, Miss Perry:

"Our aim was to help the homemaker to be more practical and efficient, thereby reducing the family budget—which tends to make a happier and more satisfied family."

That the above aim was largely fulfilled may be shown by the following figures: The pupils in the classes furnished raw material consisting of cloth, thread, cooking materials of all kinds, paint, varnish, etc., to the value of \$5,959.18 (the School Department furnishes absolutely no material of any kind for these classes) and by work and skill changed the raw materials into finished products worth \$19,168.85, a gain in wealth of \$13,209.67. The gain is even greater than the figures indicate because the great underlying purpose of the classes is to lead the women to acquire permanently new knowledge and new skills so that they may continue to carry on in the home similar activities to those practised in class.

Americanization Work

For the school year 1931-1932, the city expended \$4,683.02 educating the adult alien in the use of the English language, customs, history and government of the United States and Quincy. The State of Massachusetts reimbursed the city \$2,191.32, bringing the net cost to Quincy to \$2,491.70, a decrease of \$323.26 from the net cost of the previous year. A decrease in cost was made possible by a decrease in enrollment which was 60 less than the previous year. A total of 545 enrolled in the classes representing the following nationalities:

Argentine	4	Italian	208
Armenian	1	Jewish	12
Austrian	3	Mexican	1
Canadian French.....	19	Norwegian	7
Danish	1	Polish (not Jewish).....	1
English speaking countries	143	Russian (not Jewish).....	9
Finnish	60	Portuguese	6
French	1	Swedish	34
German	7	Syrian	17
Greek	3	Born in U. S. but lived for many years abroad.....	8

Of this number, 48 were unable to read or write in any language at the time of enrollment.

The diversity of nationalities and the size of some of the groups should cause food for much thought. If Quincy has such a diversity of foreign adults, what must it be in the larger manufacturing cities? In some way these adult aliens will be assimilated. The state and towns can continue to help do it by providing expert teachers and classes in good environments or it may be left to the individual to seek his own source of information. It is well known that the communist element is ever present and ready to present its theories to whomever will listen. The state and city may relax its efforts but one may rest assured that the organized "Red" minority never will.

Quincy is very fortunate in the attitude of its citizens and organizations toward the adult alien. The cooperation and friend-

liness of various organizations, particularly the club women, has been much appreciated by the department of Americanization.

The Evening Academic School

There has been a steady increase in the attendance at the Evening Academic Classes as shown by the following table:

	1927-28	1928-29	1929-30	1930-31	1931-32
Total Enrollment	435	347	486	593	650
Average Membership	208.9	180.8	229.3	281.3	368.59
Average Attendance..	163.5	134.8	170.2	205	271.81
Per cent of Attendance	78.2	74.5	74.2	72.8	73.74

The above figures are for the evening school year October 1, 1931, to February 18, 1932. That the interest still continues is shown by the table below, which covers the enrollment this fall through the fiscal school year.

Subjects	1928	1929	1930	1931	1932
Office Practice	12	24	28
Advanced Bookkeeping....	20	17	18	35	43
Elementary Bookkeeping	47	65	50	44	68
Business Arithmetic	69	102	112	95	152
Business English	109	146	187	209	288
Penmanship	44	80
Elementary Stenography	103	174	70	67	89
Intermediate Stenography	18	17	35	20	32
Advanced Stenography....	36	39	48	61	92
Elementary Typewriting	142	226	139	189	294
Intermediate Typewriting	17	35	27
Advanced Typewriting ...	37	41	48	56	116
Mechanical Drawing	42	76	128	98	69
Grammar School Subjects	21	8	36	31	55
Algebra	50	63	72	98

There was, this fall, an increased registration in every subject except Intermediate Typewriting and Mechanical Drawing, with a total registration of 854 as compared with 744 in the fall of 1931. Some did register for Intermediate Typewriting, but there were not typewriters enough to accommodate all who enrolled for Elementary and Advanced Typewriting and they took other subjects rather than wait for a machine.

A study of the registration cards indicates that a large number of those enrolled are unemployed during the day. They are using some of their leisure time to make themselves more worthy of a job. The evening school teachers are unanimous in commending the interest and attention of the evening school student. Disorder in evening school classrooms is almost unknown.

Although the membership in the Evening Academic Classes has increased, the cost decreased from \$4,168.84 spent during the fiscal year 1931 to \$3,232.11 expended during the fiscal year 1932, a de-

crease of \$936.73. This decrease in cost was brought about in two ways—by closing in February and not reopening in March after the day school February vacation, and this fall by reducing the number of evenings from three to two. In the past the Evening Academic Class met on Monday, Tuesday and Thursday nights. Beginning in October, 1932, the classes have been meeting on Tuesday and Thursday nights. This change was made as the result of much study and the facts gained by a questionnaire to students last year and it fitted in nicely with the need to economize.

Mentally Retarded Pupils

The availability of group mental test results in the first grade over a period of four years is making it possible to discover the mentally retarded pupil earlier in his school life. During the school year 1931-32, 119 children were referred to the State Clinics for expert diagnoses; 100 were examined by Dr. Patterson of the Wrentham Clinic, and the others either by the Quincy Child Guidance Clinic or the Quincy Habit Clinic.

The number of children three or more years mentally retarded was the same on October 1, 1932, as the previous school year—159. On that date, 147 mentally retarded children were being cared for in special classes; 9 were in adjustment classes in the junior high schools; 34 were in the "Opportunity Class" for older boys, housed in the portable building in the Central Junior High School yard; 16 were in the "Opportunity Class" for older girls, housed in the portable building in the Coddington School yard; and 88 were in six ungraded "Opportunity Classes." There is an "Opportunity Class" at each of the following buildings: Adams, Daniel Webster, Francis W. Parker, Lincoln, Thomas B. Pollard, and Willard.

In a few cases, children who are not yet three years mentally retarded, but who will be in a few years, are placed in "Opportunity Classes" on the recommendation of one of the clinics, and children three years retarded are frequently left in the regular grade where the mental age of the child is correct for the grade and the child is not out of place socially. Great care is used in selecting children for "Opportunity Classes," placement being made only after the most careful diagnosis.

There are a few mentally retarded children in the Merrymount, Adams Shore, and Houghs Neck districts who cannot be placed in a class because the numbers do not justify forming a new class for those sections and there is no other class near enough to serve them.

REPORT OF THE SENIOR HIGH SCHOOL PRINCIPAL

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

Herewith I submit to you my annual report as principal of the Senior High School. This year we have been confronted with the problem of larger numbers than last year, the enrollment being 2,283 pupils as compared with 2,258 last year. However, the experience of the previous year seems to have taught us how to meet the situation at the start, and many of the former difficulties have not presented themselves this year. Of course, the school is badly overcrowded and there is great lack of comfort and convenience in carrying on the work, but a spirit of cheerfulness and cooperation on the part of both teachers and pupils has helped us to make light of conditions and apparently the school has suffered very little from the handicap.

Economic conditions brought a new problem to us this year. Formerly only a few graduates have asked to continue in the school, but lack of employment led many to think of postgraduate work either along lines they had already studied or new ones. This year there have been 64 graduates enrolled in the school. They are taking a variety of subjects and have been fitted into existing classes so that they do not create any extra burden for the school. All the post graduates are doing creditable work, offer no discipline problem, and are really to be commended that they prefer to occupy their time profitably even under the exaction of school discipline rather than remain idle.

The Placement Department, established last year, has, of course, had little opportunity to function along its intended lines because of obvious conditions. We have continued to interview all graduates and file information regarding them which is at hand for reference whenever needed. Employment for a few pupils has been obtained and those in charge of the department have continued to keep the fact before prospective employers that we are ready and able to furnish young people well trained for service in office or factory.

At the opening of school in September, in connection with the new program in health education discussed in other reports, there was inaugurated an extensive program of intra-mural sports. During the fall large numbers of boys and girls were engaged in outdoor sports of all sorts under the guidance of capable instructors. With the coming of cold weather, activities were transferred to the gymnasium with an apparent increase of interest. Girls are present in crowds on the days when the gymnasium is assigned to them, but on boys' days there are literally hundreds of boys busy with chosen sports. The building resembles a beehive with the floor of the gymnasium covered with basketball games, the corners with wrestling matches, the corridors with track teams, and boxing groups using any available corner in the building. This is real sport under excellent conditions so far as instruction and guidance are concerned. The ultimate purpose of this program is not to have strong teams with which to compete with other schools, but to get the largest number possible of boys and girls into sports and games for the health and fun they will derive from them.

Nevertheless, we might mention the fact that all of our competitive teams have given good account of themselves and that the standing of the school has suffered no loss in their hands.

Before the close of the last school year, careful study was made in the Junior High Schools of the pupils who were to enter the Senior High School and full reports were sent to the latter school, special attention being given to those pupils who might prove to be problems in any way. With this information at hand we were able to adjust these pupils to the new environment more quickly and more effectively and greatly lessen the likelihood of failing in their work. Teachers were assigned to the groups which seemed most likely to have difficulty in adjusting themselves and these teachers were to keep themselves informed constantly of the progress of the pupils in the various groups and to help and advise wherever possible. I am convinced that the preliminary study in the Junior High School and the use in this school of the information obtained has resulted in a lower rate of failure and a more complete adjustment to the life of this school. While the pupils were being studied in the Junior High School a considerable number was found who seemed to give promise of high intellectual purpose and arrangements were made to group these pupils together so that they might be stimulated to even greater effort than might be under ordinary conditions. It was our hope that among these pupils might be found some real scholars, and I am glad to state that apparently we have a group of convenient size who will be likely to remain together through the remainder of their school course and who will furnish a constant challenge to us all because of their intellectual interest and attainment.

At the graduation exercises in June the following awards were made:

Wollaston Woman's Club scholarships to Althea P. Sawyer and Janet E. Thompson.

Quincy Women's Club Scholarships to Ruth M. Davis, Helen E. Russell and Mary Jane Watson.

L'Eco Club Scholarship to Frank J. Chiminiello.

Jewish Scholarship Club of Quincy Scholarship to Isabelle Marentz.

The Quincy Women's Club prizes for the boy and girl, who in the opinion of the faculty and their class had contributed most to the school, to Richard N. Paulson and Althea P. Sawyer.

Mr. Wilson, our assistant principal, has made his usual study of loss of pupils for causes other than graduation and a brief summary of his study may give interesting information. During the last school year 238 pupils left the school without graduating and all but seven pupils have been definitely accounted for. The causes are as follows:

- 55 moved from city of whom 40 are probably still in school.
- 32 went to work.
- 31 personal illness.
- 30 needed at home.
- 37 failure in school work.
- 23 transferred to other schools.
- 7 withdrawn by parents.
- 16 miscellaneous reasons.

REPORT OF SCHOOL DEPARTMENT

Of these, 24 returned to school in September. This leaves a total of 151 pupils, or approximately $6\frac{1}{2}$ per cent of the enrollment who are apparently not continuing their education.

May I take this opportunity in closing of expressing to you and to the School Committee the appreciation of us all for your loyal support and helpful cooperation.

Respectfully submitted,

ERNEST L. COLLINS,

Principal of the Senior High School.

REPORT OF THE DEAN OF GIRLS OF THE SENIOR HIGH SCHOOL

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

Following is my annual report for 1932:

The social program has been planned and supervised as hitherto. Members of the faculty have been asked to assist at the various affairs. These have included the February Senior reception, a Valentine party, an all-school Spring dance, the June Senior reception held at the Armory, a Hallowe'en party, and several matinee dances. The students have been cooperative and have conducted themselves in a very satisfactory manner.

The Girls' Club is fast becoming an important factor in school life. In addition to their regular programs, they have sponsored a number of projects for the benefit of the school and community. For example—early in the fall term they entertained all the girls who were new to the school system. At Thanksgiving they solicited contributions for the Family Welfare baskets. As a service to all the girls of the school, they obtained the Director of Placement of the Women's Educational and Industrial Union to speak in regard to vocational opportunities, and again engaged Miss Margaret Slatery for an assembly program. At the time of this writing they are cooperating with the Hi-Y boys in the collecting and repairing of toys to be distributed throughout the city at Christmas.

The Student Council has also been particularly active during the past year. The school Handbook was revised and a copy given to every incoming Sophomore. One of the recent projects was the introduction of "Parents' Nights." The purpose was to provide an opportunity for the parents to become better acquainted with the school and its offerings. A program was arranged for the Sophomores and later, one for the upperclassmen. Considerable interest was shown.

Vocational guidance is inseparable from educational guidance and is constantly being given in conferences with individual pupils.

As a means of providing specific vocational information, a series of programs was given last spring. Each week for several weeks, some one vocational field was featured—by bulletins, posters, library exhibits, discussions by outside speakers, and trips to various schools. There was considerable interest shown and unquestionably the programs were worthwhile. However, the subject matter cannot be presented adequately in this way.

The curriculum guidance in the Senior High School was handled last spring by a number of teachers who were appointed to advise certain pupils in their choice of program. Special cases were referred to the Principal and Dean.

In the Junior schools the Dean met all of the ninth grade girls for a discussion of their Senior High courses. Conferences were held with the ninth grade advisers in groups, and with individual pupils and advisers. Several additional days were spent at the North Quincy High School helping with the program.

A very definite attempt was made to interest the girls in the Home Economics curriculum. Recommendations were made whereby we might offer a training that would have vocational as well as cultural and practical value. There were enough incoming Sopho-

mores and upperclass failures to start two divisions last fall. A detailed report of the progress of these incoming girls has recently been submitted to you. It is hoped that another year a larger proportion of the girls will choose the Home Economics work.

Another recommendation relative to the Home Economics department which was carried out was the provision of a course in Home Management as an elective for Senior girls. The following outline gives some idea of the scope of the subject as treated: Introduction: This Business of Homemaking; Unit 1. Getting Along with other people; 2. The Management of the Housekeeping Problem; 3. The Management of Finances in the Family; 4. The Child in the Home; 5. Our Health Problem; 6. Our Leisure Time; 7. The House We Live in. At present 117 girls are taking the course with Miss Lewis. Their enthusiasm is most gratifying.

The follow-up of pupils in their work has been handled as usual except that a number of teachers have acted as advisers for certain groups of Sophomores. Many cases of failures are referred to the Dean and adjustments made. The whole problem of failure needs further study.

Special cases of various kinds are constantly attracting attention and being referred for investigation. The services of Mr. Clark as home visitor have been invaluable here; also those of Mrs. Baker when health factors have been involved.

The adequate handling of health cases has been one of the outstanding achievements of the year. Since last May, when Mrs. Baker came to take charge of the work, 980 girls have received treatment in the Emergency Room. The increase in number over previous years would indicate that many who would otherwise have been dismissed were cared for and were thus able to return to classes. Also many minor injuries hitherto neglected have received proper attention.

There has been a systematic follow-up of all health cases which have been found to need special attention.

The past few months have revealed an unusual number of cases of real want. Welfare work has been done along various lines. Complete reports in regard to it have already been given to you.

Respectfully submitted,

MILDRED B. HARRISON,
Dean of Girls.

REPORT OF THE SUPERVISOR OF GRAMMAR GRADES

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

It gives me pleasure to submit the following report:

Since the "process of education is made up of units of learning"—each of which must be mastered—the general trends are towards such types of instruction. Traditional schools ignore the mastery of true units of learning and focus their attention upon the performance of assigned tasks. It has been well said, "The practice of keeping the mind fixed upon lesson performance instead of upon clearly defined units of learning leads logically and unalterably to the theory of appraisal and control of pupils' progress, the antithesis of mastery."

Keeping our place in the van of progressive education, the principles underlying instruction by units of work have been presented to the teachers and types of such work placed in their hands. They have been asked to fix as the goal of their year's work, such types of instruction. These are to be submitted to a central committee for constructive suggestions. The ultimate plan is to take such outstanding pieces of work—the past of our schools has had splendid examples of creative teaching—and "pool" them for the benefit of the city. We anticipate, by use of the work done in our midst, broadening ideas for the experienced teachers and real help for the teachers new in the profession.

I wish to thank the girls and boys of the Massachusetts Fields and Montclair Schools for their excellent contributions to the Bridgewater Exhibit. The one, an individual project, wherein "the stage was set," portraying accurately the scene of "The Signing of the Oath of Allegiance"; the other, a set of slides in colors depicting the salient episodes connected with the solution of the problem, "How the English Colonies Came to Separate Themselves from the Mother Country."

In closing, may I again avail myself of the opportunity of expressing to you my sincere appreciation of your confident support, and also of thanking my co-workers—the principals and teachers—for the encouragement afforded by their spirit of gracious loyalty and untiring cooperation.

Respectfully submitted,

HELEN MAUDE DELLICKER,
Supervisor of Grammar Grades.

REPORT OF THE SUPERVISOR OF DRAWING

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

I herewith submit my annual report of the drawing department of the public schools of Quincy for the year 1932.

Several extra pieces of work were completed this year in addition to the routine work of the department. The first of these was an exhibit held in Kingson Hall, in February, for the Quincy Art League, showing the progress of the drawing work from Grade I through the Senior High School in the subjects of Design and Representation. The exhibit contained ninety-six mounts of drawings which well filled the hall. The work exhibited was chosen from the regular school work, and every school in the city was represented. Twenty of these mounts of drawings were later loaned to the Wollaston Woman's Club for exhibition purposes.

Later in the spring a request was received from the Chamber of Commerce for a design for a banner for "Quincy Day." This was made a contest in the four Junior High Schools of the city. The judges announced Barbara Drury of the Central Junior High as the winner of the first prize, Forrest Kimball of Central Junior High winner of the second prize, and Helen Ferris also of Central Junior High winner of the third prize. Six special honorable mentions were given and many honorable mentions, all divided among the four schools.

Posters were made again this year for the Norfolk County Health Association, the contest being carried on in the Junior High Schools of the city. The Quincy judges met on May 20th, and selected the five best posters from the seventh, eighth, and ninth grades. These posters selected by the judges were sent to the annual meeting of the association at Braintree to be exhibited and judged with posters from other cities and towns of Norfolk County. Geraldine Avery of the Quincy Point Junior High received second prize in grade seven and Marilyn Walsh of Central Junior High received honorable mention in grade eight.

In the fall of this year, several changes occurred in the teaching staff of this department. Miss Julia Rutledge of the Quincy Point Junior High had resigned to fill a position in Boston, and her place was filled by the appointment of Miss Helen Leighton of Arlington, who is an experienced Junior High School art teacher. With the addition of the eleventh grade at the North Quincy High School, and the prospect of the twelfth grade next year in that building, it became necessary to have two full time art teachers in that building. Miss Marjorie White of the Central Junior High was therefore transferred to this new position, and her former place was filled by the appointment of Miss Vera Stevens, who had satisfactorily filled a vacancy for us a few years ago.

A course in Art Appreciation has been started in the first six grades by means of slides from the department of Visual Education with the kind cooperation of Mr. Krasker.

I am glad to have this opportunity to thank you, Mr. Muir, for your unflinching help and interest in this department, and also to thank Miss Helen Ash for her faithful cooperation, and to thank

all the teachers and pupils who respond so generously to any demands this department makes upon them.

Respectfully submitted,

AMY E. ADAMS,
Supervisor of Drawing.

REPORT OF THE SUPERVISOR OF MUSIC

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

It gives me pleasure to submit the following report for the music department.

We are still striving to attain the objectives of our music work already set forth in previous reports.

Our aim in the vocal field is to foster a love for singing, intelligence in reading and interpreting music, and the correct use of the voice. This work is carried on in small classroom groups from the first through the seventh grade in Junior High School, followed by chorus singing in larger groups in which all children of the eighth and ninth grades must participate. In the Senior High School grades all vocal music is elective, and the interest is so great that the choruses are almost unwieldy in size. In January, 1932, the entire class which graduated from Quincy High School sang Gounod's "Gallia," with the solos performed by members of the class. In May the opera "Pinafore" was presented by the members of the Glee Club in the same school.

Music appreciation is still stimulated in the elementary schools by music memory contests. In these contests in June, 685 attained perfect scores. We hope that at an early date a regular plan for music appreciation with text books and records may supplant the older contest method. Much could be accomplished in the Junior High Schools for the love of listening to music if there could be some program time devoted to this particular phase of the work. In the Senior High Schools elective courses in music appreciation and harmony are offered with diploma credit.

In the instrumental field the work remains constant. Class instruction for all orchestra and band instruments is offered at twenty-five cents a lesson to any girl or boy from the fifth grade through Senior High School. These classes have been in operation since 1920, and have always financed themselves. For the last three years piano class work has been offered to pupils of the fourth grade with excellent results. Orchestras are available to all children who have studied at least a year. For elementary schools there is a central orchestra which meets every Saturday morning. Each Junior High School has its own organization and each Senior High School has not only a first orchestra of approximately fifty members but also a training group of almost the same number. In May five hundred pupils participated in a concert which exemplified all branches of this class instruction, also the results attained by the orchestras and band. These last-named organizations are maintaining a high standard of work and won much honor at the State Contest held in Norwood this year. Our next development will be a band at the North Quincy High School.

As results of our work we know that many former members of high school organizations continue their vocal and their instrumental work; many are singing acceptably in the church choirs or other singing groups of the city; some have organized their own orchestras; many have gained a social recognition in college or other surroundings which they could not have had without their musical experience; some are directly training to use music as their vocation, and some are already filling positions.

The most important result, however, is that music is felt as an essential by the children themselves, and through the children and what they can do, the people of the community are expressing their appreciation and realization of the value of music in the schools.

In closing, may I thank you for your constant support and inspiration, and express my gratitude to the School Committee, the school officials and the teachers for their cooperation.

Respectfully submitted,

MAUDE M. HOWES,
Supervisor of Music.

REPORT OF THE SUPERVISOR OF PHYSICAL EDUCATION

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

I herewith submit the report of the department of physical education for the year 1932.

The health survey of the Quincy schools by Dr. Frederick Rand Rogers was concluded in the early spring. In Dr. Rogers' report he made this statement: "Evidently Quincy's school children are, on the whole, in excellent physical condition. About fifteen per cent need daily, individual attention by specialists to remove growth handicaps and increase vitality." Following the survey, preliminary physical fitness tests were made of children in the ninth, tenth and eleventh grades. These tests were made the basis for determining new classifications of pupils which went into effect with the opening of schools in the fall.

These tests were preceded by medical examinations and consisted of:

(a) Foot prints—to determine the need for strengthening the muscles of the feet or for other corrective procedures.

(b) Strength tests—to determine the need for modified physical activity programs.

Nine hundred and forty-three girls and ten hundred and sixty-six boys were given the physical fitness tests at the Quincy Senior High School, while at the North Quincy High School two hundred and seventy-nine girls and three hundred and sixteen boys were tested. The average physical fitness indices of all pupils tested were boys 107—girls 96. The tested pupils were then grouped according to their P.F.I. (Physical Fitness Index) into three divisions.

Group D

(1) All boys with P.F.I.'s below 85 and all girls with P.F.I.'s below 80 to attend classes four times weekly.

(2) To this group to be added all pupils with foot print angles below 20°.

Group A

(3) All pupils with P.F.I.'s over 115 to be allowed choice of physical activity.

Group B and C

(4) All other pupils to attend a physical activity at least once weekly, in intra-mural, inter-school or individual sport or recreative activities, either in gymnasiums, on play fields or elsewhere during school hours, after school or during weekends subject to approval by physical educators.

At the North Quincy High School crowded conditions prevented a complete change of organization, although wherever possible changes in keeping with the new program were made.

At Quincy Senior High School a complete reorganization of the physical education program was made in September, grouped according to the following table:

Girls				Boys			
Grade	Group A	Group B & C	Group D	Grade	Group A	Group B & C	Group D
12	75	207	105	12	121	200	106
11	37	140	62	11	84	142	67
10	87	158	72	10	162	117	67
Totals	199	505	239		367	459	240

This program has functioned well for the four months and interesting changes are looked for when the retests are made in January.

The outstanding feature of the program is its adjustability to the individual needs of the pupil.

Respectfully submitted,

WILLIAM H. WHITING,
Supervisor of Physical Education.

REPORT OF THE DIRECTOR OF VISUAL EDUCATION

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

I submit the following report of the work of the Visual Education Department.

The eventual success of the value of visual aids in the schools will be measured by the criterion, "Do the aids help the teacher more efficiently?" The work of a Department of Visual Education is a service to teachers.

Research throughout the country is consistently proving the value of the proper use of "Teaching Aids."

The experiments carried on in Quincy last year by the Harvard School of Education in cooperation with the Carnegie foundation—testing the value of Sound Motion Pictures in the teaching of Science, indicates experimentally the value of visual education. The increased demand for materials by our teachers is an excellent practical indication that Visual Aids are serving their purpose as Teaching Aids.

The general interest of educators in Visual Education was made evident on February 6, 1932, when about 500 school teachers and school administrators met at the North Quincy High School at the annual program of the Massachusetts Branch of the National Academy of Visual Instruction.

Boston University, School of Education, has recognized the value of Visual Education by offering courses to train teachers in this field and also by establishing a curriculum for the specific purpose of developing leaders to direct departments of Visual Education for school systems. Many normal schools and schools of education now require a course in Visual Education of all students who are preparing to teach. These are indications of the acceptance of the value of the extended use of teaching aids.

Keeping in mind the one goal of serving the teacher, the Visual Education Department has been emphasizing the following four services:

1. To correlate the available teaching aids with all of the new courses of study and to make these correlated lists of teaching aids available to the teachers. The most certain method of having teachers use the available aids is to make the material a part of the course of study.

2. To increase the number of schools with 100 per cent projection equipment. Each school building should own three projectors: motion picture, slide, and film slide, to make use of the materials available in the central office. This year for the first time we are able to say that every school principal has available the use of a motion picture projector. One school has found it necessary to purchase two projectors to take care of the demands of the teachers. Five more motion picture projectors are necessary to supply each building with a machine. The same machine is used by some principals for two schools, alternating weekly.

Much of the equipment has been made available by the Parent-Teachers' Associations of our schools. These organizations are to be congratulated for their vision in supporting a service that makes available to the pupils a more realistic, a more natural, and a more efficient education.

3. To increase the number of schools with 100 per cent teachers capable of operating the projectors and to prepare the teachers with the proper methods for the efficient use of the teaching aids.

Many meetings have been held with groups of teachers for the purpose of giving instruction in the operation of the machinery and in the technique of properly using the aids.

Several of our teachers have taken courses of instruction in Visual Education. Some teachers are doing graduate work in this field.

The Quincy Teachers' Association has organized a visual education study group which has planned several meetings for the year. At a recent meeting to demonstrate how teachers may make their own illustrative materials about 80 teachers of Quincy were present.

4. The fourth service emphasizes the accumulation of sufficient teaching aids to enable the teachers to use them properly.

Teaching aids are constructed to be either predominately inspirational in nature, appealing to the emotions, or factual in content aiming at teaching subject matter through reasoning. The first group of films may be as successfully used with large groups as with small groups. Such films tell their own story. They are of a general interest nature and are as desirable for use in the assembly as in the classroom.

Most of the available motion pictures today are of the factual type. The proper use of these makes necessary their use by the individual teacher in her own classroom as a regular part of the teaching program and at the time when the lesson with which the film correlates is taught. It is with this ideal in mind that we are meeting a problem in our visual education program.

A teacher of the sixth grade geography teaches the unit of China. She asks for a film on Silk for March 14, and she is told that the first open date is May 20. This is an actual case. The teacher justly replies that she will have no use for the film at that time. Such a teacher is to be commended for her reply. She is using a film as a teaching aid. She realizes that unless she uses it at the time when she is teaching the lesson for which the film is intended that it hasn't maximum educational value. It becomes a mere show. One teacher reported that showing a film on cotton growing at the time when they were studying silk resulted in confusing the minds of the pupils. It is good teaching to teach in units and not haphazardly.

Films are a teacher's aid and as such they must continue to serve the teacher. We cannot expect the teacher to vary her schedule of teaching, awaiting the films. Such a procedure would be hindering the teacher and not aiding her.

It is better that fewer films be used properly as teaching aids than many films merely shown. It is necessary that the service from the department of visual education be limited to serve only when such service will help, rather than hinder the teaching process.

What causes this condition? A film is left in a school building for a period of a week, delivered on Mondays and collected on Fridays. This we believe absolutely essential to allow all the teachers of a school, who are teaching the subject matter of the film to use it in the classroom. It also permits the teachers to preview the film, to properly prepare for its use, and to use the film several times with the same class when this is necessary.

A few figures will indicate our problem. Let us note that twenty-three of our twenty-six schools in Quincy are using visual aids from

the central library. The total library of material for distribution consists of one hundred forty-eight teaching films, one hundred eight sets of slides and one hundred fifty-eight filmstrips.

Our library of films is limited. There are many teachers using films now. This is made plain by the fact that 65 per cent of our films are in constant use.

In comparison with other school systems in the country, we are very well off. In serving the demand which we have created in our school system for the proper use of visual aids, our library of materials needs extension.

We discuss this problem in such detail because we feel that the opportunity is ours for working out a satisfactory solution. We have twenty-six schools and about six hundred teachers. If we are meeting this problem what about the larger school systems?

One solution to this problem is to own your own library of films. This we are doing. Secondly, if our library were more extensive the teachers would have a greater choice and the demands for the same films would be somewhat lessened.

A third and most important solution to the problem is to have duplicate copies of the few films which are very much in demand. Our next order will make a beginning in this direction.

Modern education requires using every aid which will increase the efficiency of teaching. Our experiences are showing the right direction for this movement.

The Quincy System of Visual Education is receiving National and International recognition.

I wish to express my appreciation for the freedom of work permitted in steering the services of the Department of Visual Education.

Respectfully submitted,

ABRAHAM KRASKER,
Director.

REPORT OF THE SCHOOL PHYSICIAN

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

The report of the activities of the Hygiene Division for 1932 is herewith submitted. The most important events are mentioned in the order of their occurrence during the year.

The Follow-Up Clinic of the State Department of Health visited us in January and re-examined the children on their list. The following summary is taken from the report of Dr. David Zacks, the supervisor of the Chadwick Clinic:

Number of children recommended for re-examination	162
Number of children re-examined	154
Number of children improved	146
Number of children unimproved	8
Number of children X-rayed	151
Number of children tested	148
Number of children reacted	99
Number of children non-reactors	44
Number of children arms not read	5
Number of children recommended for Summer Camp	4
Number of children discharged from the Clinic.....	54

These children were X-rayed and tested by the Clinic in December and will be re-examined again in February, 1933.

Co-operating with the Department of Health, the campaign of immunization treatments for the prevention of diphtheria was included in the school health program during May. The results were most successful—748 children were immunized. We wish to thank the Health Commissioner, Dr. Cornelius J. Lynch, and also the doctors and the nurses for their aid in this important field of prevention.

On account of the new program of the Department of Physical Education, put into effect during the spring, physical examinations were given in June to the girls and boys of "Group D." after the test had determined their "Physical Fitness Index." The records of the examinations of this "Group D" present many conditions that demand careful consideration for recommendations. It will be very interesting to note the improvement when this group is re-examined.

During September, the pupils of the seventh grades of the Junior High Schools and the tenth grades of the Senior High Schools were examined by the following doctors: Rachel L. Hardwick, Ella G. Hedges, Robert L. Cook, Fred P. Costanza and Edward Broderick. The boys of the athletic group and also the entering classes of the Trade and the Home Making Schools were included in this series of examinations. The program of the physical examinations of the children of the first grades of the elementary schools started the last of this month.

The number of health certificates issued for the employment of minors decreased during the year. A total of 139 certificates was granted, compared to a total of 210 last year.

Conditions of contagion have not been so numerous during 1932, with the exception of scarlet fever. The control of this disease still

remains a problem in the school and in the community. The school nurses maintain most diligent supervision in cases of contagion.

In this report, as in other reports, especially commendation of the efficiency of our school nurses should be included. Their duties are increasing every year as more children are enrolled in their districts. Their persistent efforts to overcome the many obstacles that hinder the school children in their enjoyment of good health certainly prove that the services of our school nurses are most helpful and valuable to our school children.

Please allow me to thank you for the interest and support you have given us during the past year. I also wish to thank the principals and the teachers for their splendid cooperation and help in our work.

Respectfully submitted,

MARIA E. DREW, M.D.,
School Physician.

APPENDIX A
STATISTICAL DATA

1. Financial Statement for the Fiscal Year Ending
December 31, 1932

I. REGULAR SCHOOLS

Appropriated by City Council	\$1,156,673 00
Plus transfer	10,414 67
Total available	<u>\$1,167,087 67</u>
Expended	<u>1,167,086 78</u>
Balance unexpended	\$ 89

Itemized Expenditures

Administration	\$38,491 73
Evening Academic School	3,232 11
Instruction	926,224 09
Maintenance	26,906 56
Miscellaneous	13,400 22
Operation	108,334 22
Stationery and supplies	33,509 06
Text books	16,908 79
Travel outside the State	80 00
Total	<u>\$1,167,086 78</u>

II. STATE AIDED SCHOOLS

Trade School

Appropriated by City Council	\$51,082 00
Smith-Hughes Fund, Balance from 1931	2,585 78
Smith-Hughes Fund, Received, 1932	<u>1,964 34</u>
Total available	\$55,632 12
Expended	<u>48,875 11</u>
Balance	\$6,757 01
Less transfer to regular schools	<u>4,792 67</u>
Balance unexpended (Smith-Hughes Fund, Received, 1932)	\$1,964 34

Co-operative School

Appropriated by City Council	\$200 00

LISTS OF GRADUATES

1. Senior High School

(a) JANUARY, 1932

188

Bertha Claire Adams	Dorothy May Donovan
Charles E. Anderson, Jr.	Daniel Joseph Dorley, Jr.
John Anderson, Jr.	Ruth Louise Edgar
Mildred Edith Anderson	Dorothy Evelyn Erikson
Rosa Louisa Anderson	Robert Arno Ewing
Peter John Angelo	Joseph Louis Fasci
Charlotte Katherine Averill	Doris Francis Field
Emery Francis Baker	Dorothy Mae Firmani
Gilbert Balkam, Jr.	Charles Austin Fish
Andrea Battistini	Helen G. FitzGerald
Sylvia Kleist Bergen	Gordon Flaherty
Charles Berman	Edythe Francer
John L. Black, Jr.	Barbara Evelyn Fredette
Arthur Bloom	Nancy Follett
Adeline T. Bogni	John William Giles
John Joseph Bresnahan	Elaine Lucille Gilman
Casper Joseph Budrick	Catherine Elizabeth Gilmartin
Robert Burke	Beatrice D. Gladwin
Stanley George Butman	Dorothy Goldstein
Dorothy Terese Carlson	Laura Emily Grilli
Frank J. Chiminiello	Ruth Adelaide Hamilton
Ruth Fern Chisholm	Vernon Weil Hamilton
Virginia Sigrid Christenson	Lillian M. Harron
John James Christie	Randolph Hugh Haslett
George Joseph Clancy	Catherine Mae Heckman
Jeannette Clisham	Carl G. Hedlund
Joanna Marie Collins	Anna Dorothy Gertrude Henrikson
Marie Elizabeth Collins	June L. Hodgkinson
Sarah Elizabeth Connolly	Lillian May Holden
Muriel Florence Costa	Mary L. Hutson
Helen Elizabeth Costello	Henry Gordon Hyslop
Charlotte Louise Countway	Carlton Joseph Jepsen
Grace Hunter Crawford	R. Elna M. Johnson
John Francis Crimmins	Richard L. Jones
William Joseph Crowe	Mary Ann Keefe
Wilfred Leslie Crozier	Elizabeth Louise Keenan
Claudia M. Cushing	Betty Kuperman
May D'Alessandro	Henry F. Kyllonen
Mary Virginia Daly	James B. Laing
Jessie Reader Dawe	Marjorie Eleanor Lane
Geoffrey Hubert DeCoste, Jr.	Harry Earl Lantery
Enrico DeCristoforo	Doris Louise Laporte
Vincent Del Gallo	Robert Snow Leggat
J. Robert Dennehy	Linnea S. Lindahl
Eileen Jean Dewar	William T. Lindberg
Marjorie Mary Dewey	Olliffe E. Litchfield
Nicolena DiBartolomeo

Edwin Kauko Nisula
Elizabeth Nogueira
Doris E. Norden
Robert M. Norton
Esther Josephine Noyes
Sarah Philip Oliver
John Edward Olsen
Sybil Irene Pamplin
William Joseph Papile
Pauline Elynor Parker
Elizabeth Una Patstone
Ainsley T. Patten
Mary Eleanor Patterson
Ethel Paulson
Richard Niles Paulson
Hope Martha Peck
Arthur Ray Peel
Leecha Pellegrini
Lester Peterson
William W. Peterson
Charles H. Potter, Jr.
Harold Roland Pottle
L. Carleton Power
Gerald Harry Preston, Jr.
Rose Marie Pricella
Irja Pullman
Robert Conrad Putnam
Eileen Mary Quigley
Kyllicki A. Rahko
Tauno Ensio Rapo
Alice Mary Reilly
Albert Joseph Reinhalter
Edith Ida Elizabeth Renaud
Barbara E. Rice
Katherine Louise Richardson
Cora Grace Roberts
Doris Louise Roberts
Helen Frances Roberts
Daisy Robertson
Gordon Ironside Robertson
F. Wesley Rogers
Louise Priscilla Rood
Mary A. Rooney
Richard P. Ruggles
Peter George Ruscitto
Helen Elizabeth Russell
Helen Wilhelmina Saari
Muriel Helen Sabeau
Lucio P. Salvucci
Sarah Elizabeth Sargent
M. Dorothy Savage
Althea Penne Sawyer
Grace Kathleen Seager
Frederick B. Seldon
Frances Shatz
Walter C. Shaw
James D. Shea
Helen Elizabeth Shields
Elinor Shute
Rose Silverman
Naif L. Simon
Robert Arthur Simpson
John S. Sisson
Frederick M. Smail
Donald F. Smith
Francis L. Smith
G. Stewart Smith
Olga Eva Smith
Arthur O. Sprague, Jr.
Sadye Stein
Grace Marjorie Stevens
John Frederick Stevens
Bella Stone
Eleanor May Strout
Catherine Rita Sullivan
Francis E. Sullivan
Geraldine M. Sullivan
Kathryn Frances Sullivan
William C. Sullivan
Margaret Genevieve Surette
Viola Eleanor Swanson

Barbara Lillian Whittam
Irene May Wiitala
Myrtle Mav Will
Ena May Williamson
John Woodrow Wilson
Walter G. Wilson
William Thomas Wing, Jr.
Edward Everett Wood, Jr.
William Lane Woodbury
Albert Wright
Mario Francis Zeni

2. Graduates from the Home Making School, June, 1932

26

Margaret Mary Abdallah	Marietta Lorina
Mary Virginia Babin	Dorothy Christine MacDonald
Marina Nazarene Bosco	Marion Maralyn Mahoney
Camilla Nellie Calvi	Gina Menchi
Marion Elizabeth Cobb	Dorothy Elizabeth Murphy
Mary Joselyn Crooker	Evi V. Peltonen
Agnes Charlotte Erickson	Arlene Priscilla Porter
Bernice Jean Findlay	Frances Reed
Concetta Helene Giovannangeli	Rena Sachetti
Leonora Mae Iacomini	Myra Florence Sheppard
Marjorie Adeline Kilpatrick	Loretta Woods
Josephine Esther LaLonde	Helen Elizabeth Young
Helen Mildred Lund	Rena Zopatti

3. Graduates from the Trade School, June, 1932

35

Auto Mechanic Department

Clinton D. Bartlett	Salbe Mollica
Russell W. Hanson	Charles F. Riley
Edward A. Harney	Victor Serafini
Harold Vilhelm Mattson	Henry W. Venuti

Cabinet Making Department

Bruno Calderara	Frank Romano
Walter R. Rahlberg	J. Edward Smith
Arvo Victor Honkonen	Olindo Tocchio
	William A. Mackie

Sheet Metal Department

Albert A. Burke	John H. Lindholm
James E. Healy	Leo B. Pompeo
	Bernard A. Ward

Electrical Department

George W. Allison	Oulton S. Hues
Everett W. Anderson	William F. Leggett
Samuel H. Greenberg	Mario J. Lomanno
Forrest E. Hayden, Jr.	Cornelius J. Sullivan

Pattern Making Department

Dillio Bini

Plumbing Department

Phillip J. Cardarople	Reino M. Rautiainen
J. Edward Harron	Harry Resell
Robert Hugo Lundquist	Malcolm A. Squire

APPENDIX C

SCHOOL STAFF AND TEACHERS' ORGANIZATIONS

1. Organization of Staff, December, 1932

Black face signifies attended without graduation.

Attendance for less than one year at an institution is not noted.

JAMES N. MUIR, B.S., Superintendent, University of Pennsylvania;
elected 1927

ALBERT H. COCHRANE, Ass't Superintendent, Harvard, A.B., Ed.M.;
elected 1925

Senior High School—Coddington Street
